FRANCE IS FEELING WORLD DEPRESSION - PARIS, Feb. 6.—France is beginning to feel the pinch of the world depression. The declining revenues of the country are likely to result in a budget deficit of a billion francs, or 40 million dollars.

France's exports show a decline. Unemployment is growing. And what particular hits the Frenchman of moderate means is that the cost of living still climbs.

The present situation is giving rise to some concern. The number of the unemployed, who in December were estimated to number 10,000, now appear in the official returns as being between 30,000 and 40,000 and the official figures admittedly do not tell the whole story.

"There is no reason for anxiety," it was stated at the Quai d'Orsay to day. "Long-planned schemes to increase the national efficiency by way of building public works are, it is understood, to be carried out."

France also has an important safety valve in the number of foreign workmen within her borders, men admitted under contract. They can be returned as the contracts expire.

of Canadian claims be made available until June 30, 1932.

In submitting the request, Director Roop said:

"Although notes have been exchanged fixing the procedure of arbitration of claims submitted by Canada on account of the sinking of the schooner 'Im Alone,' the Canadian Government has not thus far filed its statement of facts with the arbitrators, and it is not possible to foresee just how much longer this case will continue.

"It is thought, however, that the American and Canadian arbitrators will not be able to take up this case before June, 1931, in which event it will be necessary to have funds available for expenditure after July 1, 1931."

ARBITRATION EXTENDED - WASHINGTON, Feb. 6.—The sinking by the coastguard of the schooner 'Im Alone' was again brought to the attention of Congress today when President Hoover recommended the unexpended balance of the \$22,000 appropriation for arbitration
