**ST. JOHN WOMAN DEAD IN HOVEL**

ST. JOHN, N. B., March 10.—In a wretched hovel, almost filled with accumulated ashes, dirt and debris of the six years she had lived there, the dead body of Mrs. Margaret Donovan aged eighty years was found yesterday afternoon, in the rear of St. Patrick Street. A neighbor who had been in the habit of bringing water for her, every morning, could not get an answer when she knocked at the door Tuesday, Wednesday and this morning. She investigated this afternoon and found the woman lying dead, across the bed.

It is said she had wealthy relatives abroad who sent her some money at times.

...MONTAGUE.—The third meeting of the Quarterly Official Board of the Montague Circuit met in the Methodist Church at Montague on Thursday afternoon, March 8th, at 2:30 p.m. The reports received from the various parts of the circuit were considered to be very satisfactory, and the financial returns were a little ahead of last year for the three quarters. The following resolution was spoken to by all the members present, expressing their hearty appreciation of the work being done and was passed most unanimously. Resolved—"That we the members of the Quarterly Official Board of the Methodist Church at Montague; do place on record our appreciation and entire approval of the active work, which the Temperance Party is now doing in our midst; and further resolve, that we co-operate with the pastors of the various churches and the Temperance Party in general in Montague in this work.

...KINDLY REMEMBERED.—On Monday evening last, March 3rd, a large number of the Methodist congregation at Montague met at the parsonage to bid good-bye to Mrs. George Dewar and her daughter Hazel, who are leaving on Tuesday next for Calgary, Alta. The former part of the evening was spent in games and conversation, and refreshments were served by the ladies; when the refreshments had disappeared, an event of unusual interest transpired. Addresses were made by Daniel A. Martin, W. A. Cummings, Horatio Nelson, Mr. Campbell and Rev. Hugh Miller, each one expressing in no uncertain terms their great appreciation of the high and Christian character of those about to leave; and lamenting deeply the loss which the Methodist Church will sustain in the removal of those friends from Montague. A silver tray was presented to Mrs. Dewar as a token of appreciation of services rendered to the cause of God in their midst. Mr. and Mrs. Dewar replied in suitable terms after which two verses of "Hail, the Conqueror's Hero" were sung. The gathering then broke up and all went to their homes feeling that a profitable evening had been spent.

**Could Not Heal The Wound**

For many years Dr. Chase's Ointment has had an enviable reputation as a means of healing ulcers, sores and wounds that refuse to yield to other treatments.

In this letter you will read of a case in which doctors failed to heal a wound made in operating. All sorts of treatments were tried in vain until Dr. Chase's Ointment came to the rescue and made a cure.

Mr. G. E. Leslie, brakeman on the C. P. R., and living at Grand Falls, N. B., writes: "I have given Dr. Chase's Ointment a most severe test, and do not believe there is any treatment so successful as a healer of the skin. I was operated on for a tumor, with the result that a wound was left which refused to heal, in spite of many preparations tried. Dr. Chase's Ointment healed the wound rapidly. So thankful am I for the cure that I want others to know about this wonderful ointment."

**Would Spring Out Of Her Bed. She Was So Nervous.**

Diseases of the nervous system are very common. All the organs of the body may be sound while the nerve centres may be affected.

Many women become run down and worn out by household cares and duties never ending, and sooner or later find themselves with shattered nerves and weak brains.

On the first sign of any weakness of the heart or nerves, flagging energy or physical breakdown, do not wait until your case becomes hopeless.

Get a remedy which will at once quiet the nerves, strengthen the heart, and build up the whole system.

Avail yourself of a perfect cure by using Milburn's Heart and Nerve Pills.

Mrs. E. Beers, Upper Main Street, N.B., writes: "I have used Milburn's Heart and Nerve Pills for over three months. I was so nervous I would imagine everything, and would spring out of my bed at night.

I tried the doctors, but they did me no good. My brother advised me to take Milburn's Heart and Nerve Pills, which I did, and I can give you the greatest thanks, as they completely cured me."

**TO EXPLORE JOSEPH'S LAND.**

PARIS, March 6.—Important results are expected from the Antarctic expedition which will be set out from Ha-ve in June for the exploration and scientific examination of Franz Joseph Land under command of Jules De Payer, an Austrian by birth, whose father was the discoverer of this land.

De Payer will carry beside himself a navy lieutenant, an ensign, two captains, two medical men, naturalists, geologists and an army aviator, who will have two aeroplanes as exploration, by air, will, if practicable, be an important feature of the expedition. During the next winter the mission will make astronomical, physical and meteorological observations and important movements are expected to be obtained.

A wireless station will be erected which will be in communication with the Eiffel Tower. When the polar winter breaks the expedition will divide into two parties one of which headed by De Payer and provided with several sledges, dogs, small boats and kites, will make a dash for the northeast to ascertain the starting point of the unfathomable abyss which bounds the North European submarine continent according to the researches of Nansen and the Prince of Monaco. The other party will thoroughly examine the canals, and hitherto unexplored islands of the archipelago from the stand-points of geology, biology, oceanography, etc. The De Payer expedition expects to be gone at least a year and a half.

**Baby Bonds**

for the small investor.

More and more attention is being paid by the financial journals to the "growing" custom of issuing "Baby Bonds." The "Financial World" says the "Baby Bond" has long been popular in European countries, especially in France—the richest nation in the world—where millions are invested by the plain people in bonds of small denominations.

Bonds of the usual \$500 and \$1000 denominations are not within investment reach of the ordinary salaried man. But now "Baby Bonds" of \$100 are being issued. \$500 p.c. to be had in any sound industrial corporation as the Nova Scotia Steel & Coal Co., the Maritime Telegraph & Telephone Co., and Brandram-Henderson Ltd.

Such "Baby Bonds" yield at present low prices the attractive interest of 5.50 p.c. to 6.14 p.c. We shall be glad to send full information of these "Baby Bonds" to any man anxious to increase his income from his savings.
