How to Save Money on Footwear

There are different ways of economizing in footwear.

To buy cheap badly-made shoes is not economy. But to buy good shoes—high class shoes—is economy.

It's impossible to use high grade materials for cheap shoes and make money.

And it's also impossible to use the best machinery and employ the best workmen.

Because it wouldn't pay to do either.

When you buy cheap shoes you buy cheap material and cheap workmanship.

But when you buy Invictus Shoes, you buy the highest grade it's possible to make.

You buy the best materials obtainable, labor of the highest skilled workmen, and the very latest and best up-to-date methods for making high grade shoes.
