

# Children Cry for

## Fletcher's CASTORIA

Fletcher's Castoria is a pleasant, harmless substitute for Castor Oil, Teething Syrup, etc., prepared for infants in arms and Children all ages.

Always look for the signature of *Charles H. Fletcher* Physicians everywhere recommend it.

### Teachers And Others All Expense Tour

ACROSS CANADA

Cost, personally conducted tour to the Pacific coast, via the Canadian National Railway and under the direction of C. A. Adams, B. A., Principal, Granby High School, Granby, N. B., has been arranged for a train to leave Montreal on the 20th inst., returning on July 10th.

These tours have proven very profitable and enable Teachers and others to avail themselves of the advantages of the low cost service of the Canadian National Railway.

### STOCK MARKETS

(Canadian Press) MONTREAL, May 17.—Dominion live stock report—Cattle receipts 732, there was a good demand for the common and medium kinds of butcher steers and female stock.

Small lots of good steers were sold for \$7.50 and \$7.60 and offered for the best. Several lots of medium steers were sold from \$6.50 to \$7.00 and two loads of mixed quality steers including a number of good ones brought \$7.25.

Good heifers topped at \$7.50 and good cows sold from \$5.25 to \$5.75 with a top of \$6.25 paid for a few choice ones.

Medium cows sold from \$5.00 to \$5.50 and bulls sold well at from \$6.25 to \$5.65 for good ones. \$4.00 to \$5.00 was paid for common bolognas.

Quotations: Butcher steers good \$7.25 to \$7.60, medium \$6.50 to \$6.80, common \$5.75 to \$7.00, butcher heifers good \$6.50 to \$7.50, medium \$5.75 to \$6.25; common \$4.50 to \$5.50, butcher cows good \$5.25 to \$5.15, medium \$3.75 to \$5.00; canners \$2.25 to \$2.50, cutters \$2.75 to \$3.50, butcher bulls good \$5.25 to \$5.65, common \$4.00 to \$5.00.

Calf receipts 1,526 calves prices were about steady. A few top quality calves were picked out at nine dollars and other good ones seven fifty and eight dollars.

Quotations: Good veal \$7.50 to \$8.00, common \$6.00 to \$7.00, common \$5.00 to \$6.00, sheep receipts \$8.35, sheep sold from \$6.00 to \$8.00, according to quality and sorting lambs \$6.00 to \$10.00 each.

Quotations: Ewes \$6.00 to \$8.00, choice ones 1.25. Hogs were scarce and prices advanced sharply by over last week. The ruling price this morning was \$15.25. Some poorer quality hogs were sold for \$15.00 and sows \$11.75 to \$12.00.

Wash fresh meat before roasting. Scrape it if you think it needs a dress cleaning. If it is moist, wipe it dry before putting in oven.

## Sporting Comment

By ("TEC")

At present everything locally in the sport line has quietened down considerably. In a week or so the summer season will be in full flight. Paddlers, oarsmen and lovers of the sailing craft are to be seen tuning up; not a few of the golf courses are being frequented by some of the "early birds," and a few tennis rackets have made their appearance.

Baseball, however, seems to have taken the lead hereabout in this regard, diamonds throughout the city being densely populated with the younger "fry" and match games are the order of the day. It may be added that the school leagues, West Kent and Queen Squares have gotten under way and nearly every day after school hours different competing teams may be seen at Victoria Park battling with might and main for the coveted honors.

Referring to the above, I may say that the material available which goes to make up the personnel of these young aggregations, is not only surprising, but praiseworthy, to say the least. Under the guidance of their coaches these boys are showing a class in favorable comparison with many of the players working out for City League berths.

On a stroll a few days ago in the vicinity of the "Little Diamond" at Victoria Park the writer witnessed a hard fought game in one of these school leagues. The boys seemed to have had all the essentials and knowledge of the game putting into practice numbers of plays that would make some of the seniors green with envy. It would be well to look after these young stars and in the course of a year or two some of the best ball players it has been our pleasure to watch will be performing in the senior ranks with credit to the city and province.

### OPENING OF CITY LEAGUE

The City League will open its season this day week at Victoria Park the first three games on the schedule are to be played there, and preparations are being made for a gala opening. The diamond at the Park, the scene of many a hard fought contest is being put in shape, the infield will be skinned about fifteen feet back of the running lines and rolled to the smoothness of a tennis court. A new home plate made of rubber and regulation size will be another innovation, including new sacks and other paraphernalia necessary to the furtherance and efficiency of the game. The league deserves encouragement and support. The brand of ball has every promise of being the best seen here in many years and the interest evidenced by all three teams was never greater. The games should be hard fought and cleanly contested. Of course there may be big scores, plenty of errors, and may be loose fielding, but the "misdeemeanors" will be balanced twofold by snappy work afield and the bat—not to mention great hitting. As chronicled above, the first three games will take place at Victoria Park where no admission fee will be charged, but afterwards Charlottetown fans should relax from their usual frigidity, and give the Anchors, Rovers and Stars a cheer, and an evidence of appreciation by their attendance. The cake will keep, and taste as well in the evening, and the Oxford bags won't be soiled by contact with the chairs. Figure it out, and in the meantime give the league a chance to get going. Those who want to criticize should first go to the game. Admission gives all the privilege to vent their opinions.

### TO THE MANAGERS

All hail to these worthies, "Dutchy" Whitlock of the Anchors; Dr. Charles Dougan of the Stars and Nels Whitlock leading the Rovers. Every cooperation not only by the players but fans as well should be given these leaders in their work of rounding the different teams into playing ability worthy of the league and successful carrying on of same. The writer (pardon the modest admission) had experience along the same lines and at most it is a thankless job and at times very trying. To please everyone concerned one must have the wise judgment of a Solomon, the philosophy of Shakespeare and the patience of Job to cope with every difficulty that might arise not forgetting the disgruntled individual or player who thinks he knows more than the manager and could guide the rank and file to a more satisfactory conclusion. However, cooperation and perfect harmony in the camp is the keynote, win, lose or draw. Good luck to the City League.

### THAT BASKETBALL CHAMPIONSHIP

The writer is in receipt of a letter with reference to the recent basketball game played between the Maples and St. Dunstan's University squads. This letter is unsigned and cannot be published without the writer's name being signed to same. However, for "Basketball Fans" benefit I may say—true enough, basketball on an organized basis has not been carried on this season and for a good many seasons past. Said game was advertised as a championship affair several days previous to its taking place and this was the opportune time for any "kicks" that may have been registered. However, with reference to above mentioned letter I interviewed the captain of the Maples and was informed that said team is ready and, more than willing, to defend its claim to the basketball championship of Prince Edward Island. Now don't rush, one at a time. Acceptance to be made through the columns of this paper.

### THE DOMINION INTERSCHOLASTIC MEET

Latest advices "warn" us that the Dominion Interscholastic Meet is to be held in Montreal on Saturday, May 29th, and star athletes from Charlottetown including other Maritime centres are entered to compete. With reference to same the writer cannot ascertain just who are going to represent this city. If any athletes are under consideration it is high time, to my mind, that they get into training and that in a hurry, as nearly every province in Canada will be represented and stiff competition is bound to result. The last meet of this kind held in Montreal was a huge success with a number of local athletes giving a good account of themselves. The advertising as a result must have been of the "A-1" calibre judging by the prominence with which this city is mentioned in the coming event. Therefore officials governing same in this locality had better get busy if local interscholastic athletes are to represent us in this Dominion wide affair.

### INTERSCHOLASTIC EVENTS

The following are the events: 100 yards dash, 220 yards dash, 440 yards dash, half mile run, one mile run, 120 yards hurdles, 3 ft. 6 inches pole vault, running broad jump running high jump, 12 pound shot put, discus throw, javelin throw, one mile relay (four boys from same school, each to run 440 yards).

In connection with the above Mr. S. F. Doyle, President of the M. P. B. realizing that we have a number of the fastest interscholastic bike performers in Eastern Canada, wired Mr. A. S. Lamb, Montreal, Secretary of the Meet last night with reference to the inclusion of one or more bike events on the program. The answer to this wire will no doubt be awaited with great interest here.

Masters Edward Hornby, Cyril Arsenault, Carl Prowse, Arthur Gormley and others are especially interested as the above mentioned boys are no mean exponents of the winged-wheel game.

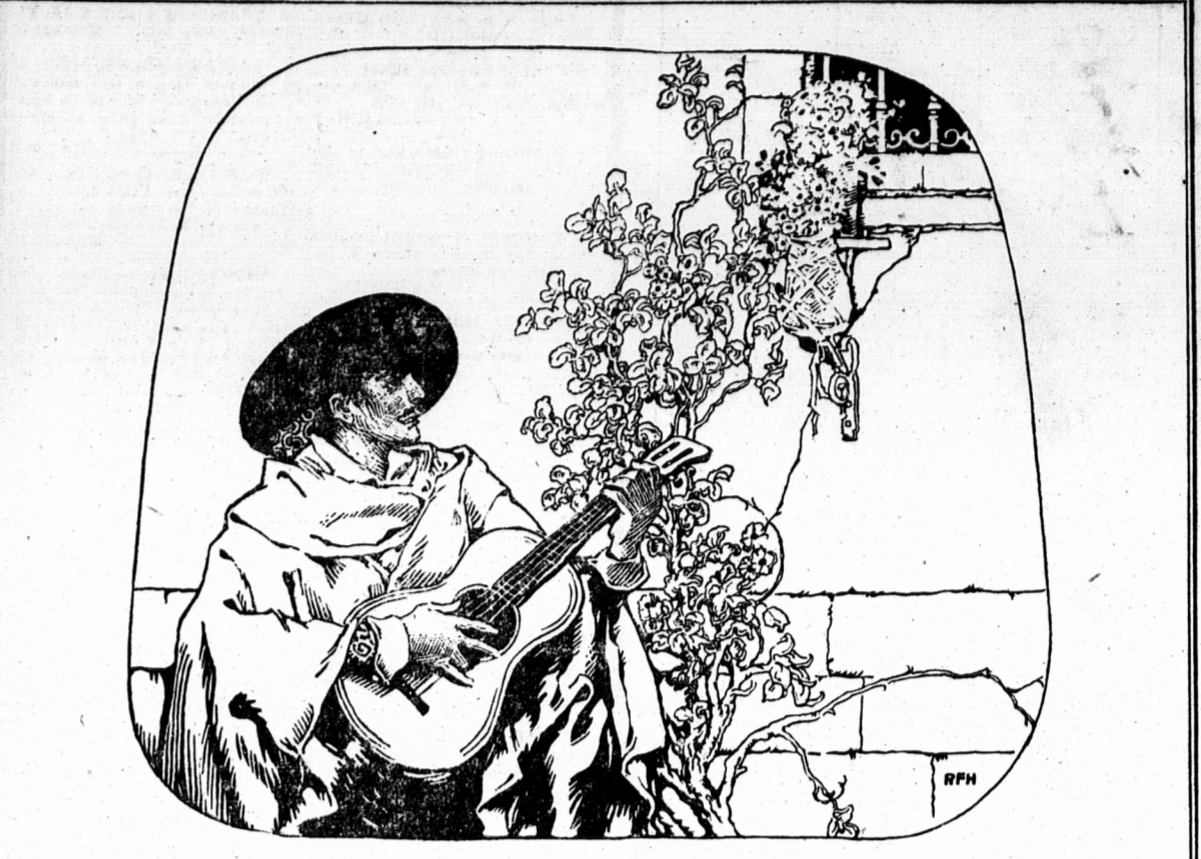

### NOTED IN PASSING

Babe Ruth has gone into the candy business. Hereafter he will be known as the "Sultan of Sweets," as well as the Sultan of Swat.

An Italian residing in the Southern States, who achieved fame as a baseball umpire, has been sent to jail for theft. His story might be termed the Rise and Fall of the Roman Umpire.

### "THAT CENTURY DASH"

Never before has the world's record for that popular sprint race—the 100-yard dash—been so endangered. Judging from the performances of several of our mercury-footed flyers, the long standing mark of 9.3-5 seconds, set nearly 25 years ago by Arthur Duffy, will be shattered this

Days of Romance when gay gallants sought favour with songsters sung beneath midday's lattice! Romance still reigns, but favour now is sought with tokens such as Moirs.

The "Acadia" Package expresses most eloquently the sentiments of lover, husband, father or friend.

## From ACADIA—Land of ROMANCE

summer. As a matter of fact the mark has been beaten twice this month, although it is doubtful if the records will be accepted because of certain wind advantages favoring the runners in both instances.

Roland Locks, the University of Nebraska flash, was clocked in 9.5 for the distance. True, the wind was behind him, but he did it over a muddy track—a fact that leads the experts to feel confident that he can repeat that time again under proper conditions.

Last Saturday Phil Barber, of the University of California, ran a hundred in 9.5. Barber's mark will not stand either and for the same reason. However, Barber must be good, as among those gazing at his heels in that race was Jackson Scholz, the Olympic champion.

Charley Paddock, the greatest of them all, is running in fine form again, and knocked off a world's record the other day by way of preparation. Paddock has run the distance in world's record time more often than any other runner, and is firmly convinced that he can do 9.4 for the century—the mark that has been the goal of every champion sprinter for a decade.

The national championships at Philadelphia in July should witness some remarkable sprinting—and possibly the fall of the long-standing record. In addition to the above mentioned flyers, there will also be at Philadelphia such well known and experienced speedsters as Murchison, and Hussey, the present national title-holder.

### IDEALS Vs. FACTS

Hockey enthusiasts will read with pleasure a letter from owner Adams of the Boston Professional Hockey Club, because it is written apparently by the kind of man of whom there seem only too few at present in business and sport, an idealist. But sugarcoat the pill as we may, the core makes itself felt just the same, and it is impossible to ignore such facts as the entire disappearance of professional hockey clubs and teams from Western Canada and the Pacific Coast, by transplanting them to the United States less than two months after the 1925-26 season closed. Nor can any Canadian pro. hockey enthusiast close his eyes to the two-third vote which is to rule the future National Hockey League affairs, in a body which as things look now, will consist of six United States and four Canadian clubs, the same as it has ruled the league in the past.

uzzing the action of the American Newspaper Publishers Association, which at its recent meeting urged continued educational support of a national forest policy program. Charles Lathrop Pack, president of the American Tree Association, has written E. H. Baker, publisher of the Cleveland Plain Dealer, that

### Tree Association Backs Editors in Forest Policy

WASHINGTON, May 17.—Recog- —By George McManus

the association's action is one of the great forward steps in the movement.

Mr. Baker is chairman of the forest resource committee of the publishers, which in its report to the Association said:

Your committee asks each and every one of you to discuss this matter thoroughly in your editorial councils with a view of keeping the public fully acquainted with the necessity of rehabilitating our timber supply and preventing, before it is too late, the destruction of our forest legacy."

The paper committee of the association at the same time, has reported that Canada this year for the first time will produce more news print paper than the United States and may soon be in practical control of the situation. The committee recommended consideration of development of American paper resources in the northwest and Alaska.

In his letter to Mr. Baker, Mr. Pack points out that there are \$1,000,000 idle acres in the United States which could be put to work growing trees and that American business now pays approximately \$250,000,000 a year in freight to bring lumber from the far west to the manufacturing centres in the east.

Steel and Tile Tested Under Pressure of Fire

CHICAGO, May 15.—The qualities of steel and tile building materials to withstand fire under the same pressure to which they are subjected in a burning building are being tested for the first time at the Underwriters Laboratories here.

The laboratories have frequently tried building materials for their ability to withstand heat, but until now has a means been perfected to test building materials for imperviousness to prolonged heat under a load such as the curbs as part of the walls of a building.

The laboratory workers are building a brick wall in a huge steel frame supported by girders, with a sill resting on hydraulic jacks. At the same time that the wall is subjected to furnace heat the jacks put pressure on the structure. Some methods and materials of construction might make a wall which pressure could not budge under normal conditions, but which would yield under pressure when it is subjected to fire.

Because there has been no way to test building materials simultaneously for resistance to heat and pressure, previous fire tests

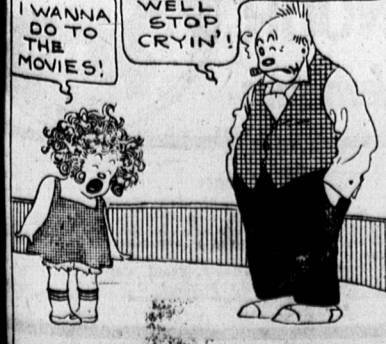

### Indigestion

When chronic, is best relieved by Dr. Chase's Kidney-Liver Pills.

In most cases, indigestion results from torpid liver and sluggish bowel action. Tablets for the stomach and aids to digestion fail in this chronic form of indigestion. You must get the filtering and excretory organs right before you can expect permanent relief and this is best accomplished by the use of Dr. Chase's Kidney-Liver Pills.

Chronic indigestion is a very common condition. On this account many suffer for years not realizing that relief is at hand in the form of Dr. Chase's Kidney-Liver Pills. Headaches, biliousness, spells of constipation and diarrhoea are among the accompanying ailments. What a relief it would be to be free of this condition which makes one feel so miserable and it is so easy by using this well-known regulator of the liver, kidneys and bowels.
