R. H. ROGERS, Chief Superintendent of Education 116919-10-1921.

"MARITIME" THE FENCE WORTH WHILE

The Wire used in Maritime Fencing is heavily galvanized to protect it from the humid saltiness of the Maritime atmosphere. This is one reason why Maritime Fencing stands the rigid test of time and use. Maritime Fencing is Quality Fencing.

Maritime Gates are deservedly popular for they are made to stand the ravages of frost, heat and moisture. The piping used in making Maritime gates is galvanized inside and out.

Does a Good Tire Spare Your Motor?

Cars equipped with Firestone Cord Tires show a slower depreciation as well as a lower gasoline consumption.

This is noticeable particularly when driving away from main travelled highways. Longer mileage is only one of the advantages the Firestone user enjoys.

The contour and pattern of the massive non-skid tread provides a surer grip on the road, gives efficient traction without waste of power, and thus eases the heavy pull or sudden strain on your motor.

The staunch carcass is built up of cord plies insulated to prevent friction and strengthen wear-resistance.

The remarkable resilience of Firestone

Cord absorbs lesser road shocks and roughness, lessens vibration and tension on both chassis and engine.

Why not get the added comfort and extra mileage insured by the special Firestone manufacturing methods carried on in Canada's most modern tire plant.

The steadily increasing demand for Firestone Cords, month by month, attests the fact that car owners realize as never before that extra mileage without additional cost is the one great source of tire economy.

A Substantial Income From These Bonds

THE average yield from Canadian Government and Municipal Bonds at present prices is now but slightly higher than 5%. A MUCH higher income return, combined with safety of principal, is obtainable from investments in well selected corporation bonds, as the following list indicates:—

	Rate	Due	Price About	Yield % About
Calgary Power 1st Mgtg. Bonds	5	Jan. 1, 1940	78.21	7.25
Canadian Salt General Mgtg. Bonds	7	May 1, 1941	102.	6.80
Western Dry Dock and Shipbuilding 1st Mgtg. Bonds	6	Jan. 1, 1929-31	6.50% basis	6.50
Abitibi Power & Paper Genl. Mgtg. Bonds	6	Jan. 2, 1940	97.50	6.25

PRICES of Government Bonds have already shown a broad advance. Indications are that high grade Corporation Bonds have not by any means fully discounted prevailing money rates. Consequently the purchase of these securities at current levels is to be recommended.

WE offer the above bonds for immediate investment and invite inquiries for full particulars.
