Carpenters are already at work on the property on Central Street which was owned by the estate of the late Mrs. Holden Mills. The second property is a residence on Harvard Street which Mr. Llewellyn purchased from Mr. Claude Blakney and which had been occupied for many years by Mr. John Boates. This building will contain four apartments when renovated and work is expected to commence the first of next week. —S.

—**BUILDING SOLD**—The building on Water Street, Summerside, owned and occupied for the last five years by the MacFarlane Produce Co., Ltd., has been sold to Mr. Brenton MacLean of Summerside, formerly of Lot 16. Mr. MacLean, who besides being in the potato business is agent for motor trucks and carries a line of automobile accessories, intends moving into the building as soon as the quarters are available. Mr. Lorne H. MacFarlane, of the MacFarlane Produce Co., who intends continuing in the wholesle potato business, expects to have his office in the remodelled Sinclair and Stewart bulding, now undergoing extensive changes.—S.

—**ENJOYABLE DINNER** — The cast of the recently successful play, "Soup to Nuts" which was staged in St. Paul's Hall, Summerside, by the St. Thomas Aquinas Society Players, attended a delightful dinner at Hillcrest Lodge on Monday evening served by Mrs. Arthur McEwen. After the dinner an enjoyable musical evening was spent with Mr. Joseph Perry and Miss Bunny Clow at the piano.—S

—**ENJOYABLE DANCE** — One of the most enjoyable dances of the season was held in St. Mary's Hall, Summerside on Tuesday evening under the auspices of the Ladies' Guild and the Laymen's Association. Music was supplied by the Blue Notes Orchestra. Mr. Earl Crane was the master of ceremonies and the prize winning couples for the spot dances were Miss Rena Arsenault and Mr. Alfred McQuaid and Miss Pauline Todd and Mr. George Woodside. The hostesses were: Mrs. Wilfred Lecky, Mrs. Ingham Palmer and Mrs. Roy Tanton.. A delicious lunch was served by the ladies of the Guild.—S

## Crapaud-Victoria Board of Trade

The regular monthly meeting of the Crapaud-Victoria Board of trade was held at Crapaud April 7th.

The president Mr. Ssprgeon Clark was in the chair. The minutes of the last meeting were read and approved.

Mr. R. N. Dowson, chairman of the road committee reported on the condition of the roads. He said today the road to Charlottetown was, in his opinion, impassible, the road to Summerside was not so bad there being one or two bad spots. He then reported an interview his committee had with the Premier and the Minister of Public Works, regarding the Borden to Charlottetown highway via Tryon, Crapaud, Victoria and Bonshaw. He told the Board the committee got no definite promise that anything would be done on this important highway this season. Other members of the committee felt they were not getting the action on this project they expected. After considerable discussion, the Board thought the Minister should answer their brief on this project. Some time had now elapsed since the interview, and it was felt that some decision might be forthcoming at this time.

The matter of bringing the mail direct from Albany to Crapaud and Victoria was gone into and to date the Board has had no reply to the brief which it had prepared on this matter. The members felt that some further action would have to be taken if the Post Office Dept. continued to ignore the Board's proposal for a better mail service to the villages.

The subject of regional high schools for the province was discussed, and it was agreed by nearly all present that the system was a step in the right direction. The Board felt that this section of the province would be served, and a school would be placed somewhere accessible to our villages and vicinities.

The committee on agriculture brought up the matter of the warble fly on the cattle, and said as far as they know no move was being taken in this matter. The Board thought the committee should do something about it. It was decided to approach the Creamery Company and have the powder distributed by them to its patrons.

Mr. Desmond Callaghan, recently spent a few days at his home in Ebbsfleet.

Miss Inez Smith of Bloomfield Station has secured a position in the Co-operative Store in O'Leary. —B.

## C.C.F. Meeting Held At Tignish

The scarcity of consumer goods in Canada is being deliberately created by monopolies, Mr. Fred M. Young, C.C.F. organizer for the Maritimes, told a meeting that was held last night in the parish hall, Tignish.

Mr. Henry Doyle, Tignish, presided.

Other speakers were Mr. Douglas MacBrien, C.C.F. organizer for the Province; and Mr. Ross Campbell, Alberton, who is one of the two C. C.F. candidates to contest the First District of Prince in the next general provincial election.

Mr. Young told his hearers that "Big Business' is deliberately holding goods from the Canadian market while exporting them abroad. While Canadians are unable to buy new cars or trucks, Canadian car manufacturers shipped three times as many cars and trucks out of Canada last year as they exported in 1938.

Paper products were scarce in Canada, Mr. Young said, but that scarcity could be accounted for by the fact that over twice as much wood pulp had been exported last year as in 1938.

Mr. Young also told the audience that while farmers found it impossible to secure farm machinery in sufficient quantity, the manufacturers had shipped five times as much farm machinery out of the country last year as they had exported in 1938.

Mr. MacBrien spoke on the differences between the principles of Communism and those of the C.C. F.

## TRUMAN CALLS

(Continued from Page 1)

the way there would be no trouble.

The President said he had received offers from many businesses to reduce prices if it could be done on a group basis without violating the anti trust laws.

One business could not be expected to make substantial reductions while his competitor maintained high prices and if they teamed up in a general agreement to reduce they would violate the law.

The president said the Justice Department no doubt would approve a group move to reduce prices if such an agreement could be framed with appropriate safeguards.

When Congress wiped out the price control system last summer and enacted a substitute bill which was unworkable, the President said he had warned of the consequences.

The evils he had then foreseen had resulted, he said, and something would have to be done.

Re-establishment of price control machinery was not feasible, the president said, because the people did not want it.

He said he was all for free enterprise but the people must realize that if free enterprise was to be successful, the people must work at it.

A buyers' strike was not the answer. It was no different from any other strike—it threw a monkey wrench into the economic machinery.

A situation in which prices were so high people could not buy was another thing altogether.

The President said he had little influence on the situation other than normal suasion but was investigating other possibilities. Something might be done under existing fiscal laws.

## Nine Killed In Mine Explosion

(By The Associated Press)

EXETER, Pa., April 10 — The United States' second coal mine explosion in little more than two weeks killed nine anthracite diggers and injured nine others as they worked 350 feet underground today.

The blast—attributed to gas—brought no immediate comment from John L. Lewis, United Mine Workers chief, who closed the country's bituminous workings in mourning after 111 died in the March 25 tragedy at Centralia, Ill However, an immediate report was asked in the Pennsylvania legislature.

The government operated the Centralia mine as it does some 2,500 other bituminous workings but has no hand in anthracite operations centred chiefly in eastern Pennsylvania.

## U. S., Britain Agree France To Get Saar

BY WEST GALLAGHER

MOSCOW, April 10—(AP)—The United States and Britain agreed tonight to French demands that the 736-square-mile Saar and its 863,000 predominantly German population be slashed from Germany and its coal-producing economy be administered solely by France.

Secretary of State Marshal proposed that the first steps toward that goal be taken by the council of foreign ministers, Foreign Minister Molotov, facing an issue that placed him on a tough political spot, was silent for the time being. He promised a statement tomorrow.

Both Marshall and Foreign Secretary Bevin opposed French demands that the industrial Ruhr be detached from Germany. They spoke out also against creation of any special regime for the Ruhr, or any international ownership or management of that storehouse of German industrial resources.

## Judge Refuses To Cut U. M. W. Fine

(By The Associated Press)

WASHINGTON, April 10—Judge T. Alan Goldsborough refused today to cut the United Mine Workers $3,500,000 fine at this time, declaring there is evidence that John L. Lewis had taken "advantage" of the Centralia, Ill., mine explosion to cause a new coal strike

The Justice, who imposed the historic fine for contempt of court last December, postponed consideration of the matter until April 24. He said he does not see how he can make the reduction even then.

### NEW BERMUDA BUSES

HAMILTON, Bermuda — (CP) —First of a new fleet of buses ordered by the Bermuda government from Britain to replace the old fleet and the existing train service, arrived recently.

### WHAT ABOUT SIBERIA?

EDMONTON, April 9—(CP)—Defence Minister Brooke Claxton said in an interview today that it would be "interesting" to know "what weather stations" Russia has established in Siberia.

The minister, on an inspection tour of Western Canada defence establishments, made the statement when asked about Russian criticism of Canada's development of weather and air stations and the Alaska Highway on this country's northern frontier.
