TUESDAY MORNING NOVEMBER 20, 1906.

ATTEMPT TO KILL THE POPE.

The attempt upon the life of the Pope in St. Peter's Cathedral at Rome, recorded in our cable despatches yesterday morning, will shock the civilized world as an act of fiendish wickedness that breaks all modern records.

We regard it as a merciful intervention of Providence that not only the Pope but all the vast congregation there assembled to worship escaped the deadly peril unscathed.

Let us hope for the name and credit of our common humanity that the perpetator was insane——a madman. It seems inconceivable that any rational human creature could attempt so black a deed of wholesale murder and sacrilege.

The poor excuse sometimes made by the slayers of tyrants is wholly wanting here. Pope Pius is not an oppressor or a tyrant; on the contrary he is a man of gentle spirit, a lover of peace, a man who prays for his would—be murderers.

Had the black hearted attempt succeeded and had the Pope fallen a victim to the deadly explosion, the entire Christian world, whether within or without the Church of which he is the earthly head, would have been inconceivably shocked. Equally wide will be the sense of gratitude that the murderous attempt has failed.

And such deeds of devilishness must always fail of their object. Had the Pope and with him thousands of the worshippers in St. Peters fallen in awful carnage around the altar, neither Catholic church nor the cause of religion in the world would have been shaken.

It is thus even where the assassin's weapon is aimed at temporal rulers. A A Czar, a King, or a President is stricken down, but other rulers spring up in their places. The powers that be are ordained of a higher Power.

These bloody short-cuts to forbidden ends can never ultimately triumph. They work defeat upon themselves. The last crowning atrocity must powerfully move the world to unsparing warfare against the murdering tribe of Anarchists.

Nations, governments, society itself, must arm against them. Their plots and crimes are plots and crimes against mankind. They must be checked with a united and resolute hand, lest chaos come again.

Calgary is working to get 50,000 population. It has already 25 per cent of the number.

Magistrate Kay is "a Denison" of Moncton. He is also a terror to evil doers. He takes hold of the hardened Scott Act violator and puts him on the straight road——to Dorchester. The Supreme Court of New Brunswick supports his decisions. This is new and surprising to the saloon keepers, but it goes to show that the old Scott Act is a pretty effective law in vigorous hands. Kay is voted O. K. by the temperance people.

FOR ELECTORAL REFORM.

The country is waking up to the necessity of election reform. The other day a Toronto grand jury expressed "its amazement at the low sense of honor among electors" and calls for a law to punish both the briber and the bribed. Montreal, which years ago had a Volunteer Electoral League that did good work, but was allowed afterward to fall to pieces, is calling it into life again. Charlottetown is not alone in this movement, which we are pleased to note bids fair to become general throughout the country.

The movement should have the hearty support of politicians and prospective candidates alike for moral, patriotic and pecuniary reasons. Clean elections will add to the intrinsic honor of a seat in Parliament or in the Legislature. They will give support to clean and honest government. They will be the least expensive of elections. Nobody will suffer but the election heelers and swashbucklers, the ward bosses, the brawling brood of bribers and the miserable creatures who only value their votes for what dirty cash or rotten whiskey they will bring.

A letter from Dr. J. T. Jenkins in reply to Mr. Dewar on compulsory voting will appear tomorrow.

We ask our correspondents to be brief possible. One long letter takes the place of three or four short ones, either of which is often more welcome to the editor and more interesting to the reader than the long letter. "Boil it down."

YOU FEEL TIRED ALL THE WHILE

Night comes and it's hard to sleep. Morning dawns and the anxious tired feeling is still there. Unwilling to get up, a strong desire to rest just a little longer.

Unwise to neglect this gradual decline. It can't cure itself,—but Ferrozone by forming rich pure blood at once supplies nutriment for building up the system. This extra nourishment is distributed throughout the entire body, gives force to the nerves, strength to the muscle, and power to the digestive organs.

At once you feel braced, toned, strengthened. You know a powerful force is building up depleted energies, you realize what it means to have the vim and spirit of robust health.

Search the world over and you won't find a tonic to nourish, build up, and fortify a weak body like Ferrozone. Physicians claim it is the best all round strengthening medicine ever discovered.

To take Ferrozone regularly is an insurance policy of health, a guarantee that you will be free from vexatious spells of tiredness and debilitating sickness of every kind. Surely it's worth while trying a medicine that Mrs. H. S. Gould, of Bowsman, Man., speaks of as follows:

"I want to state my case, because I think it may be the means of assisting other suffering women to health. A year ago I was almost a wreck. I was pale and emaciated, suffered from nervousness and hysteria. Little things that went wrong in the house bothered me. The doctor advised different treatments but they didn't help. He said my low condition of health was due to weakness that might never be cured. Ferrozone had a peculiar grateful effect and built me up quickly. The ills I suffered from are cured. I am now strong and vigorous and was made so by Ferrozone." (Signed) Mrs. H. S. Gould.

Before your ill-health assumes a chronic or malignant form build up with Ferrozone. Sold everywhere. 50c per box or six for $2.50, at all dealers.

WEATHER PREDICTIONS.

Rev. Irl R. Hicks the weather prophet, whose predictions for October and the first half of November have been remarkably verified in this latitude, sees still more storms in store for the remainder of the month. Falling barometer, higher temperature and great intensity in storminess will, he says, develope and pass rapidly to the eastward about Tuesday 20th to Friday 23rd. On following days "cold high winds out of the northwest will rush in behind these storms as the high barometer moves eastward and southward." Sharp cold is predicted on or before the 25th in the north. On the 26th and 27th we are to have a rise in temperature, a decided fall in the barometer, cloudiness and rain or snow. And a regular storm period is to begin on the 29th and run at least four days into December. Perhaps Hicks is only guessing. The curious may compare his prognostications with the weather as it develops. Any way it is about time to put on the outside windows and storm-doors.

OYSTERS HIGH AND SCARCE.

Montreal laments the scarcity and high price of the luscious bivalve. The Witness notes that the receipts from the Maritime Province have been light and for this reason the price has gone up to exceptional figures. A Montreal dealer who visited the oyster fields of Prince Edward Island this fall tells that the outlook for greater plenty in the future is not assuring. Indiscriminate fishing operations, carried on with all possible activity, have depleted the supply until the beds are practically fished out. And he says although a feeble attempt at restocking the beds has been undertaken this year, the operations cover such a comparatively small field and so few protective measures are taken that observers think the experiment is doomed to failure. Montreal has not half her usual stock on hand, hotels, restaurants and other large consumers are buying from hand to mouth and dealers are asking $7.50 to $10 per barrel for what in other years would sell for much less. The high price adds to the danger of utterly destroying the beds. It is high time for the provincial authorities to wake up and take strong measures to save our oyster industry from utter extinction.
