SUMMARY
(Ottawa April 17)

Stentford-FitzPatrick Nuptials

A wedding of interest to many Island friends took place in the rectory of Assumption Church in Windsor, Ontario, on April 12, 1943, when Mary Thelma FitzPatrick, daughter of Mrs. Patrick Harper, of Digby, P.E.I., and the late James FitzPatrick, was united in marriage to Mr. Edward Stentford, son of Mr. and Mrs. Benjamin Stentford of Charlottetown, P.E.I. The wedding ceremony was performed by Rev. Father Sharpe.

The bride looked lovely in a sea green dressmaker suit with brown accessories and wore a corsage of pink roses. The bride was attended by her sister Susan, who wore a black and rose tunic dress and wore a corsage of pink and white carnations.

The bridegroom was attended by Mr. John Peterson, formerly of Charlottetown.

A reception was held at the home of the bride's sister-in-law, Mrs. John Peterson, College Avenue, where a delicious buffet lunch was served. Assisting in receiving the guests with Mrs. Peterson was Mrs. Benjamin Stentford, mother of the bridegroom, who wore a pale blue dress with peplum effect, and wore a corsage of pink carnations. The table was centred by a very lovely and elegant wedding cake which was topped with green and miniature wedding bells, was cut by the bride and groom. Assisting in serving lunch were Mrs. Hugh Johnstone, formerly of Calgary, Alta., and Mrs. Clarence Styles.

A toast to the bride was proposed by Mr. Herman Ebers.

Out of town guests were Mrs. Herman Ebers of Montreal, sister of the bridegroom, who flew in to be present at the wedding, and Mr. Ebers and Mrs. Benjamin Stentford, Charlottetown.

The happy couple left on a honeymoon to Montreal. Over her suit the bride wore a gray wool gabardine shortie coat trimmed with ermine and groom will reside in Windsor where the groom has a position on the staff of The Windsor Daily Star.

The bride is a sister of Mrs. Roy Durant and Mrs. Harry Simmonds of Summerside. Prior to their wedding the bride and groom received many beautiful gifts including a chest of silver from Mr. and Mrs. Benjamin Stentford, Charlottetown.

Mr. and Mrs. Stentford have many Island friends. Mr. Stentford was formerly on the staff of The Charlottetown Guardian and also of The Pioneer, Summerside, and served in the Navy during the war.

CARE
IN COMPOUNDING

This is a "Reliable" Pharmacy—in all that the term implies. Naturally, we employ only the ablest of Registered Pharmacists. Moreover, we provide these skilled specialists with ideal working conditions; permit them to give undivided attention to the highly exacting tasks for which they are so carefully trained.

Our ethical standards parallel those of your Physician. You may be sure that he will approve your prudence in bringing his prescriptions here for precise compounding.

Successful Sacred Concert Presented

A very successful sacred concert was held in Central Christian Church Hall Monday evening, April 21st under the auspices of the Young People's Society, in aid of the Provincial Christian Church Camp Ki-Ora.

A splendid attendance comfortably filled the Hall and each number was appreciably received. The program included the following numbers:

Piano Duet—"Largo"—Helen and Betty Stewart.
Vocal Solo—"Teach Me To Pray"—Jean Enman.
Address—"I Attended the Passion Play"—Mrs. (Dr.) A. D. MacKenzie.
Vocal Solo—"The Holy City"—Preston Beck.
Piano Selections—"O.K. Presby Reading"—"Indifference"—Mrs. Waldo Bain.
Vocal Solo—"Hold Thou My Hand"—Jean Enman.

As a concluding feature, the one act drama "Eternal Life" by permission of Samuel French Ltd., was presented by members of the Young People's Society. The play could not help but be an inspiration to all who saw it acted so professionally. Those playing parts were: Leta White; Vida Stewart; June Moore; Stirling Stewart; Jack Payne; and Freddie Weeks.

Song effects man, Wayne Gregor did make up artists were Misses Lewis, Clapp, and Hall.

CENTRAL GUARDIAN

This column is reserved for news of local interest, but advertising of a newsworthy nature may be inserted at five cents a word strictly payable in advance.

REDDIN BROS. will be the only drugstore open this Wednesday afternoon and evening.

MEDICAL ASS'N MEETS—Dr. C. B. Stewart of the Department of Preventive Medicine, Dalhousie University, Halifax, addressed the members of the P. E. Island Medical Association last night at the Charlottetown Hotel. Dr. J. J. Murchison, president of the Association, presided. Dr. Stewart is an Islander having been born at Norboro, in Prince County.

Higher Grade School Teachers

Answers to the following questions were tabled in the Legislature yesterday:

1. How many teachers are employed in Grades XI and XII in the schools of Prince Edward Island? Name me the schools and the number of such teachers in each?

2. State what amount of salary is paid by the Government and what amount by the district in the case of each such teacher?

Answers.

(1) Four in Grade XI, three in Grade XII.
Summerside: Three in Grade XII, one in Grade XI.
Kinkora: One in Grade XI.
Souris: One in Grade XI.
Montague: One in Grade XI.

(2) In Summerside, two teachers in Grade XII each receives \$1,550.00 from the Government while one of those teachers is paid \$550.00 by the School Board and the other \$1,000.00; the third Grade XII teacher in Summerside receives \$1,350.00 from the Government and \$450.00 from the School Board. One Grade XI teacher in Summerside receives \$1,100.00 from the Government and \$350.00 from the School Board.
In Kinkora the Grade XI teacher receives \$1,000.00 from the Government and \$300.00 from the School Board.
In Souris the Grade XI teacher receives \$1,000.00 from the Government and \$300.00 from the School Board.
In Montague the Grade XI teacher receives \$1,300.00 from the Government and \$450.00 from the School Board.

Most for your Space

Where the vegetable garden is small big growing things like corn, peas, tomatoes, potatoes and other large vegetables create a problem. Unlike lettuce, spinach, beans, carrots, etc., which can be fitted into rows only twelve to fifteen inches apart, these other take up twice or more than that room. Corn, tomatoes, and potatoes need from eighteen inches to two feet between hills for plants. For enough green peas for a meal from each picking thirty feet of row, and preferably fifty, will be necessary.
Gardeners with a plot (twenty feet or so each way usually) decide after some experience, to abandon potato growing. The other three vegetables mentioned, however, should not be given up without more consideration.
Next Week — Layouts, Double crops, Grass care.

Care of Planned Garden Easy As Sweeping Floor

Begin early, stand up and take it easy in cultivating garden.

Cultivating the vegetable garden should start as soon as the young plants begin to grow. At this stage, if the soil between plants is stirred, it will be found to be full of tiny white sprouts, which are weeds, beginning to develop.

One easy stroke of a sharp hoe or cultivating tool will destroy scores of them before they have begun to compete with the vegetable plants for available plant food and water.

As long as weeds are killed in infancy, cultivation will be easy, but once they are allowed to begin substantial growth, not only do crops suffer, but work will increase, and the care of the garden may become a chore.

When tools are kept sharp and cultivation never neglected, it calls for no more physical exertion than wielding a broom. Modern advice is to take it easy and ever stir the ground deeper than one inch. This is sufficient to kill young weeds, without disturbing the roots of the vegetable plants. It also breaks the soil crust, and allows air and water to penetrate readily.

Deep cultivation will dry out the soil, and may disturb the surface roots of your vegetable plants, which may do more harm than the cultivation does good.

Besides destroying weeds in the space between rows, those which grow in the row itself must be pulled when tiny. This requires hand work, and is always tedious, but if attended to promptly it takes little time, and once the vegetables have become well established, hand weeding will be unnecessary.

Free air circulation in the soil has been proved to be a vital factor in the growth of plants. Experiments by Ohio State University proved that in properly porous soil there is a complete change of air to a depth of eight inches every hour. When the soil becomes compacted and crusted on the surface, this exchange was seriously hampered. Crust formation can be checked by various methods, including the application of a mulch, or by growing a living mulch of fescue grasses, or a creeping plant such as portulaca. But lacking a mulch, frequent shallow cultivation is necessary, especially after every rain.

Varieties Of Swede Turnips

(Experimental Farms News)

Yield is the first consideration when growing Swede turnips for live stock feed. However, when the intention is to market the whole or part of the crop as table stock, uniformity, smoothness and general appearance are of equal or even greater importance. Also if the land is infested with club root that disease should be grown, says J. F. M. Mackenzie, Dominion Experimental Station, Fredericton, N. B.

In the tests at Fredericton, Dittmar and Acadia have been the most productive varieties. The average yield per acre obtained from these two varieties for the ten years 1936-1945 inclusive was, Dittmar—29.8 tons roots containing 3.32 tons dry matter; Acadia—29.6 tons roots containing 3.38 tons dry matter.

Dittmar is a bronze to greenish bronze top globe. The roots are fairly smooth and uniform. Nearly 70 per cent have been of marketable shape and size.

Acadia is a purple top globe. However, this variety is usually rougher than Dittmar. About 60 per cent of the roots have been suitable for marketing as table stock.

Laurentian is a purple top globe. It has not been as productive as Dittmar or Acadia in the 10 year record. The yield of roots of these three varieties on a relative basis was Dittmar 100, Acadia 96, Laurentian 88. However the Laurentian roots are exceptionally uniform and smooth, over 84 per cent being excellent table stock.

The three varieties already mentioned all lack resistance to club root. None of the varieties tested at this Station has produced a profitable root crop when grown on land severely infested with club root, but Danish Giant and Wilhelmsburger in order given had the most resistance to that disease.

Although Danish Giant had the highest resistance to club root, it is not recommended because the roots are rough and rather poor quality.

Wilhelmsburger, a green top globe, has fair type and quality. Although considerably less resistant to club root than Danish Giant, it is recommended for growing on land lightly infested with that disease. However, if at all possible farmers should try to grow Swede turnips on land that is free from club root.

SON BROKE CURFEW LAW

MONTREAL — (CP) — Emil Provincial was fined court costs in default when he failed to appear to answer a charge that his 12 year-old son had been found on the street at 9:25 p. m. — an infraction of a city curfew law intended to keep children under 14 off the city streets between 9 p. m. and 5 a. m. unless accompanied by parents.

OLDEST INN CLOSED

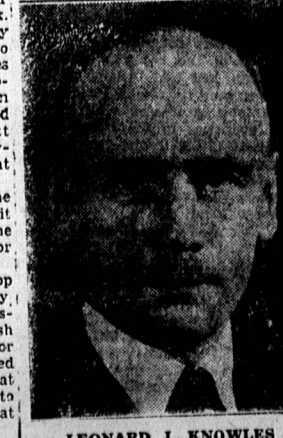

ANNAPOLIS ROYAL, N. S. — (CP) — The oldest hotel in Canada, the Annapolis hotel, closed its doors recently as Sinclair's Inn it was opened in 1740, and it is said the first Masonic meeting in Canada was held within its walls.

PERSONALS

Mrs. Harold Dunn, Summerside, has returned to her home after two weeks visit with friends in Moncton.

Mrs. R. P. Brooks, Murray Harbour, has gone on a visit with her sister, Mrs. A. L. Burgess, in Belmont, Mass.

There are about 24 languages in India, each spoken by at least 1,000,000 Indians.

LEONARD J. KNOWLES
whose appointment as freight traffic manager for the Canadian National Railways with headquarters at Montreal, Que., has been announced by John Fullon, general freight traffic manager.

Mr. Knowles has been given jurisdiction over all tariff, rate and division matters on the entire C. N. R. system. He is one of the best known authorities on railway freight traffic matters in the Dominion.
