**GIANTS AND RED SOX
WILL RENEW THEIR OLD FUED**

NEW YORK, Dec. 8.—The Giants and Red Sox will renew an old feud that has been lying dormant for eight years. They have been booked, it was announced yesterday by Secretary Jim Tierney, to play four exhibition games during the training campaign next March and it will be the first meeting between the two since the spring of 1920.

The first two games of the series will be played on March 21st and 22nd at Bradenton, Fla., where the Red Sox are to pitch their campaign. The last two will be played at the Giants' new camp in Augusta, Ga., on March 26th and 27th.

Announcement also was made yesterday that following the final game of the series with the Red Sox the Giants will break camp that night and head north on an exhibition tour while the Sox will remain at Augusta to continue their training on the ball field next Spring at the Giants' field until April 5th.

Work on enlarging the Yankee Stadium for next season will begin on Jan. 1st, it was learned yesterday at Yankee headquarters. Plans call for the extension of the mezzanine and upper tiers over the left field wing of the grandstand, which will increase the seating capacity of the park to 75,000 for baseball and 85,000 for football.

Plans for enlarging the present roster of the Yanks also are expected to materialize before the end of the week with the arrival of Manager Miller Huggins either Saturday or Sunday. Huggins is said to have taken quite a fancy to one of two pitchers and it is possible they may come under the Yankee banner before another week.

Star Player Is Injured

MONTREAL, Dec. 8.—The Canadian hockey club of the N. H. L. suffered a very severe loss last evening during their game at Boston.

Word reached Managing Director Leo Dandaraud today that Pete Lepine had broken his shoulder during the play. He received no other details. Sir Henry Gray, surgeon, will meet Lepine at the station tomorrow morning when the club members reach Montreal again.

The loss of a valuable man like Lepine, possibly for the remainder of the season cast a gloom over the supporters of the club.

Lacoste Tops List Of World's 1st 10 Tennis Players

NEW YORK, Dec. 8.—The rise of the French tennis star in 1927 is reflected in the annual classification of the "world's first ten" by A. Willis Myers, British tennis expert, which appears in the current official bulletin of the United States Lawn Tennis Association.

Rene Lacoste's four decisive victories over William T. Tilden II place the French ace at the head of the list of international tennisdom is rated second over Henry Cochet on the strength of match victories at Cochet's expense in New York and Paris and near victory at Wimbledon.

Borotra Ranks fourth

Jean Borotra, fourth on the list, and Jacques Brugnon, ninth, complete the French roster and numerically equals an American representation marked by the absence of "Little Bill" Johnson and the arrival of two youthful recruits, George Lott and John Hennessey.

The rankings follow:
Lacoste, France.
Cochet, France.
Borotra, France.
Alonze, Spain.
Hunter, United States.
Lott, United States.
Hennessey, United States.
Brugnon, France.
Zozulch, Czechoslovakia.
Youth swept into the women's ranking the return of Helen Wills to the head of the list and the inclusion of Betty Nuthall, of England, and Esther Heine, of South Africa, both of whom are under 20 years of age.

The first ten women follow:
Wills, United States.
Mlle. De Alvarez, Spain.
Miss Ryan, United States.
Mrs. Mallory, United States.
Mrs. Godfree, England.
Miss Nuthall, England.
Miss Heine, South Africa.
Miss Fry, England.
Mlle. Bouman, Holland.
Mrs. Chapman, United States.

FOUR STRONG CLUBS TO PLAY IN POPULAR LEAGUE

STELLARTON, Dec. 8.—Sydney was tonight admitted to membership in the A. P. C. hockey league, when delegates of the Antigonish, Stellarton and New Glasgow clubs met here. New Glasgow's delegates, Roy Bennett and Harold Cassidy, objected to Sydney's entrance into the league, and pointed out that the mainland would be under heavy expenses in going to Sydney. S. C. Coleman made a plea for Sydney. He stated that hockey was practically dead in Cape Breton the past two years and that it stands a chance to revive with Sydney in a strong league.

Vesty Hanrahan made a motion that Sydney be admitted and this was seconded by J. Hadley Macdonald of Antigonish. The New Glasgow delegates voted against the application but Robert Ferguson of Stellarton cast his vote in favor of Sydney. Tom Scott, the other Stellarton delegate would not vote.

Sydney to Guarantee

Stellarton asked that Sydney pay the mainland teams \$125 for games in Sydney. Delegates Coleman offered \$75, but \$87.50 was finally accepted. Games will be played in Stellarton on Monday's, New Glasgow on Tuesdays, Antigonish Wednesdays and Sydney Fridays during the season.

Flyweight Title Bout Likely Dec. 19

TORONTO, Dec. 5.—The flyweight championship of the world, under the National Boxing Association's sanction, will probably be decided here on December 19th, with Frenchy Belanger, of Toronto, and Ernie Jarvis, European champion, as contestants for the crown vacated by Fidel LaBarbara. Belanger, has signed, and is to receive 25 per cent. of the gate receipts, but Jarvis holding out for 30 per cent. instead of the offered 25 per cent. Secretary Marty Berg of the N. B. A. has wired in support of the promoter's offer.

Compston In N. Y. With Challenge To Play W. Hagen

NEW YORK, Dec. 8.—Count that winter lost that does not produce its challenge golf match. Archie Compston, British professional, is now on his way to Los Angeles to play in the \$10,000 tournament and to pass a pleasant winter generally, he hopes.

Before leaving England, Archie, who played here this year with the British Ryder Cup team, told those interested in his trans-Oceanic trans-Continental trip that as golf at home these days is so dull he would like to pitch his campaign for a shot at the many tournaments scheduled for the winter months.

He intends to follow the trail back through the Southwest to Texas and Florida and would like to take on Walter Hagen for a match.

Compston made a very fine showing in the open championship at Oakland this year. Two years ago he spent the winter in Florida in company with Arnold Massy and therefore is quite well acquainted with "the ropes." Only for the straight emigration laws Compston ere this probably would have settled down in the United States.

His friends in England understand that Archie is merely here to spend the winter. But before he left for home with Ted Ray's Ryder Cup squad last June the tall British professional star intimated that he had made application for his place in the British quota, indicating that sooner or later he intends to hang up his hat here for good.

Olympic Trials To Be In Hamilton

HAMILTON, Ont., Dec. 5.—Hamilton will be the scene of the final Olympic trials next year, it was learned yesterday. M. M. Robinson, chairman of the local Olympic Club, wired the board of control here from Edmonton, where he is attending a meeting of the National body that the organization desired to hold the final tests in Hamilton. This requisite has been met. This city has the largest number of Olympic prospects and this fact was considered by the national executive in making a choice.

N. Y. Americans Win From Chicago, 2 To 1

CHICAGO, Dec. 8.—The New York Americans took the measure of the Chicago Black Hawks, 2 to 1, tonight in a National League hockey match. The Americans had a clear edge in the first and second periods, scoring a goal in each. Burch took the puck across for the first counter, with Red Green scoring the second goal. The Hawks came back strong in the third period and threatened constantly, McVeigh scoring the only goal.

YOUNG PITTSBURGH FIELDER WINS PRIZE AFTER CLOSE RACE

NEW YORK, Dec. 6.—Playing in his second season in the major leagues, Paul Waner, young Pittsburgh outfielder, has been awarded the prize as the most valuable player in the National League, according to John A. Heydler, president of the League.

The committee of baseball writers delegated to choose the prize player cast 72 out of a possible 80 points for Waner in the closest election contest that has been staged in the League. Frank Frisch, second baseman for the St. Louis Cardinals, was second with 66 points and Rogers Hornsby, New York second baseman, was third with 64 points. In 1924, the first year of the contest Dazzy Vance, Brooklyn Pitcher, won the prize. In 1925 Hornsby won it and last year Bob O'Farrell, St. Louis catcher, was the winner. The players who received votes this year were:

Waner, 72; Frisch, 66; Hornsby, 64; Charley Root, Chicago, 46; Travis Jackson, New York, 42; Lloyd Waner, Pittsburgh, 25; "Pie" Traynor, Pittsburgh, 18; Ray Kremer, Pittsburgh, 14; Gabby Hartnett, Chicago, 12; "Red" Lucas Cincinnati, 10; Hack Wilson, Chicago, 9; Bill Terry, New York, 6; Jim Bottomley, St. Louis, 6; Max Carey, Brooklyn, 3; Carmen Hill, Pittsburgh, 2; Jake May, Cincinnati, 6; Eddie Farrell, Boston, 4; Grover Alexander, St. Louis, 4; Nurdy Grimes, New York, 4; Jess Terry, Brooklyn, 2; Cy Williams, Philadelphia, 6.

Ken Carroll To Captain Bathurst Boys

BATHURST, Dec. 8.—At a meeting of the Bathurst Hockey Club held last evening, Ken Carroll was elected captain. At a subsequent meeting to be held, the team will formulate plans for the coming season. The team is having its first workout tonight. If the weather holds the skating rink will be opened this week.

Something New For Skaters

BRESLAU, Dec. 8.—A composition having the same qualities as ice for skating and coasting, but which melts only at 208 degrees Fahrenheit is being installed at the gigantic exhibition held here. The compound resembles the frost which collects on ammonia pipes of a refrigerating plant. When stepped on wood it hardens quickly. The process is kept a secret. No other copy of any kind is necessary.

Considerable Damage Caused By Gale

(Special to the Guardian)

TORONTO, Ont., Dec. 8.—A cold wave from the far west rolled over Toronto during the night lashed by a forty mile an hour gale that brought a swift descent of temperature of 31 degrees and did considerable damage of a minor nature. Windows were broken, signs and fences blown down and branches broken off trees. Roofs suffered severely as the litter of single states and patent roofing material shows.

Among the roofs partially stripped was on the tower of Metropolitan Building while the temporary roof of Calvary Church, Silverthorn was also blown away. Telephone and telegraph wires suffered too.

DAIRY CATTLE MENACE SEEN

TORONTO, Dec. 8.—Increased movement of Canadian dairy cattle to the United States is regarded by the National Dairy Council as a menace to the Canadian milk and cream supply, and representatives of that body last week warned the Government at Ottawa concerning the situation. During six months of this year 103,000 animals crossed the border, as against 62,000 during the same period in 1926.

J. A. McPeeters, head of the Dairy Department of the United Farmers' Co-operative Limited, today declared that the situation was an abnormal one, and that the situation was largely due to the depletion of American herds by the heavy floods this year. Eastern Ontario and Quebec, he said, had been particularly affected by the movement in live stock because of the attractive prices offered in nearby markets.

The Markets

MONTREAL, Que., Dec. 8.—The export and local trade in grain in the domestic market today was exceedingly quiet owing to it being a holiday throughout the province of Quebec. The tone was steady and prices showed no change.

Coming to the continued limited demand from both foreign and domestic buyers, the trade in spring wheat grades of flour was quiet but the undertone was firm. The demand for winter wheat flour was confined to small lots and values were steady. An active business was again transacted in all lines of millfeed and prices were unchanged. A good trade was done in standard grades of rolled oats and prices were firmly maintained. A weaker feeling developed in the potato market were reduced five to ten cents per bag. This was attributed to the continued limited demand from all sources. Car lots of Prince Edward Island whites were sold at \$1.05 per bag of 90 pounds, Prince Edward Island Green Mountains at \$1.10 per bag of 90 pounds. New Brunswick Green Mountains at 95 cents per bag in bulk, and Quebec varieties at 90 cents per bag in bulk.

Only a small volume of business was done in eggs but prices were firm. The receipts were 340 cases. The trade in imported beans was quiet, but the tone of the market was steady. Car lots of choice white handpicked on spot were quoted at \$2.50 per bushel, and to arrive at \$2.60 per bushel, ex track with smaller quantities at \$2.75 per bushel, ex store.

Extreme dullness again marked the trade in butter but prices ruled steady. The receipts were 168 packages. The cheese market was without any new feature to note, the demand being limited and values were unchanged. The receipts were 339 boxes.

Will Address New York Audiences

(Special to the Guardian)

NEW YORK, Dec. 8.—Two Canadian Prime Ministers will address New York audiences today. Hon. L. A. Taschereau, Prime Minister of Quebec, will speak on "the challenge of new frontiers" before the Association of Life Insurance Presidents and Hon. J. B. M. Baxter, Premier of New Brunswick will be the guest of the Canadian Club of New York at a dinner.

12-1. Badminton.
7-8. Boxing.
8.15-10. Seniors.

BOWLING TO-DAY

7.00—Fennell & Chandler vs. Prowse Bros.
8.30—Jenkins & Son vs. Patons Ltd.

8 YEARS HAVE PASSED IN A J. SMALL MYSTERY

TORONTO, Dec. 6.—What happened to Ambrose J. Small on the evening of Dec. 2, 1917?

Having just closed a million-dollar deal for the sale of his string of theatres, A. J. Small is believed to have left his office in the Grand Opera House about six o'clock in the evening and has never been seen since.

And now, eight years later, the theatre is in the first process of demolition.

Like Canadian Quality

Canadian producers were not enamored of the present market conditions in spite of this, because he declared, the worst market condition is one of abnormal uncertainty.

Why the American shortage was not remedied by drawing on the herds of the American west and areas unaffected by the floods, Mr. McPeeters explained, is partly due to the high quality of Canadian dairy cattle. Farmers of the United States had tended to specialize, to the extent that they handled only producing cows and did not go in for breeding, while Canadians had paid much attention to the breeding and developing of dairy types.

Letter Of Appreciation

The following letter was sent by the Board of Trustees of the Protestant Orphanage to the nurse-in-charge and her staff:

Dear Miss Beer:

Would you please accept for yourself and every member of your staff the great appreciation of all members of the Board of Trustees for the noble way you handled the situation on and after Dec. 3rd last. On Monday we passed a resolution which is placed on record expressing such appreciation, which I desire as chairman to let you all know how we value what you did and the spirit shown all through the trying day.

You always responded splendidly to the call of duty in a truly British and unselfish way. The Board join me in saying Thank you. Your sincerely,

G. T. Spriggs.

WHAT CAUSED IT?

"Yes," said the old sea captain "when I was shipwrecked on one of the Pacific Islands I came across a tribe of wild women who had no tongues."

"Good gracious!" exclaimed the listener, "how could they talk?"

"They couldn't," was the reply. "That was what made them wild!"

THE RANGE OF JACK PINE

The Jack pine (Pinus Banksiana) has a very wide range in Canada. It is found from Nova Scotia to the Rocky mountains and northward in the valley of the Mackenzie river to Great Bear lake. Its best development as a timber tree is reached in northern Manitoba, Saskatchewan, and Alberta.

DAILY LESSONS IN ENGLISH

By W. L. Gordon

WORDS OFTEN MISUSED: Do not say "I did not take more than we could help." Say "we took no more than was necessary."

OFTEN MISPRONOUNCED: architect; first syllable as ark, not arch.

OFTEN MISPELLED: compatible, not able.

SYNONYMS: shame, disgrace, dishonor, infamy, humiliation.

WORD STUDY: "Use a word three times and it is yours." Let us increase our vocabulary by mastering one word each day. Today's word: AMBIGUOUS; having a double meaning; doubtful. "Your statements are too ambiguous; speak more clearly."

Noted Labor Leaders Coming to Charlottetown

James Simpson, vice-president of the Trades and Labor Congress of Canada; Howard G. Lea, of Howard G. Lea & Co. Ltd., New York and Montreal bankers and brokers, specializing in labor and financial; and James A. Wright, prominent in Canadian engineering and labor circles, are due to arrive in Charlottetown on Saturday morning, and will address a meeting in the Board of Trade Rooms at 8 o'clock p.m. that evening.

Gorman To Locate In Detroit

SAINT JOHN, Dec. 8.—By the departure from this city today of Charles I. Gorman, world's champion amateur skater, Saint John loses, in the opinion of many critics and fans, the greatest athlete ever developed in the Maritime Provinces.

Gorman left yesterday afternoon for Detroit where he intends to take up his residence. He was reticent in regard to his plans, but was emphatic in his assertion that he would not skate for Canada in the Olympic winter sports at St. Moritz early next year unless arrangements were made whereby he could secure some sort of a position here.

It will be recalled that last season, while in Detroit, Gorman received a flattering offer to remove there and skate for one of the clubs of that city, and also coach the younger skaters of the club.

Says Cup Should Not Be Awarded

FREDERICTON, Dec. 8.—At the annual football players' dinner of the University of New Brunswick, the objection previously made to the Maritime Rugby Union that the McCurdy Cup should not be awarded for 1927, was repeated. The ground taken is that U. N. B. was ready to fill dates in the play-off as Maritime Intercollegiate title holders and that the delay was caused by the deadlock in the Halifax City League. There is now a foot of snow on the grounds here, and the intention of qualifying for the McCurdy Cup in 1928 and trying to win it was announced by Captain Jack Babbitt and was heartily applauded.

Risiko Is Winner Over Scott

CLEVELAND, Ohio, Dec. 8.—Johnny Risiko, Cleveland baker boy and the contender for the heavyweight championship title, won the decision over Phil Scott, heavyweight champion of the British Isles, in the ten-round main bout here tonight.

False Killer Whale Rarity In Britain

LONDON, Dec. 8.—The first False Killer Whale from the shoal that was recently stranded in Dornoch Firth, Ross-shire, has just been received at the Natural History Museum, Cromwell-road, S. W., and other specimens are on their way from Scotland. Interest in the acquisition of these animals by the museum lies in the fact that this species, so far as known, has never before been found alive on the British coast, and the only specimen possessed by the museum has been a fossil skeleton which was found in the Fens of Cambridgeshire years ago.

Museum authorities were first informed by the coastguard that the whales had come ashore at Dornoch Firth. M. A. C. Hinton, a member of the scientific staff at the museum, went there expecting to find animals of a common type, and was surprised to discover scattered on the coast over 100 of the very rare species, the False Killer (Pseudorca crassidens), which is related to the Killer Whale.

"The False Killer," it was stated at the museum, was first made known to science on the evidence of a skull dug up in the fens of east Devon in 1846. Since Owen's record of it in a sub-fossil condition two sub-fossil skeletons have been found in the fens of Cambridgeshire, and it is one of those which is in the Natural History Museum. The False Killer, as a living animal, is chiefly known as an inhabitant of the Southern Seas, around the coast of Australia, Tasmania, and Travnacore (India). In 1861 about 100 entered Kiel Bay, and in the following year other specimens were found on the Danish, Dutch and Swedish coasts, evidently stragglers from the same shoal. That is the only record of it in this part of the globe as a living animal.

Examination has shown that it lives on cuttlefish, and the only explanation that can be offered for the presence of the shoal in Dornoch Firth is that the animals were pursuing cuttlefish and, getting stranded as the tide receded, speedily died. Fishermen have recently observed an unusual number of cuttlefish in the neighborhood. Casts will be made at the museum of two specimens of the whale—a male, which is 19 feet long, and a female, 15 feet in length. A number of skeletons are also being sent to the museum.

The capture of this excited considerable interest in natural history circles, and applications for specimens have been received from institutions in this country and abroad.
