Eastern Guardian

—LAND SALT to arrive. Book your order now. M. C. McGowan, Kilmuir.

—BACKWARD SEASON—Farming operations are slow. The ground keeps cold and wet—and there is little inducement so far for sowing and planting. Although the season opened up early, vegetation is coming on slowly. Warm weather is needed. The coming hay crop will likely be good.

—THE FISHING—Saturday was stormy, practically the first stormy day of the season on which the North Shore boats were unable to haul traps. The season throughout has been the finest for many years and though the lobstersters are somewhat slack there has been a steady pull and thus a fair accumulation, that the packers have a very satisfactory quantity of cases now put up. This time last year there was not a single case put up along the North Shore. It was May 18th before lobstering started. This year several packers have as many as 160 cases put up, that is an advantage of on an average of 150 cases put up this year where there was not one last year. It is felt that the remainder of this season would have to turn out very bad indeed, if it would not be as good as last year. So that if the price holds out, or rather improves, as many think, the fishing season this year will not be too bad.

—ROBIN HOOD FLOUR, Wholesale and Retail, Holman's, Summerside, 761-1-St.

—CADET INSPECTION—The Summerside High School Cadets were inspected on the High School grounds on Monday evening by Capt. Logan, Cadet Inspector from Halifax. There were about 100 cadets and in their natty uniforms presented a splendid military appearance for juniors. The new caps greatly improved the general appearance of the dress. The cadets were put through the various drills by Cadet Commander Russel Phillips and did exceptionally well after only a very short period of training as inspection this year was much earlier than usual. Capt. Logan complimented the cadets and their instructor, Lieut. C. B. Jelly, upon the excellent showing made and also suggested that the cadets should take up Rifle Practice during the summer holidays. As they have an excellent shooting range he could see no reason why this was not possible. The Militia would be willing to supply the rifles and ammunition. Capt. Logan advised early training in shooting citing his own experience of having commenced using a rifle at 12 years of age. It is regrettable that such a lack of interest in the work of the cadets should be predominant on the part of the parents. In other places even a preliminary cadet drill is witnessed by a good number whereas a Cadet Inspection draws hundreds of interested spectators. Perhaps another year the Inspection of the Summerside High School Cadets could be held in Dominion Square and preliminary notice of the event given through the press. In this way a real live public interest could be aroused.

Peters Road And Vicinity

The recent favorable weather has enabled the farmers to push their work along rapidly. A farmer plodding in his fields may not look quite as important as some other people—but a visit to his farm in this busy season will convince the other fellow that the farmer is in it for all its worth. He carries a big burden—field after field, requires to be thoroughly cultivated, and in order to do this right, and the seeding also, machinery is required that will reduce the work to a required minimum. It takes strength, patience, skill and faith too. Keep up the game for the work is big and the cost is also big, and very often very small returns come in to meet the cost. But he keeps at it. It takes good management to make farming anything like success, and this good management comes only from practice and care. I have known some cases where certain persons after laying by some money, began farming. The farm was paid in full, the machinery and equipment also paid for was elaborate and they still had some money left, but it was fast disappearing. Soon they were hard up. Why? They didn't know the game of farming.

One man mad, up his mind to return to the city where a man is paid at the end of the day. He went. Oh, legislators don't forget the man who guides the plough. It is reported that the lobster fishing is not any too good this year, however the season is young.

Mrs. John L. MacDonald after spending about two months visiting relatives and friends in U. S. has returned to her home at Peters Road. Mrs. MacDonald enjoyed her trip very much. During her sojourn in Worcester she was the guest of Mr. and Mrs. Philip L. Buxton. Among other places visited where she met many island friends were: Providence, R. I., Boston, Andover, West Newbury, etc.

His many friends in Peters Road and vicinity are justly proud of the record of Mr. Louis A. Johnston. Mr. Johnston after a four years' course in dentistry in Dalhousie College, Halifax, graduated with honors, leading his class. We predict for "Louis" a most successful career in his profession.

Messrs. J. Johnston, J. Thompson, A. Horton and W. McLean, who are fishing at Black Point, made the trip home in a motor boat on Saturday, last a distance of over 50 miles. They returned the following evening. Some navigation.

Mrs. James McCarron spent the week end at the home of her parents Mr. and Mrs. W. L. McLean, Peters Road.

PERSONALS

—Miss Ellsworth, East Baltic, recently arrived from Boston, is spending a week or two at the guest of Mrs. Paul McPhee, Big Pond.

—Mr. Pius McPhee, Boston, is visiting his mother, at the old home Big Pond, and who is quite ill, but improving.

—Mr. Frank McPhee, of the C. P. R. in the State of Maine, who had been enjoying a furlough, has returned to his charge.

—Miss Catherine McEachern of Sydney, St. city, is visiting her grandmother, Mrs. Annie McEachern, Hermanville.

—Mrs. Peter McDonald, Bear River, has taken charge of Mr. A. D. McEggs' cookhouse, on the shore at Big Pond.

—Mr. Anselm Longaphie, Souris, went Sunday to the North Side, where he is engaged in the lobster business.

—Mr. John Autfrey, C. N. E., was a visitor to his home at St. Columba, over the week end.

—Mr. James McDonald, of the J. D. McIsaac Co., and Mr. Hugh Gillis, were visitors to Hermanville, Sunday the guests of Mr. Jno. A. McDonald, Land Surveyor.

son Square Gardens witnessed the unusual sight of thousands of United States spectators standing to their feet and singing Canada's national Anthem, a tribute to the distinguished oldtimer who stood before them. A superb sportsman and a credit to the game. George Goulding runs a sporting goods store in Vancouver.

Westclox

Shrewd watch buying

YOU will find many a Pocket Ben riding luxuriously in the pocket of a man who could afford to own a much higher priced timepiece. These men are shrewd buyers. They are buying timekeeping service. They buy it as cheap as they can. That is the reason they insist on the trade mark West-

clox on the dial of Pocket Ben or Glo-Ben. They know that for a symbol of reliable timekeeping. And they are more particular about a watch's reliability than they are about its price. That seems like a sensible way to buy watches. Pocket Ben is \$2.00, Glo-Ben, tells the time in the dark, \$3.00. It is handy at night.

WESTERN CLOCK CO., Limited, PETERBOROUGH, ONT.

Table with 6 columns: Big Ben \$4.50, Baby Ben \$4.50, America \$2.00, Sleep-Meter \$3.00, Jack o' Lantern \$4.00, Pocket Ben \$2.00, Glo-Ben \$3.00.

SLIP THE LEAD IN THE TIP. No need to extract the "Insides" to fill the Duofold Pencil with OVER-SIZE Grip. A grip that abolishes finger cramp—as men found out through the Over-size Duofold Pen—the new pencil's team-mate. See this perfect color match—Duofold Pencil and Pen—in lacquer-red or flashing black—both gold trimmed. At any Stationery, Drug, Jewelry or Dept. Store. Parker Duofold Pencil.

DR. "SMIRLIE" LAWSON, THE "BIG TRAIN"

First started playing football for Toronto Varsity in 1907, and for the next three years he was one of the stars of a great team. He graduated in 1910, and was stationed at the Toronto General Hospital, and of course could not play his favorite sport the first year. Then he captained Argos for three years and led the way to two Canadian Senior championships, and one intermediate Canadian title. In ten years of football he never played with any team that did not win a championship. A great record, which will probably never be equalled. It was while playing with Toronto Varsity that Dr. Lawson got the name of "The Big Train." Big Bill Ritchie, weighing 240 lbs., and Art Muir, scaling around 220 lbs., used to get behind him, and as Dr. Lawson tipped the scales at 190 lbs. something had to go. They could not be held. Hence the name "Big Train". After meritorious services overseas, Dr. Lawson returned to Toronto, where he now practices.

WHO WERE THE STARS OF YESTERYEAR?

GEORGE GOULDING

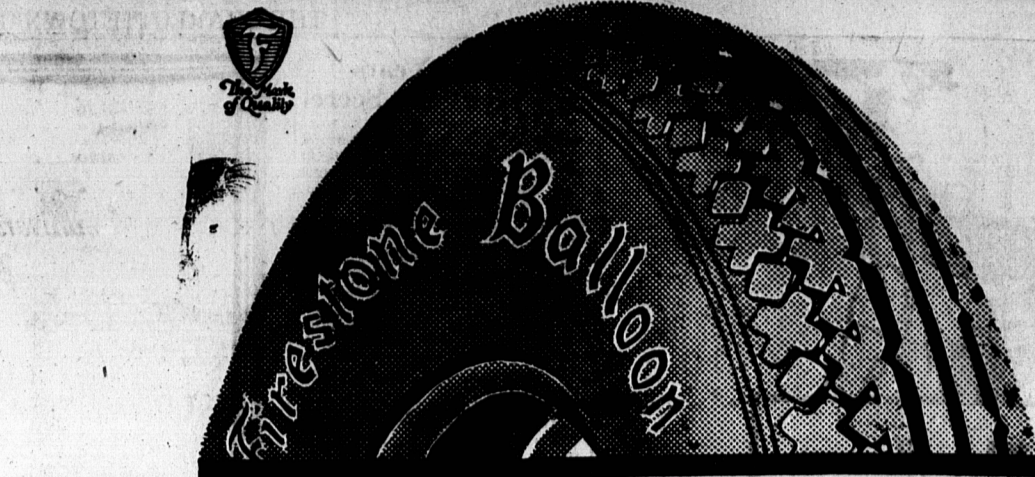

Who never met, his master, on the track until that old enemy Time had snapped the best of his resources, was one of the greatest walkers who ever breasted a tape, and for many years he was undisputed Walking champion of the world. For some years he tried to combine running and walking, but found they would not mix well, so he stuck to walking, and at Stockholm in 1912, he cleaned up the walking events, and established world records. He made a great come-back a few months ago, but although his spirit was willing, his great heart was unequal to the strain. Medi-

The Best Optical Service

The best is none too good for your eyes. When buying glasses be SURE you are getting the very best Lenses. Don't gamble with your eyesight by buying second quality glasses. You cannot afford to take chances with your or your children's eyes. Our Office is equipped with the very latest optical instruments. Our Lenses are first quality. Our Examination is thorough. To insure correct glasses have your eyes examined by

ECONOMY Safety and Comfort Firestone FULL-SIZE BALLOON GUM-DIPPED CORDS

CAR OWNERS by the thousand are equipping with Firestone Balloons—not only for comfort and safety—but to save money.

Everybody knows Firestone Balloons protect the chassis—stop vibration—and reduce repair bills. Your car remains new longer—its resale value is far greater.

Another basic feature exclusively Firestone is the Gum-Dipping process which insulates every fibre with rubber and adds great strength to each cord. The Gum-Dipping process is the very foundation of balloon tire success.

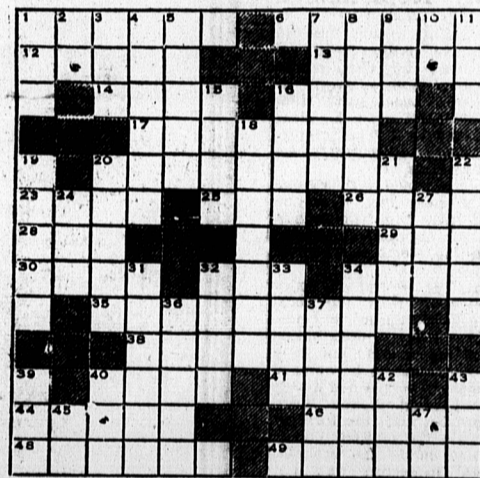

Real Balloon Tires must have light, strong, flexible walls. Gum-Dipping gives this extra strength and endures this extra flexing strain.

Equip now for safety on wet pavements and slippery roads—for comfort during the summer driving season—for economy the year 'round. Take advantage of the low prices. Have the Firestone dealer make your changeover to full-size Balloons. He will do it quickly and at low cost.

MOST MILES PER DOLLAR

THE ONLY GUM-DIPPED CORD MADE IN CANADA IS BUILT BY FIRESTONE

The Modern Dumas

This is the title of tribute applied to Rafael Sabatini by distinguished men of letters, illustrious literary critics and lovers of high adventure tales the world over. Upon Sabatini's shoulders has fallen the mantle of glory that was Dumas! He has Dumas energy and fire and imagination, and his stories have the same extraordinary color, endless surprises and never-flagging spirit. They command universal interest and popularity. And one of the best of them is—
