

HEAD, ARMS AND LEGS COVERED WITH ECZEMA

Mrs. L. Elliott, of 41 Henry St., St. Catharines, Ont., says: "My little daughter Gladys, 4 years of age, was badly troubled from infancy with eczema on the back of her head, under her hair, the joints of her arms and on the back of her legs. This terrible disease first broke out on the side of her head in the form of a red rash and pimples which, if rubbed or scratched sent forth a watery substance, and which later spread to the back of her head, joints of her arms and back of her legs. This proved a rather obstinate case and the child suffered intensely from itching and pain and was very restless and peevish. We tried all kinds of preparations, ointments, etc., but failed to bring about a cure. At last a friend who had been using Zam-Buk for small sores and wounds gave me a portion of her box to try. This seemed so good and showed such an improvement so I bought a supply, and thro' perseverance in using, the disease was soon checked and finally cured. I feel very grateful for the cure Zam-Buk has brought about."

A Friend in Need Is A Friend Indeed

In 1892 I joined the Independent Order of Foresters becoming a member of Court Aberdeen at Malpeque taking one thousand dollars of insurance and paying a very small sum each month I have had many advantages from being a member of the Society, and last fall when my health failed, I was paid \$500.00 as a disability benefit and a paid up Policy for \$500.00. Truly the I. O. F. is a friend indeed.
