1,000 MARINES LANDED IN IRELAND YESTERDAY

Two Battleships will Return for a Second Trip with Another Thousand Men. Irish Situation Unchanged.

(Dom. Press Special.) LONDON, June 4.—The battleships Warspite and Valiant this morning were off the Irish coast with one thousand royal marines on board. It was expected the troops would be landed today when the battleships would return immediately to Devonport and embark on a second trip to Ireland with a thousand soldiers. The Irish situation was comparatively quiet yesterday and last night. The serious incident was an attack, for the second time in two days, against government barracks at Blarney. The building has been evacuated by the garrison after Tuesday's assault by Sinn Feiners. The raiders last night after firing upon the buildings again burned the barracks and wrecked the farmhouse adjoining it, destroying all records and official documents. Lloyd George in conference with a deputation of officials of the National Union of Railwaymen, warned railroaders that the government would not tolerate an embargo on munitions effected by railway workers in Ireland.

The same authority says that Premier Borden will go to London as High Commissioner for Canada; that Sir George Foster will be given another position and that Hon. Martin Burrell will drop out of the government when reconstruction of the cabinet is undertaken. Hon. Arthur Meighen is the choice of the Conservatives in parliament as the new party leader, though this does not necessarily mean that he will be chosen.

Police Dog Acted Mother to Foxes

(Special to The Guardian.) NEW YORK, June 4.—Tabby cats are not the only animals besides the foxes themselves that can nurse baby silver foxes successfully. J. Gordon Noakes, sales manager for the New York Fur Auction sales corporation, today received information telling how a female Belgian Police Dog, part of the protective force of a New York state fox farm, had nursed three little silver foxes until it was weaned them, the mother fox had refused to care for the little ones soon after they were born, but the police dog herself, a mother of seven puppies, took the job willingly. Mr. Noakes' informant said that the good care she took of her foster family is evident from their size and the fine condition of their pelts. By adopting the fox pups the dog saved the owners of the farm from a threatened loss of several hundred dollars.

Important Resolution

(Special to The Guardian.) TORONTO, June 4.—If you had started twenty years ago you would have had a respectable navy today. These were the significant words of Major General Sir Charles Townshend, the Hero of Kut in a short address before delegates to the Dominion Council of the Navy League at the second day's session held in the King Edward Hotel yesterday. During the business of the day two important resolutions were carried. The Navy League of Canada, in view of the Canadian Government having been informed that the British Government is ready to supply as a free grant such vessels as Canada may require and as this generous offer tended to reduce Lord Jellicoe's estimate by a large amount, resolved that any other than the first suggestion of \$25,000,000 would not provide for a unit of sufficient size to protect the Pacific Coast and western interests; that the League therefore recommended that as a definite basis for the securing of a sound naval policy for Canada the suggestion of the Admiral of the fleet, Viscount Jellicoe, contained in his report on his naval mission to Canada last November, be adopted and that the Dominion Government be advised and urged to inaugurate a policy that would give effect to it.

LONDON, June 4.—That Russia is preparing for a supreme counter offensive against Poland and that, provided Poland is decisively beaten, the allies will be ready to meet the Bolsheviks around the peace table for the purpose of wiping out all misunderstandings and re-establish commercial and diplomatic relations throughout Europe, was the prediction made by high officials of the British government today. All indications from confidential reports point to the development of vastly important world events within the next month. It was said the Russians are making ready for a super effort; Poland is already aware of the danger but Russia is paying no heed to the peace overtures sent out by her enemy.

Enquiry Being Made Into Burning of British Flag by Gang of Women Near Treasury Building, Washington.

(Special to The Guardian.) WASHINGTON, June 4.—Speaker Gillet has informed representative Mason that the Mason resolution favoring the establishment in Ireland of a government of its own choice, and which was favorably reported by the committee on foreign affairs will not, so far as the speaker can control the situation, be allowed to come up for action at this session of Congress. This announcement was made by representative Mason today, just before he left for Chicago. He added, "as the speaker's decision under the rules is final and I can see no way to change his views, it is a waste of effort to struggle further." The burning of the British flag by a group of women yesterday near the treasury building has been made the subject of inquiry to the district government, by Secretary of State Colby so that the Government shall have a report on the incident in the event that Great Britain shall regard the incident as necessarily the subject of explanation by the United States.
