TWO AVIATORS KILLED.

RHEIMS, France, November 21—Two aviators were killed today, one, Andre Frey, at Rheims, and the other, Sub-Lieutenant Laurent, at Etampes. Frey was well known on both sides of the water. He finished third in the international aviation race at Chicago, in September of this year. Today he was undergoing military training and had just finished a regular practise fight. He stopped his engine at a height of about 800 feet and planed down beautifully until within 150 feet of the ground. Then, suddenly, the right wing of the monoplane shot up and the machine dropped to the earth. Frey was badly crushed. The cause of the accident is a mystery, as the aeroplane had been thoroly tested and was apparently in perfect condition.

Lieutenant Laurent and Sapper Chanu were making a flight near Etampes at a speed of sixty miles an hour, when a squall caught the aeroplane as the pilot attempted to make a sharp turn, and dashed it to the ground with terrific force. Laurent was killed, but Chanu escaped with slight injuries.

PRINCE EDWARD ISLAND AS A PLACE TO LIVE IN.

In the Gulf of St. Lawrence, fifteen miles at its farthest point from the mainland of Canada lies the beautiful Island, Prince Edward.

As a place to live in let us look at it first from the standpoint of the farmer.

In all parts of the Island farm produce of any kind will grow in abundance. Now in the west wheat is the staple crop. In Prince Edward Island if one crop does not do well the farmer has something else to fall back on. We are not in dread of early frosts or cyclones here to damage our crops. What farmer can complain of markets when he gets sixty-five cents a bushel for potatoes and fifty cents for oats. Then the merchant can get along just as well here as elsewhere. He can if he wishes get cash for his goods, and now some of our Island firms get money orders from abroad for their goods. The school-teachers might complain for while other wages are rising they are still forced to so order their finances as not to find themselves pursued by creditors at the end of the term. This is why so many go west. 'Tis true they are better paid but do they not have larger expenses and greater hardships?

Neither must we forget the Black Fox Industry which promises so much for our Island financially.

Taking all this and more if space permitted into consideration, who would not enjoy Prince Edward Island as a home?

Even any disadvantages the Island may be suffering owing to lack of railway accommodation will speedily disappear when we have the promised Car Ferry.

But with that thought come the fear that our Island will become too much a part of "the modding world's ignoble strife.

E. PEARL HOPGOOD,
Malpeque.

THE P. E. ISLAND CAR FERRY.

Glancing over the newspapers one day, I noticed in one of them that the present Government is proposing to construct a "Car Ferry" to connect Prince Edward Island with the mainland. No doubt this is one of the best movements ever proposed in favor of the Island, as it will be an immense advantage to the shipping and trading interests, which are carried on to such a vast extent between P. E. Island and our sister Provinces of the Dominion.

I have no doubt that the building of this "Car Ferry" will cost a vast sum of money, but what of that? So long as it will benefit the Island and also its inhabitants, as it will save a great deal of handling. For instance, if a person was going to ship an article elsewhere it would have to be transferred from the train to the boat and secondly from the boat to the train. This, therefore is a very incommodious and expensive way of exporting and importing which, I think, might be overcome by the building of the "Car Ferry" which I know will prove most beneficial in most cases.

It will save time, labor, and money and will be an able support to the welfare of the Island.

HOW IS IT?

(Continued from page ten.)

progressive twentieth century when able intelligent and progressive communities are substituting bridges and tunnels for these relics of a past age?

It was a good idea of our present government at Ottawa to vote money for permanent highways. What better route could the western road from our capital take than across a bridge at Brighton and up the Ferry Roax to Cornwall thence on west by the much travelled Tryon Road? Having no benefits in this large and important section of Queen's County, from the railroad, our other roads should be good and as short as possible. These are some of the things that make our city and country prosperous and worth while for our young men to stay by the old farm.

JURISDICTION OF THE WRECK COMMISSION

QUEBEC, Nov. 21.—Mr. Pentland, K. C., counsel for the captain and officers of the steamer Bengore Head, made a motion in court to-day calling in question the jurisdiction of the wreck commission in the case of the above vessel. The vessel ran ashore on the coast of Newfoundland, therefore, the counsel claimed, the Canadian commission had no jurisdiction. He also contested the right of the commission to interfere with certificates issued by the British board of trade. The commission might make enquiries into accidents in Canadian waters, but the British board of trade alone had authority over the certificates issued by it.

CAN TRACE MONEY TO HYDE POCKET.

NEW YORK, November 21— Jos. G. Robin testified at the trial of former city chamberlain Charles H. Hyde today that Hyde by his control of city deposits forced the Northern bank to loan the Carnegie Trust company $130,000, when the latter institution was about to collapse in 1910. Robin himself guilty grand larcency in connection with wrecking the Northern bank, and in the Tombs for several months awaiting sentence under supposed promise of immunity, is the largest state's principal witness against Hyde, charged with accepting a bribe as a public officer. Altho Hyde's counsel moved for quashing the indictment on the ground that no crime was charged because it was not shown that city chamberlain benefitted by his alleged actions, Justice Goff reserved decision on the motion until the state's case was closed.

District Attorney Whitman made answer to this point by asserting that he could trace $13,500 of the Carnegie Trust company's money into Hyde's pocket.
