is an indication that, somewhere in the delicate balance of the system, there is a condition needing prompt correction.

A healthy body will demand food. Thus appetite restored and possible serious consequences avoided.

IN MEMORIAM

ARTHUR I. CLARK

Ere the last day of midsummer had departed, the angel of death guided from this earthly home, the soul of Arthur I. Clark to his Heavenly home beyond the grave.

Born at Malpeque, Prince Edward Island, in the year 1850, he spent an energetic and industrious life in the province, following the profession of a dry goods salesman. For many years he was a valued employee of Prowse Bros., where his courteous manner and amiable disposition endeared him to a host of friends.

It is in the home where his presence is especially missed. He leaves to mourn his loss, besides a sorrowing widow, eight daughters, Mrs. J. Morgan Walls, New York City; Mrs. Mildred Cronan, New York City; Mrs. Hector Campbell, Lynn, Mass.; Mrs. Edward Cantwell, Mrs. W. H. Soper, Mrs. Frank Cronin, Mrs. Lea Brynerton and Marion of this city, who will always cherish the memory of a devoted father and true companion in the home.

The funeral, which was an exceptionally large one, attended by his brethren, Oddfellows and Masons, of which fraternities he was a devoted member, was held at Zion Church on Sunday, July 31st. Burial was at the People's Cemetery.

The pall-bearers were: Patrick McTague, Weston Whitlock, Fred Kelly, Fred Houle, J. J. McKinnon, Fred Renouf.

The many floral tributes bore eloquent testimony of true friendships, formed in life, severed only by death, to await the Resurrection Morn.

NO PLACE FOR BASKET BALL

EDMONTON, Alta., Sept. 6.—(By The Canadian Press)—Although the Grads' basketball team of this city went to the Coast to play exhibition games at San Francisco, Portland, Victoria and Prince Rupert, George Mackintosh in his sport column in the Edmonton Journal is a little aggrieved. He says: "Not the slightest effort was made by any of the Canadian governing bodies—the Amateur Athletic Union of Canada, the Women's Amateur Athletic Federation, the Canadian Basketball Association or the Canadian Olympic committee—to have the basketball included as an official sport on the Olympic programme. In view of the Grads' unparalleled record over a long period of years, there could be no reasonable doubt as to the outcome of an Olympic tournament so far as girls' basketball is concerned. One wonders if things might have been different had the Canadian title been held in some other city—Toronto, for instance?"

"The Grads" can derive some satisfaction from an announcement by the president of the Federation Sportive Feminine Internationale of Paris, to the effect that basketball will certainly be included on the programme of the next women's Olympics, which will be held in London in 1934 under the distinguished patronage of the king. If the present members stick together for another two years—and there's no good reason why they shouldn't—the Grads ought to be 'in there' when the Olympic olive wreaths are being handed out two years hence."

"Now I lay me down to sleep I pray the Lord my soul to keep. When he hollers let him go, Eenie, meenie miny, mo."

It is publication of various magazines and newspapers under the supervision of Catholic Directors and editors. The press has tremendous power, an army 10,000 strong coming behind our daily thought and entering every home. Treating every subject: religious, political, historical, national and educational. WOMEN ARE GOOD DRIVERS EASTERN GUARDIAN

HAMILTON, Sept. 6.—(By The Canadian Press)—Commenting on the recent radio address given by Mrs. George S. Henry, wife of the Ontario premier, on "Greater Highway Safety," Calvin Davis, secretary of the Hamilton Automobile Club, considered the speaker's advice timely, but registered objection to Mrs. Henry's statement that women drivers were prone to play upon man's chivalry while motoring.

"Women as a general rule are good drivers," said Mr. Davis. This comment was strengthened by local police records, which show that women drivers have less accidents per capita than the male motorists. The object of these weekly broadcasts is safety first, and Mrs. Henry stressed the suggestion that women, though privileged in other walks of life, should not expect the same courtesy on the road, but that they should be as careful as male drivers. In traffic a woman cannot expect to be treated with the same courtesy to which they are accustomed. When traffic is heavy a driver has not time to notice the driver of another car. His attention is absorbed by the traffic conditions and even the most courteous driver cannot be reasonably expected to observe and grant precedence to a feminine driver.

FEW REED ORGANS LEFT

TORONTO, Ont., Sept. 6.—(By The Canadian Press)—In the rural districts it is now a rare thing to find a reed organ. One village house near Cobocook had two of them years ago, plus one piano. Most of the organs went in exchange for radio sets. At present radio has it in the rural places. And there are no more family gatherings around the organ where
