

CRAZE EXPLODED.

A LONDON, paper tells of the away in which a shopkeeper exploited the prevailing craze for collecting pennies of this year's issue. In the window of his shop he displayed a notice: "Five shillings given for 1901 pennies." A passerby entered, offered him a 1901 penny, and asked for five shillings. "Oh, yes!" said the shopkeeper, "but that is only one penny. Where are the other nineteen hundred?"

THE EMPEROR AS A FIREMAN.

The Emperor of Australia was driving on one occasion on a very rainy day to his suburban residence, the Castle of Schonbrunn, when he came upon a fire engine arrested on its way to a conflagration through the wheels having become stuck in the mud of the street, the horses being unable to extricate it. He immediately stopped his carriage, ordered his horses to be taken out, harnessed to the engine and used to assist in taking same to the fire; while for himself he hired a one horse hackney conveyance to carry him to his home.

ENERGY OF GERMANY.

The Saturday Review says that the energy of Germany in increasing its navy is directed not against Great Britain but against the United States. The field of conflict, it is supposed, will be South America, where Germany desires to establish colonies in defiance of the Monroe doctrine. It would seem that Germany is rather too late in the field. There is no territory in South America waiting to be picked up.

THE GROWING WEST.

In the recent interview at Montreal Mr. Wm. Whyte of the Canadian Pacific Railway reported that western prospects were practically bright. Seeding was progressing satisfactorily, and the acreage sown in Manitoba and the Territories will probably exceed that of the last year by 10 per cent. Western Canada, he says, is becoming increasingly popular as a field for settlers, and so great is the rush for the Edmonton district that two trains are sent in daily to carry settlers and their effects.

A BOOK DELIVERY.

The Springfield Mass Public Library will try the experiment of home delivery of books, 100 persons having agreed to pay five cents a week for ten weeks for the service. Each of the 100 readers furnishes a list of ten titles and each is expected to have another list ready for the messenger on his weekly visit. One of the advantages will be that somebody will call for the books when they are due so that fines for delay will be avoided.

SLEEP OUR CAPITAL.

We are shocked when a young man dissipates in riotous living, a fortune left him, yet at the very same time we may be throwing away capital more precious by denying ourselves the sleep which restores and freshens all our powers by wasting our time capital or by letting golden opportunities slip through our fingers unused,—worse than wasted.—Success.

CATARRH.

Called an American disease is cured by an American medicine originated and prepared in the most catarrhal of American countries. That medicine is Hood's Sarsaparilla. It cures radically and permanently in that it removes the cause—cleansing the blood of scrofulous and all other impurities. It overcomes all the effects of catarrh too and builds up the whole system.

GIRLS IN FACTORIES.

The age limit at which children may be employed in factories in Ontario is fourteen years, and during 1900 there were very few cases of violation of the law discovered by the factory inspectors.

PRICE OF DIAMONDS.

NEW YORK, April 29.—A despatch from London to the Star says there really seems some reason to expect an early advance in diamonds.

MASTERMINDS

Their Record in the Past Century—Marvellous Strides in Medical Science.

Achievements of Dr. Chase in Relieving Suffering and Simplifying Medical Treatment.

His Famous Receipt Book, the Consulting Physician in Scores of Thousand of Homes.

There have been great men in all departments of human endeavor, great statesmen, great artists, great writers; but it is by its scientific achievements that the past century will be marked. In the healing of disease and the alleviation of suffering the century just closed has been the century of centuries.

It may well be doubted if any one man has been instrumental in accomplishing more in this respect than Dr. A. W. Chase, who, through his well-known household remedies and famous Receipt Book, has succeeded in simplifying medical treatment, and given to every person the power to become their own physician.

Dr. Chase's last and complete Receipt Book and Household Physician gives in plain, simple language the cause, symptoms and treatment of nearly every disease which afflicts suffering humanity. It also treats of the diseases of horses, cattle, poultry and domestic animals; contains valuable cooking receipts and a mass of miscellaneous household information of inestimable worth in every home.

The medical department of Dr. Chase's Receipt Book is alone worth many times the cost of the entire book, for besides treating of all diseases and enabling mothers to successfully doctor their children and save large doctor's bills it devotes a whole department to nursing and mid-wifery and the ills peculiar to women. It saves the cost and unpleasantness of consulting a doctor and the advice of Dr. Chase is far superior to that which any ordinary doctor can give as his experience of nearly half a century with an enormous practice is such as few doctors acquire.

Dr. Chase's Receipt Book is not for sale at any book stores, and can only be obtained direct from these offices, or from our agents. To anyone desiring pleasant and profitable employment there is no opening more inviting than an agency for this world-famous Receipt Book. It is the easiest book in the world to sell, first, because it is the most useful book that can be introduced into a home, and secondly, because it is so largely advertised. Everybody knows of Dr. Chase, his great family medicines and famous Receipt Book. Whether you want a single book or wish to become an agent write direct to Edmanston, Bates & Co., Toronto, for full particulars.

A Weak Stomach

Often stubbornly opposes the retention of certain remedial essentials to the treatment of many diseases. Often a cure is retarded and even made impossible by this opposition. Therefore it is imperative, in order to overcome this obstacle, that the remedy must be acceptable to the stomach.

Park's Perfect Emulsion

of Cod Liver Oil is a perfectly emulsified product of Pure Cod Liver Oil combined with Hypophosphites of Lime and Soda with Gualaccol. The repugnant odor and taste of the oil is entirely disguised and the preparation rendered palatable and acceptable to the most sensitive stomach. It is all the more valuable in such cases for reason that it corrects the disorders arising from impaired digestion, which has weakened the stomach. It is a splendid general tonic and tones up the system, producing a normal appetite and producing new strength and healthy flesh.
