

# Terrible skin now lovely and clear

"AFTER three months of regular treatment," writes Miss A., "I now have the clear complexion I used to dream about and long for. Only the girl who has suffered as I did, with continual eruptions on my face just when I wanted to look my best, can know how I felt. I feel I owe a lifelong debt of gratitude to the friend who told me the best thing to do. There's nothing like it. I tried everything and I know. Lotions and salves help but they don't get at the root of the trouble. Like most skin troubles mine were signs of poison in the body. Nujol cleared those all out in three months." I took a table-

spoonful every night. Never missed once. I've got my reward now."
