

SATURDAY AT SIMPSON'S!

The New 1934 PHILCOS

First Showing of the SENSATIONAL NEW MODELS Priced from \$39.95 to \$250.00. A radio for everybody

FEATURED TOMORROW ORDER EARLY FOR GUARANTEED DELIVERY TUNE IN THE WORLD WITH THIS NEW ALL-WAVE PHILCO

Here is a radio for which it is predicted all sales records will be broken because of the features offered at a price unbelievably low! Think of it... a Genuine ALL WAVE Philco permitting not only reception of the regular broadcast stations, but in addition: ... \$95

Daylight reception of many United States stations, as well as England, France, Italy, Germany and other foreign countries, under favourable conditions.

You are urged to be among the fortunate ones to secure first deliveries of this sensational new and radically advanced instrument.

\$5.00 down, \$9.00 per month. NO INTEREST. This same set available in Console Cabinet model at \$129.50.

TRADE IN YOUR OLD SET SIMPSONS will offer you the best proposition. See us tomorrow.

Special Tomorrow Only! DELIVERS ANY PHILCO IRRESPECTIVE OF PRICE Balance in 10 monthly payments. NO INTEREST.

STORE OPEN SATURDAY NIGHT L. W. Proude 56-58 Grafton St., Charlottetown. SPECIAL REPRESENTATIVE THE SIMPSON EASTERN ROBERT SIMPSON LIMITED

YOUTHFUL CHARGED WITH

of the master whose work he is playing is most exceptional, and it may confidently be predicted that this ability will increase with the years and his musicianship will broaden and deepen as time goes on.

His playing of the Bach Prelude and Fugue was very fine as was his rendition of the Haydn Sonata.

When he came to the Chopin group he really got into his stride, and gave a particularly fine reading of the Fantasia Impromptu in A-flat Major, the Nocturne, The Web of Moths, and the Nocturne in C Minor.

Yesterday afternoon the youthful artist gave a recital for city school students, which was greatly enjoyed. The compositions played were the Bach Prelude and Fugue in F Major, the Haydn Sonata in D Major, Rondo in E-flat Major, and the Chopin Nocturne in C Minor.

On both occasions the programme was played through without reference to a score.

The delightful concert was given under the auspices of the branch of the Alumni Society of Mount Allison University.

The Arrive, France, or Northern Plains are more appropriate names than the term "Barren Grounds" wrongly applied to the registration-covered tracts of Northern Canada.

Still others viewed the government's chances of survival as dubious on the ground that no government so closely connected with such terrible episodes as the canning of the Florissant workers' action can escape the necessary mention of its attitude, criticize or associate itself with observations in the French memorandum of Jan. 1 concerning a non-aggression pact and its relation to the Locarno treaties.

"The element of security," the note said, "is too important to be passed over in silence when it concerns substantial reduction of armaments."

Called to Testify SYDNEY, Feb. 15. — Dr. Rosario Fontaine, Montreal ballistics expert, today was requested to testify at the trial of Walter Wilkinson, accused of murdering his sister-in-law, opening here Feb. 17.

As a result of their research, the insecticide entomologists of the Dominion Department of Agriculture are largely responsible for the spray schedules used in the various fruit-growing provinces of Canada.

Government forces finally gained the Goethelhof only to find that its garrison comprised only women and children and that the men who earlier had answered "brothers' bombardments with machine gun fire had fled presumably to Socialist hideouts outside Vienna.

Through the wreckage in the workers' sections the steel-helmeted government squads moved, black by black, sweeping up remnants of the opposition.

ADDRESS

Canadian National and Canadian Pacific Railways under public ownership and a scaling down of interest charges on Dominion Government bonds. These steps would be taken in an effort to balance the Dominion budget, paying the way for unemployment insurance and other social legislation.

A general defence of the agricultural policies of the government was entered by Hon. Robert Weir, who holds that portulaca in the ministry. He ridiculed opposition suggestions for reciprocity with the United States in farm products, claiming it would have cost Canadian farmers \$750,000 a week, based on Feb. 1 prices, if American hogs had been permitted to enter this market.

In a passing reference to the world wheat agreement, the agricultural minister claimed it had been approved by the majority of western farmers and by the Premiers of the Prairie Provinces.

Supporting his want-of-confidence motion, the C. C. F. leader urged revision of the British North America Act, Canada's written constitution, on the basis of present-day social and industrial conditions. He also urged scaling down of Dominion interest charges.

If a maximum of three percent were set for Dominion bonds, the treasury would save \$30,000,000 or \$40,000,000 a year, Mr. Euler said. Merging of the two railway systems would save another \$100,000,000 in interest charges and the annual deficit of the Canadian National. This would enable the budget to be balanced.

It was necessary today to change the capitalist system, the former minister warned the government, advising the Prime Minister to read the words carved over the doorway of the House, "Where there is no vision, the people perish." The policy of "standing pat" must cease, or the people would turn to Socialism.

"I would say to this government," concluded Mr. Euler, "to proceed with some courage and some initiative on the principle that Providence helps those who help themselves."

Heroic Mother Loses Battle With Elements (A.P. By Guardian's Special Wire) ELKINS, W. Va., Feb. 15. — In near zero weather Mrs. T. O. Leary 36, trudged nine miles from her Ches Mountain home to Elk to get medicine for one of her five children.

Shortly after she started back, a swirling snow-storm burst upon her and the temperature began falling below the zero mark. She never reached home.

Yesterday, a searching party following a trail blazed by strands of clothing on the branches, found Mrs. Leary frozen to death, a half mile from home.

The trail showed she had walked in circles in the blinding snow storm, had dropped from a ledge into a shallow gulley and slumped almost bare-footed and with clothing tattered, into the branches of a fallen tree.

A bag containing the medicine was clutched in her hand.

Canada has occupied an abnormal place in the world's flora during the past decade, her exports amounting to slightly more than one-quarter of the world's total.

Czechs Claim International Action Needed

(A.P. By Guardian's Special Wire) PRAGA, Czechoslovakia, Feb. 15.—The Czechoslovakian Parliament's foreign affairs committee was told today that it was doubtful if the Austrian situation can be adjusted without international action.

The statement was made by Dr. Krofta, Czechoslovakian Ambassador to Berlin who is acting for Foreign Minister Edouard Benes during his absence. He said that "an attempt would be taken probably through the League of Nations. He said Austria was bound to permit no foreign power to secure such influence as might endanger Austria's independence.

"We cannot criticize happenings in Austria, nor the attitude of the Austrian Government," Dr. Krofta said, "we can discuss the situation only as far as concerns us."

His statement, considered one of the most outspoken recently affecting central European affairs, was made while Czechoslovakian and German negotiators were preparing for a gigantic mass meeting at Bratislava in protest against measures taken by the government to suppress Socialism.

Two Austrian Social leaders, one of them wounded, arrived at Bratislava today. They were Dr. Otto Bauer and Dr. Julius Deutsch. The latter was struck by shell fire in Vienna fighting.

NEW YORK MARKET

(By John L. Cooley, Associated Press Financial Writer) NEW YORK, Feb. 15.—Rising stock prices found volume increasing today. Demand was broad, especially for industrials and several new highs for the past couple of years or longer were recorded.

Net gains of one to four points were plentiful, the averages being up nearly two points in turnover of 1,972,268 shares, more than 1,000,000 above yesterday's. A boost for second grade bonds as well as improvement in numerous commodities accompanied manifestations of overfulness among stock traders.

The speculative shakeouts of last week have been followed by prompt recovery. This is attributed partly to a belief that regulation, as ultimately adopted, may be less drastic than is provided for in the measures now before Congress. The Federal Reserve legislation is being closely analyzed and critics have been prompt to express themselves. Nervousness over the outlook in this direction would appear to have been tempered by the peace of Europe would be use every means in his power to secure an early meeting of the League of Nations."

Today's stock market witnessed a brisk inquiry for many low priced shares, though those in upper brackets were not neglected. Among shares making new highs were American Can, Continental Can, Montgomery Ward, Conglomerate and Kelvinox. Mining issues glided again as silver rose to 45 1/2 cents an ounce, its best since 1920. 1930, rising reports that Washington contemplated action which would have the effect of increasing the metal's mine value. Granby was a new favorite, up a couple of points. U. S. Smelting jumped about four. Park Utah, Magna, Kennecott and Anaconda also rallied.

Miscellaneous gainers in the active list included Austin Nichols, Marshall Field's, Eaton, Continental, American Beet Sugar, Fox, Paramount and Collins and Alkman. Steels were at their best in the forenoon, but several representatives that indicate more than a point net. Rails had some busy moments and were firm. There was a tendency in Wall Street to regard the notice of a reduction of certificates on hand as designed for bargaining purposes.

Altravets were somewhat indisposed as the small controversy continued. Utilities made rather narrow gains, but the bullish sentiment characterized most other groups, though American Telephone was up around a point. The company's own earnings for last year, equivalent to \$7.37 a share against \$7.82 in 1932, were about as forecast.

Heavy gold losses of the Bank of France in the "last week" for which statistics are available kept alive the question of France's ability to stick with the gold standard. It is understood that more recently the drain had slackened.

The federal reserve's weekly statement showed a moderate decrease of some \$5,000,000 in total discounts. The aggregate of bills bought in the open market also declined about \$10,000,000. The item of "gold certificates on hand and due from the U. S. Treasury" disclosed an increase in the total of about \$69,000,000.

A drop of about \$43,000,000 in broken loans was attributed to the sharp sell-off in stocks at the end of last week and was the largest decline in this total since the week of Jan. 11, when there was a reduction of \$21,000,000.

Local member banks reported a further decrease in loans and investments of \$42,000,000. This item showed a drop of \$22,000,000 in the previous week. Holdings of U. S. government securities declined \$37,000,000 but there was a small advance in the "other securities" portfolio. Loans on securities were \$24,000,000, but "all other," or commercial loans expanded \$45,000,000.

European

(Cont. from Page 1) big Austria was stressed in Rome (Italy has 75,000 troops massed near the Austrian border) and in London.

This attitude was contrary to the expressed wish of France to interfere if necessary to prevent union between Austria and Germany if the Dollfus government should be forced aside.

Arms conversations between France and Germany meanwhile received a set-back with transmission of a note from Paris to Berlin which virtually demanded the door to further negotiations, holding that Hitler already had armed Germany.

The focal point in growing European political complications remained in Austria and neighboring Czechoslovakia where tense sympathy for Socialism manifested itself Thursday in a five-minute strike. Czechoslovakia is a staunch defender of democracy in central Europe.

What Does It Mean?

THIS is the symbol of a prescription. It's a variation of the sign of Jupiter and was used by an ancient Chaldean to please the king of the gods so that the medicine might have favorable results.

We still see that symbol in 1934—but today in our modern prescription department it is a symbol of health—of care and accuracy in filling prescriptions which your doctor has advised for you.

Britain Will Pursue Hands-off Policy

(A.P. By Guardian's Special Wire) LONDON, Feb. 15.—Sir John Simon, Secretary for Foreign Affairs, indicated to the House of Commons today that Great Britain would continue to pursue its hands-off policy in connection with the present internal troubles in Austria.

A member asked from the floor: "In view of the grave news from Austria of the possibility of the development that endangered the peace of Europe would it be use every means in his power to secure an early meeting of the League of Nations?"

Sir John replied: "I am sure the House will appreciate that one country cannot claim to interfere in the internal affairs of another."

As regards her internal situation, I am sure the House will appreciate that one country cannot claim to interfere in the internal affairs of another."

Y's Men's Past Presidents' Night

Last night was observed at the Y's Men's Club as Past Presidents' Night. Out of eight past presidents since 1925, seven were present, with Past President Jack MacNair acting as master of ceremonies, introducing each in turn and giving a brief eulogy on each.

Y's Man Fred Holman first called a toast by the Club to the Past Presidents which was responded to by each in turn beginning with Arthur Affleck, who was the first president when the Club received its charter in 1925. Past President Affleck gave the history of the founding of the Club and the events which took place up to the termination of his office in 1926 when there were eighteen charter members, five of whom are still active. Dr. Chubbard who succeeded President Affleck in 1927, was next and he gave a brief resume of the functioning of the Club in his term of office. Cleverly MacLennan, who was president in 1928, was the next speaker and he also described the various trials and cares that were met during his session as president. Next came Ken Clouston, who was president in 1929, followed by Jack MacNair who succeeded him in 1930. Jim McPadyen came next as the successor to Jack MacNair in 1931 and next in line was Mr. Bentley who held the office for 1932. Past President Whit was unavoidably absent but sent along his best wishes to the other past presidents. In 1933 Russ LeFevre took over the job from Whit and carried on until the end of the year, which has just closed. Ray Fendleton, charter member, called upon, gave a brief history of the Club's activities during his eight years as member. Each and every one of the Past Presidents gave a very interesting account of their stewardship while in office and which was listened to very intently by the club members as this was the first time the history of the club has been reviewed. It was decided to make this event an annual affair from now on. Mr. Harvey McPherson, who was present, rendered a very pleasing solo which called for an encore and was heartily enjoyed by all present. The President of the Club, Mr. M. Douglas, gave a very descriptive reading which was heartily received. Y's Man Roddy Gillis led the sing song as usual.
