Provincial Quoit Tournament

The date set for the Provincial Quoit playoffs is September 12th.

All teams desirous of entering are kindly asked to have their entries placed with Mr. Arthur McPherson not later than 6 p.m. Tuesday, September 8th.

It is the intention this year to make a day of it and run the playoffs in sections and complete the play and decide the winner at the one meeting. This will enable the out of town teams to be spared the chance of having to make more than one trip to the city.

As the ruling for this tournament is that all games are to be played in Charlottetown, the likely place will be on the Rochford Square Quoit beds.

The beds and lighting system make it possible to play right through until midnight if necessary.

Please have your entries sent or mailed early in order to leave plenty of time to organize the sections and publish the entry list before playing date arrives.

air action in the Solomons said:—

MILNE BAY: In the face of strong air opposition the enemy landed ground forces from a small convoy during the night.

"Allied heavy bombers, under the most adverse flying conditions, attacked from a low altitude and sank a transport, heavily damaged and probably sank a cruiser, and damaged a destroyer.

The increasing threat to the Australian mainland was obvious. Cape York in northeastern Australia is less than 500 miles from Milne Bay where the Japanese undoubtedly intend to try to establish another air-sea base.

Port Moresby, the strongest allied New Guinea base, is 230 miles northwest of Milne Bay. For some weeks now allied observers have expressed belief that the Japanese intended to try to edge their way around the southeastern tip of New Guinea in order to attack Port Moresby.

Japanese ground forces driving inland from the Buna base, established some weeks ago, are stopped at Kokoda, only 60 miles from Port Moresby. But the towering Owen Stanley range hampers any overland assault against the allied base. Hence the Japanese coastal movement southeast along the New Guinea coast to Milne Bay.

Should the Japanese be able to establish a strong base at this new landing site their bombers would be within an increasingly-dangerous striking distance of Australia mainland cities across the Coral Sea.

SAVE YOUR CAMERAS

Cameras are precious these days. If a camera goes out of order it should be checked because it can be reconditioned. Lenses are increasingly difficult to get and many of the expensive cameras are now off the market.

As the playoffs are on the point system, McFarlane is leading with 41 points, McInnis following closely with 38 points and Robin trailing with 31 points.

The games go into their second stage tonight at 7.15.

In the playoffs between the new men of quoits, the following are the results:—

E. Nicholson, won four.
J. Simmons, won two.
W. McKenzie, won two.
A. Likely, won two.

Braves Defeat Aces 25-16

The Braves defeated the Aces 25-16, in the third game of the finals in the K. of C. Softball League. This was the second straight win for the Braves who now lead in the series, two games to one.

It was a high scoring game with plenty of home runs. Martin pounding out two four baggers for the losers.

This victory leaves the Braves just one game away from the championship of the K. of C. League.

The K. of C. team which finished the schedule with the most points in the league is not taking part in the playoffs. This is why the winners of the Braves-Aces series will be the champions of the league.

The fourth game of the series will be played next Sunday at 6.15. It is a best three-of-five series.

"Ration Book No. 1" Being Distributed

"Ration Book No. 1" is now being distributed throughout Canada and on Sept. 7 it will supercede the Temporary Ration Card now in use.

The new Ration Book will be good for a period of six months. Each book will be serially numbered and on the inside front cover will be given the address of the office of this Board nearest to the holder so that local enquiries may be handled most effectively.

At the top of each sheet of coupons is a space in which the holder is required to enter in ink his name and address and at the left hand side of each sheet of coupons a space in which he is required to enter the serial number of the book as indicated on the front cover.

The first sheet of coupons is red and each of the 13 coupons is identified as being for the purchase of sugar. Each of these coupons will be good for a two weeks' supply that is, one pound of sugar. The second sheet of coupons is printed in green and is for tea or coffee. Each of these 13 green coupons marked "Spare 'A' " is good for two weeks' ration of either tea or coffee, that is, for either two ounces of tea or eight ounces of coffee.

There are three other series of coupons. One series of 13 coupons marked "Spare 'B' " and printed in blue and two series of 26 coupons marked "Spare 'C' " (brown) and "Spare 'D' " (gray) are also included.

No use for these extra series of coupons has been designated and they have been included by way of precaution in case it should be necessary to ration other commodities.

The Board has definitely stated that at this time it is not contemplating the rationing of any other commodities, but in case of emergency it might have to move very quickly. Hence the extra coupons have been included.

At the back of the book is a postcard which will be used by the holder to secure a new book when the term for Ration Book No. 1 has expired. On the inside back cover are instructions about the use of the book, i.e., that the holder must sign and enter the serial number on each set of coupons and also sign in the space provided on the inside back cover. It is also emphasized that coupons must be detached in the presence of the storekeeper and that it is illegal for a storekeeper to accept single loose coupons. Holders are advised that if they join the armed forces they must take the books with them and that the book is the property of the Canadian Government and may only be used by the person to whom it is properly issued. There are further instructions on the outside back cover, advising that each coupons has an effective date but may be used at any time after that date.

BERRIES FOR TABLE

The most convenient way to prepare strawberries for the table, is to place them in a sieve and wash very thoroughly before hulling; drain, hull (with the aid of a spoon handle or knife, if desired), then again drain thoroughly before turning into a bowl for chilling. If the strawberries are most popular with the family when sugared, sprinkle them (after cleaning) with fruit sugar and let stand in a warm place until the sugar has dissolved; then chill very thoroughly for serving. Accompany by thick pouring cream. The advantage in washing the berries before hulling is that then they are more convenient for handling, and do not break up as much as if they are washed after hulling.
