The Great Blood Maker "IRON"

Iron is the element that gives richness to the blood, the substance that brings back the color to faded cheeks and strengthens and invigorates the whole body. Iron to give these results must be given in the proper form for assimilation

Hughes' IRON BLOOD PILLS

contains iron in such a combination that it is readily absorbed. If you are pale, run-down or anaemic you can count on results by taking these Pills.

The HEINTZMAN Piano is the Marvel of Master Musicians the World Over

For the past twenty years pianists and concert singers of world-wide fame have been performing in Canada.

It surely stands to reason when pianists such as Reubenstein, Hamburg, dePachmann, Hylstedt—

And operatic singers, Melba, Nordica, Plancon, Jonas, Albari—

When artists like these, who may use any instrument they desire—prefer and insist on the HEINTZMAN—it must be a good piano.

But it costs no more than inferior instruments.

1,000 Men a Day During January

OTTAWA, February 13.—Recruiting figures for January show an average of practically 1,000 men per day for the full month. Commanding officers of each division say that the men are enlisting now at a most satisfactory rate.

As continued keeping up of the flow of new men to the colours is all the more remarkable in view of the fact that up to the end of last year, Canada had already enlisted about 210,000 men.

The total number recruited to date, including officers is over the 240,000 mark. To the total number the first division (London) has contributed a little over 20,000 men; the second division (Toronto) about 54,000 men; the third division (Kingston), a little over 25,000 men; the fourth division (Montreal) about 22,500; the fifth division (Quebec), about 5,500; the sixth division (Maritime Provinces), nearly 23,000; the tenth Military District (Manitoba and Saskatchewan), about 46,500; the 11th District (Alberta), about 23,000; and the 13th District (British Columbia and the Yukon), nearly 23,000.

During January the Toronto Division recruited over 8,000 men; the Western Ontario about 4,000; Eastern Ontario about 3,000; Quebec, about 2,000; Maritime Provinces, about 2,000; Manitoba and Saskatchewan over 5,000; Alberta, 3,000, and British Columbia, nearly 2,000.

TRAGEDY OF THE SUBMARINE

(Continued from page four.)

tion by refraining from making any mention of the time or place of the destruction of the U-boats. When the disturbance of the floats at the top of a torpedo net showed that a submarine was entangled the U-boat was hauled to the surface, shot full of holes and allowed to sink without a word being published of the occurrence.

The psychological effect upon the personnel of the submarine service of this absolute silence as to the fate of the submarine after they have left the Elbe must be simply appalling.

So long as the fate of the U-boats which were destroyed or captured in the earlier weeks of the war was made known, the horror of uncertainty was missing, but during the past few months over half a hundred boats have failed to return. They saluted as they streamed out from their naval base, and that was the last that was seen or heard of any one of them.

Von Hindenburg has said that the present contest is one of nerves. If so, it may well be a question whether this portentous silence which has followed the passage of the U-boats upon the high seas has not been a powerful factor in breaking down the German submarine warfare.
