

DR. BARCLAY APPRECIATED.

MONTREAL, Jan. 15.—The session of St. Paul's Presbyterian church last night increased the salary of Rev. Dr. Barclay, who recently declined the principalship of Queen's University, from \$7,200 to \$8,500 with a manse, heating and lighting. The reverend gentleman's salary now closely doubles that of the next highest paid Canadian minister.

ONCE WAS ENOUGH

J. J. McDonald Cured by Dodd's Kidney Pills, has had no return of his Rheumatism and Dropsy.

WINDSOR, Ont., Jan. 19.—(Special).—The case of Joan J. McDonald, a well-known farmer now living at 130 Langlois avenue here, is one more striking proof that Dodd's Kidney Pills will not cure Rheumatism and Dropsy, that they will drive the disease clear out of the system and keep them out.

For two years Mr. McDonald suffered terribly with Rheumatism and Dropsy. His legs were swollen and the pains he suffered was most acute. He used Dodd's Kidney Pills and was cured.

That was five years ago. Speaking recently he says, "I have had no return of the trouble up to the present. I acknowledge that Dodd's Kidney Pills cured me."

Cure the Kidneys with Dodd's Kidney Pills and the Rheumatism will cure itself.

Selling Its Salt Springs.

While political parties, newspapers and publicists are urging municipal or Government ownership or control of many public utilities, the State of New York is rapidly closing out its only commercial enterprise, the ownership of the Onondaga Salt Springs Reservation at Syracuse. On September 12, 1783, the Onondaga Indians sold to the State of New York a strip of land extending around Onondaga Lake, comprising some twenty thousand acres, on condition that "it shall remain forever for the common benefit of the people of the State of New York and the Onondagas for the purpose of making salt." The State maintained its salt-making enterprise until 1874, when the Legislature passed a law allowing such lands to be appraised and sold which did not conflict with the business of manufacturing salt made from brine furnished by the State from the springs. So great was the pressure on the State by individuals demanding all the remaining salt lands that in 1898 a law was passed directing that the realty and personality in the surface rights and salt springs be sold, and that the office of State Superintendent of Salt Springs should cease on that day when all the property of the State should have been disposed of. On the passage of this law State appropriations to maintain the State Superintendent's offices at Syracuse ceased, and the official has since maintained his office and the business of furnishing brine to manufacturers from the duties assessed on the salt manufactured, save that he receives a salary of \$1,500 from the State. The Superintendent recently said that there are less than five acres of the property left now, and this will soon be disposed of. He added:—"The State itself has not lost nor been unsuccessful in the conduct of the enterprise. On the contrary, from the duties assessed on salt the Erie Canal was largely constructed. It is private enterprise that has been hurt by State-ownership, and it is private enterprise that has been and is pushing the State out of business. How can private enterprise pay a duty of one cent a bushel of 50 pounds on salt manufactured from State brine when manufacturers elsewhere have no duties to pay? Herein is the vital question of Government-ownership exemplified. It crushes the enterprise of the citizen." And yet the poor struggling manufacturers of salt and mineral water in the State are making spirited bids for the property, and going to considerable expense to see that "the other fellow" does not get more than his right share. Almost as much money as the land is worth, if not more, has been spent in defeating projects to sell the entire property to this or that particular firm instead of selling it in sections. "It is understood," says a New York contemporary, "that the next Legislature will order a peremptory sale of what remains of the Salt Reservation, notwithstanding its solemn compact with the Indians, and the fact that the surviving Indians still demand and receive free salt from the State." The Indians, it is safe to say, will not be considered in the transaction; Uncle Sam's legislators have their own ideas about keeping agreements with the redmen.

The White Wyandottes.

The question is often asked by those about to go into the poultry business or to keep pure breeds instead of mongrels, "Which is the best general purpose fowl?" The reply of most practical poultrymen is likely to be either White Wyandottes or Barred Plymouth Rocks. Although the Rocks were a popular breed long before the White Wyandottes were known, the latter are more and more each year taking the precedence. The whites are true sports from the Silver Laced Wyandottes, and the latter were originally "made" by crossing a silver spangled Hamburg cock on a dark Brahma hen. It may be asked: "Why, then, are the whites better than the silver or other colored Wyandottes?" The answer is, the mere fact that they are whites gives a slight advantage when marketing fowls; and, besides that, the practical poultrymen have taken them up, rather than the other Wyandottes, and bred them especially for practical purposes. Therefore we see the 213 egg strains of the whites advertised, but not of the other breeds of the same family. It may be conceded that the Wyandottes on one or two points do not equal the Rocks; they weigh a pound less and they do not mature quite so quickly. But they lay more eggs, they are plumper and fuller on the breast, and are smaller boned. For broilers they rank as the best of the pure breeds and for crossing they are again first on the list. Crossed with White Leghorns they make the best broilers; crossed with light Brahmas, they make the best roasters in any market, and either cross makes excellent layers. They are docile, good foragers, good setters and withal a beautiful as well as a business breed.—B. H., in New York Tribune Farmer.

Some French Wit.

Says the Saturday Evening Post:—A happy example of French wit was the reply of Voltaire, when, having extolled Haller, he was told that he was very generous, since Haller had said the very contrary of him. "Perhaps both of us are mistaken," said the wit, after a short pause. We doubt, however, if any French mot or repartee ever surpassed in delicacy the reply made by an East Indian servant of Lord Dufferin, when he was Viceroy of India: "Well, what sort of sport has Lord — had?" said Dufferin one day to his "shikarry" or sporting servant, who had attended a young English Lord on a shooting excursion. "Oh," replied the scrupulously polite Hindoo, "the young Sahib shot divinely. But God was very merciful to the birds."

Most of the city (of London) police are expert swimmers, says The Daily Express, and one of them, P. C. Billson, who often has to keep his watchful eye on The Express office, holds the police championship of the United Kingdom. Their teams have secured the life-saving championship, scientific swimming and water polo championships of the City of London, and at water tug-of-war they have, as on land, no equals in the metropolis.

BLEEDING PILES

Not Only Painful and annoying but a Menace to Life Itself Can be Cured by DR CHASE'S OINTMENT

Piles or hemorrhoidal tumors, like varicose veins in other parts of the body, sometimes burst and permit the escape of blood from their central veins. These constitute bleeding piles. Such hemorrhages are sometimes exceedingly profuse, so as to even endanger the life of the patient.

The victim of piles should avoid rich stimulating foods and drinks and should keep the bowels slightly relaxed as constipation is one cause of this ailment.

Some people do not think of trying Dr. Chase's Ointment for bleeding piles, though they know of its wonderful power in curing other forms of this horrible complaint.

The best proof of the efficiency of Dr. Chase's Ointment in this regard is the testimony of persons who have been actually cured of bleeding piles by using it. The statement of Mr. Jackson given below is that of a well known and responsible business man who felt so grateful for the benefit derived from Dr. Chase's Ointment that he determined to do what he could to let others know about it.

Mr. Jas Jackson of the Laurie Spool Company, St. Alexis de Monts, Que., writes:—"You may put my name to any praise you can give to Dr. Chase's Ointment, for it has done me more good than any medicine I ever used."

"I was troubled for two years with that cruel disease, bleeding piles, and after using Dr. Chase's Ointment, I can say I am entirely rid of it. It is a treasure to all suffering from piles."

Dr. Chase's Ointment 60 cents a box. At all dealers, or Edmanson, Bates & Co. Toronto.

HE GETS TEN YEARS.

MONTREAL, January 15.—In special sessions to-day Stanley Cooper pleaded guilty to blowing open two safes, and was sentenced to ten years imprisonment in St. Vincent De Paul penitentiary. Cooper was arrested in Portland, Me.

SCORES OF USES.

While Dr. Chase's Ointment is best known on account of its wonderful control over eczema, salt rheum and piles, it is found to be in almost daily demand in many homes as a cure for children, chafing, pimples, sunburn, burns, scalds, and each and every form of itching, irritated or inflamed skin. It is invaluable in every home and as a soothing and healing application known no equal.

THE SCOTTISH CURLERS.

MONTREAL, January 15.—The Scottish curlers made a good start to-day against Thistle Club, winning the morning rinks by 30 to 18.

To cure headaches in ten minutes use Kamfort Headache Powders.

MAY NOT PROSECUTE.

St. John, January 15.—It is possible that the Government will not prosecute Gooispeed for murder, but will be content with the burglary charge.
