Special to The Guarhian.
OTTAWA, July 28—In the house of Commons this morning Dr. Sproul brought to the attention of the Prime Minister the allegations made by Sir Sanford Flemming in regard to the information of the cement merger.

He wanted to know if the matter was not proceeded with and if not proposed to appoint a commission of inquiry.

Sir Wilfrid Laurier said in reply that the Government had hoped that the House would deal with the matter, but progress on reciprocity was so slow that there appeared to be little prospect of that.

He had not thought of appointing a commission, but in the event of the House not dealing with the matter the suggestion made was a good one and it would be considered.

LOBSTER CATCH IS BELOW THE AVERAGE

HALIFAX, July 27—The lobster season in Nova Scotia has closed, the extension of time granted by the fisheries department at Ottawa having expired a few days ago. As a general rule the catch this season in Halifax was below the average but prices were good and what the fishermen lost in the way of large catches they will make up in the increased prices they received for their goods.

Similar conditions, according to recent reports, existed in other places. From the fishermen's standpoint the season at Canso has been as profitable as last year, altho the quantity taken is slightly below that of last year.

The report of the lobster fisheries along the Northumberland Strait are similar to those received from the fishermen in Halifax county.

SIR WILFRED IS RATHER IMPATIENT

OTTAWA, July 27—Proceedings of the imperial conference were tabled in the commons this morning by the prime minister. Sir Wilfrid called the attention of the house to the fact that the report on the conference held by the dominions with the admiralty on the status of Dominion navies was not included. He stated that a copy had been received in Ottawa, but could not be made public until permission was given by the British government, which was waiting to hear that the copy forwarded to the Australian government had arrived, so that there could be simultaneous publication. Sir Wilfrid read dispatches which had been sent to the British authorities asking for permission to publish the proceedings immediately. No reply is available yet.

Sir Wilfrid showed a great deal of impatience over the fact that he was unable to make public the report of these proceedings, a grabled account of which was cabled to Canada at the time the conference was going on, and placed him in a rather unfavorable light as to co-operation of Canada and the British forces in time of war.

NO MONCTON GAMES FOR THE MARATHONS

MONCTON, July 27—The Victorias have resigned from the local baseball league. The manager of the Victorias is one of the promoters trying to bright outside teamr here, and the resignation is synonomous with the failure of promoters to make arrangements with the M. A. A. A. for games.

COMPENSATION BILL IS LEGAL

BOSTON, July 27 —The Massachusetts supreme judicial court advised the legislature today that the working men's compensation bill is constitutional under the laws of the state. All though the opinion, which is signed by all the five justices who considered the matter, contracts are drawn between the pending bill and the New York act, which was declared unconstitutional by the supreme court of that state. The senate took the measure from the table upon receipt of the opinion and passed it to a third reading. It has already passed the house. The bill provides that if an employee is injured and sues for damages, the employer cannot set up as a defense that the victim suffered from his own neglect or that from a fellow worker's.

LONDON, July 27—The political crisis arising out of the veto bill is merely marking time, while the respective generals marshal their forces. Not only is Lord Lansdowne constantly receiving fresh adherents, but a large body of the Lansdowne peers have voluntarily to vote with the government should that unpalatable course be needed to save the veto bill and avoid the creation of peers. In the meantime the insurgents and their newspaper supporters are keeping up a stout front in an attempt to conceal the fact that they are losing ground.

SOME UNIONISTS FOR VETO BILL

THE FUNERAL OF THE LATE REV. DR. FALCONER

PICTOU, July 27—The funeral of the late Rev. Dr. Falconer took place this afternoon from Prince street church to the new cemetery. As the body was carried into the church the beautiful funeral march of Beethoven's was played by the organist, Miss Dwyer, and the choir rendered the anthem "Blessed are the Dead," by Dudley Buck, after which the congregation joined in singin the fourteenth Psalm selection—"The Lord is my Shepherd."

Rev. Dr. Robertson, of Toronto, read as a scripture lesson Psalm 91, and I. Corinthians xv., after which prayer was offered by Rev. Anderson Rogers, of Halifax.

Rev. George S. Carson, editor of the Presbyterian Witness, so long and intimately connected with the deceased, paid a touching tribute to the memory of the good man. Mr. Carson spoke of tender memories connected with his long association with Dr. Falconer, having first made his acquaintance in this town ove twenty-five years ago. They had passed through many and varied experiences together, as pastors of sister churches and during these many years never a shadow of disagreement had arisen. Those who knew the true man knew how large-hearted he was and how deep and tender his sympathies. His greatness lay in his strength and firmness of character because he lived near the source of strength. Humble and unassuming, he was never known to say an unkind word of anyone. In his preaching he was evangelical, never wandering from the cross of Christ. Dr. Falconer will never be forgotten in the Presbyterian church from ocean to ocean, nor in this church and town as long as this generation remained who had been brought into touch with him. Rev. R. G. Strathie, Charlottetown, was among those present.

PLAYWRIGHT FOUGHT HIS THIRD DUEL

PARIS, July 27 — Henri Bernstein the playwright, fought yesterday his third duel arising out of the riots that brought about the withdrawal from the Comedie Francaise of his play "Apres Moi." To-day's duel was with Maurice Pujo, who was second for M. Lacour. The latter was not able to fight, because he is in prison for striking M. Briand when Briand was premier. Bernstein had requested the authorities to release Lacour long enough for him to fight a duel, but the authorities refused. Lacour is a king's camelot, or royalist. Bernstein had seven fierce sword bouts with Pujo, and the latter was wounded in the right forearm.

I. C. R. GRAIN RATES ARE TOO HIGH

MONTREAL, July 27 — The high grain rates charged by the Intercolonial railway on grain shifted from Montreal to points east of Quebec were the subject of much discussion at a meeting this afternoon between the council of the local board of trade and the government commissioner, which controls the affairs of the Intercolonial. Local shippers were anxious to know why the government railways those charged by the C. P. R., C. N. R., and G. T. R., whose rates are fixed by the railway commission, a government body, quite distinct, however, from the Intercolonial board promised to look into the matter, and make a statement within ten days. The chief point of protest is that, while the Intercolonial railway rates are higher than those of the other roads where competition exists, they are very much higher to districts not reached by competing lines.

Said Fifty Will Follow Lord St. Aldwin. May Avoid Making New Peers

Special to The Guardian.
LONDON, July 28—It is reported that Lord St. Aldwin has pledged himself to lead fifty Unionist Peers into the Government lobby in support of the Veto Bill.

This plan, while relieving Lansdowne of the onus of voting against his own amendments to the bill would insure its passage without resort to the creation of Peers, as the Government can rely upon fifty votes in the House of Lords from Liberal Peers and it is doubtful whether Salisbury will succeed in taking fifty into the Opposition lobby.

THE LOVE OF GOD

Like a cradle rocking, rocking,
Silent, peaceful, to and fro,
Like a mother's sweet looks dropping
On the little face below,
Hangs the green earth, swinging, turning,
Jarless, noiseless, safe and slow,
Falls the light of God's face bending
Down and watching us below.

And as feeble babes that suffer,
Toss and cry, and will not rest,
Are the ones the tender mother
Holds the closest, loves the best;
So when we are weak and wretched,
By our sins weighed down, distressed,
Then it is that God's great patience
Holds us closest, loves us best.

Oh, great heart of God! whose loving
Cannot hindered be nor crossed,
Will not weary, will not even
In our death itself be lost.
Love divine! of such great loving
Only mothers know the cost—
Cost of love which, all love passing:
Gave a Son to save the lost!

—Saxe Holm.
