Considerable curiosity is felt as to the precise action the fisheries department will take to protect the clam and the clam bake from extinction. Complaint is also made by farmers in the Province of P. E. Island that the clams are being entirely cleaned up and it will be years before the damage already done will be remedied.

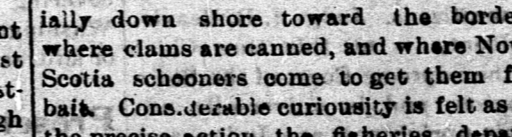

HOW ONE MILLION IS SPENT. Not less than one million dollars is annually spent by people seeking an absolute cure for catarrh, Bronchitis and Consumption. Numerous are the remedies, but the one standing pre-eminently above all others is Catarrhoxone. It cures these diseases because it is care to reach them. Catarrhoxone is inhaled into the lungs through the nasal passages, and bathes every part of the diseased membrane with its germ-killing, healing vapor. You simply breathe Catarrhoxone and it cures.
