Efficient Ways For Lighting

Much interest circled around the talk given in the Oddfellows Hall last evening by Mr. E. W. Jeffrey, electrical engineer, on Modern and Efficient Lighting in the Home. Mr. Jeffrey, was introduced to the large mixed audience by the manager of the Maritime Electric Company, in this city Mr. James McKee, and for over an hour pointed out with the aid of the screen the up-to-date home and how it should be lighted. It was decidedly interesting to see the various ways in which adequate lighting can be had with no sacrifice to the beauty of the home, in fact greatly enhancing it.

Find it be for clean!

Don't call the plumber when the sink drains choked. A little Gillett Pure Flake Lye will probably do it in a few minutes. It is one of the best of other uses around sanitary home.

KENSINGTON Live Stock Shipping Club, loading hogs Wednesday, 20th up to noon, John A. Douglas, 4445.

SUCCESSFUL CONCERT—The Christmas concert of the Bideford Sunday School which was postponed on account of flu, was held in the Hall at Ellerslie on Tuesday night, Feb. 12th. The spacious hall was well filled with an attentive audience who had the pleasure of listening to a well rendered programme which consisted of dialogues, drills, monologues, songs, recitations, etc. Quite a nice sum was realized from admission and sale of candy. Much credit is due Miss Erica Cook and Mrs. J. L. Morrison for their untiring efforts in training the children.

THE POLICE COURT—At the Police Court yesterday morning two drunks were each fined \$10.00 and costs. Two others, on a similar charge who failed to appear had their bail bond of \$10.00 estreated. A taxi driver charged with speed had his case adjourned. A second taxi driver, for the same offence was fined \$5.00 and costs. Three young men charged with corner loafing, who pleaded not guilty were each fined \$2.00 and the police officers instructed that the next time they offended they be brought in on a charge of vagrancy.

markets for blacks at high prices.

As usual, brown and faded skins were heavily discounted, also flat skins—this is skins which have not enough under fur to support the guard fur. In this connection we would most respectfully point out to ourselves, and our fellow fur farmers of Prince Edward Island, that the practice of killing Silver Foxes early in the fall months, is a big mistake, and means a large loss for those who practice it. Means will have to be taken to carry the animals along until the weather is cold enough to develop a thick under fur. This would mean protection by a roof of some sort against rain and sun, as these are certainly factors in producing brownish discolorment.

At the last meeting of the Savage Harbor Debating Club held on Thursday evening the 13th of February the following subject was discussed:

Resolved that the Legislature of Prince Edward Island empower a body of commissioners elected by the qualified voters of the Province to deal with and have control of the sale of intoxicating beverages.

Appended to the above resolution certain provisions were submitted, viz:

1. Two commissioners for each county and one for Charlottetown.
2. That all revenue derived from the sale of liquors be paid into the Provincial Treasury.
3. That the said duly elected commissioners should possess the right to make all the appointment of such official and preventive employees as may be found expedient to carry out such plan of control as they may choose to adopt.
4. That the place of control such as that proposed by the Stewart Government, or the one now prevailing in New Brunswick, be recommended.

It is needless to remark that the subject provoked a very interesting debate. The speakers in support of the resolution were F. H. Douglas, J. F. Doyle and W. Douglas. Against the resolution, A. Morrison, P. L. Coffin and Kimball Douglas.

The speakers in favor of the resolution rested their case on the wisdom of taking the question out of politics and that throwing more on the public their responsibility of enforcing whatever reasonable measures of control may be devised, and, secondly, by showing the failure of previous measures adopted. The speakers opposing the resolution were varied in their views, some for government control, others either for the impracticability of the proposed measure, or for prohibition.

After a lengthy debate a division resulted in a decision for the resolution by a standing vote.

DEBATE ON PROHIBITION VS. CONTROL

Lively Oratorical Contest at Savage Harbor, in Which a Resolution is Adopted by a Standing Vote.

The audience saw the well lighted kitchen with its electric range, electric iron, percolator, waffle irons, toaster, etc., the cosy kitchen nook, the dining room, the living room, bath room, all wonderfully lighted from direct and bracket lights, all of which are just as suitable for the Charlottetown home as any in the big cities. Mr. Jeffrey made a strong plea for central fixtures, augmented with as many brackets or portable lamps as may be desired, but always the central fixture and that shaded so that the light will be soft and without direct glare. Good lighting and plenty of light is not expensive when properly regulated said Mr. Jeffrey and all rooms should be so wired that there is a socket to every twelve feet of baseboard, thus allowing light for all sides of the room. These lights can be regulated by switches. Switches save money and do away with the oldtime frantic searching for the open light in a dark room. Two or three modernistic rooms were shown with the most delightful lighting effects from the side walls, all of which will no doubt in the near future grace many 20th century homes in Canada.

Outside lighting was also featured and several charming effects were shown of recessed and gardens illuminated at small cost by properly placed lights.

At the close of the talk Mr. McKee introduced Mr. Murray who made a few remarks on the electrical appliances for the home now procurable, the electric range, wasner, etc., a demonstration of which is to be given later on. Five valuable prizes lamps and lighting fixtures, were drawn for by Mrs. W. S. Grant and Mrs. Robert Hogg, Mrs. Grant, herself drawing the Binns Company prize, Mrs. James Bradley the Brown Electrical Co.'s, Miss L. Hopper the Palmer Electric Co.'s, Mrs. J. McInnis the R.T. Holman gift and Mrs. Platt's the Maritime Electric gift. The firms mentioned were all directly interested in having Mr. Jeffrey give his interesting and instructive talk.

EAT MORE FISH

We have on hand a few tons of large and medium dry codfish. Also late caught and mud cod. These fish are cured by ourselves, with many years of experience in fish. We guarantee these fish clean and wholesome.

We have on hand and daily fresh haddock, not frozen, steak cod, fresh market coxees, come early for crab, salmon and herring.

Come to Alex. Watts' old Fish Market. Out of town who want fish, call or write to Alex. Watts, 103 Royal Hotel, Richmond, 4443.

Dominion Govt. To Aid Provinces

(Special to the Guardian)

OTTAWA, Feb. 18.—The Dominion Government proposes to spend \$1,000,000 over a ten year period to aid provinces of Canada in their campaign for the abolition of level crossings which take toll of scores of lives annually. Hn. C. A. Dunning, Minister of Railways and Canals, has given notice in the House of an impending amendment to the railway act to permit annual payments of \$200,000 for ten years to the Railways grade crossing fund.

WASHINGTON, Feb. 18.—The House today passed a bill authorizing construction of a bridge across the St. Lawrence River near Morristown, N. Y.

Under a Government plan for which \$150,000 has been voted, 110 Persians recently left Teheran to study in Paris.

SPECIAL TRAIN leaves for Summerside at 5 o'clock. 4447

W.C.T.U. LUNCHEON—A Luncheon in commemoration of the Frances Willard, the founder of this Society was given by the City branch of the W. C. T. U. in St. Paul's Parish Hall to the out of town delegates and other invited guests. After the Luncheon Mrs. W. H. Thompson read an excellent paper, prepared by Mrs. Neil MacLeod of Summerside on the life of Frances Willard, and an address was given by Mrs. Boothroy on the meaning of the W. C. T. U. Mrs. Fletcher and Mrs. Lee Warren rendered acceptable vocal solos. They were accompanied on the piano by Miss Mae Sterns.

As said before, the auction was a satisfactory one, with the exception of a break that took place on Wednesday afternoon between 5 p. m. and 6.30, when prices dropped fully 20 per cent. It rallied on Thursday morning and closed firm.

Mr. W.K. Rogers consigned most of his pelts through McLure & MacKinnon, and was a very pleased spectator throughout the sale. He expressed himself as thoroughly satisfied with the amounts received.

A compilation of prices was made after the sale, and the results published. On the whole, it showed an advance of 71-2 per cent. over the October sale, which was five per cent. higher than the April sale. The April sale, however, was over 12 per cent. lower than the January sale of 1928, so that this sale would be about on a par with January. Of course, it is very difficult to arrive at an accurate conclusion, because the quality of the pelts might be a little better, or a little worse on the average. The price for the tops at this sale was not as great as the year previously, when Milligan and Morrison secured the banner figure of \$245 or over \$1200 for one of their pelts.

P. E. ISLAND

—Continued from page 1—

to. The Maritimes had no hinterland to absorb and could not enlarge their boundaries in any way. The situation therefore demanded serious consideration, the rights of the Atlantic provinces being very much at stake.

(Canadian Press)

OTTAWA, Feb. 18.—Expenditures on harbors and rivers totalling \$9,000,000 approximately are proposed in the main estimates for the fiscal year 1929-30 tabled in the House of Commons by Hon. J. A. Robb, Minister of Finance. For Nova Scotia, appropriations total \$750,000; for Prince Edward Island \$169,800; for New Brunswick \$431,000; for Quebec \$1,826,970; for Ontario \$2,633,300; for Manitoba \$77,600; for Saskatchewan and Alberta \$132,800; for British Columbia \$1,037,300; for Yukon \$5,000; for harbours and rivers generally \$30,000 and for dredging \$1,750,000.

Principle estimates for Nova Scotia include \$35,000 for ice piers at Barrington passage. In Prince Edward Island, it is proposed to expend \$48,000 for the reconstruction of the railway wharf at Charlottetown, \$20,000 for repairs and improvements to harbours and rivers generally, \$60,000 for breakwater repairs at Souris harbour and \$8,200 for wharf reconstruction and extension at West River bridge.

Under the heading of dredging, appropriations proposed are \$650,000 for dredging in the Maritime Provinces.

Seek Youth On Murder Charge

(Canadian Press)

GLACE BAY, N. S., Feb. 18.—Murdock Dunn, 17 year old Glace Bay lad is wanted by the Glace Bay police tonight on a charge of murdering 19 year old Fraser Robinson. The murder occurred shortly before eight o'clock tonight at the hub, Sam Robinson and a chum, named Morris, were skating when the latter collided with Dunn who was standing at the edge of the pond with a number of others, who say that Dunn pulled a revolver and fired two shots. The first went wild, the second striking Robinson in the right shoulder. He died almost instantly. The police searched several places about town tonight without success. Dunn was seen on the main street about 8.30 o'clock.

Higgins Outlines His Platform for Salvation Army

LONDON, Feb. 18.—General Higgins, new head of the Salvation Army Saturday outlined platform which projects wide drastic changes in the Salvation Army constitution and future government.

"I intend immediately to appoint a commission of a half dozen members to consider changes which have been made in the 1878 constitution to which the disputed 1904 document is only supplemental," he said. "I will invite legal issues require prompt advice and the ultimate decision of an act of parliament, changes which will destroy our power over the Army's temporal affairs and put the constitution of the Army on a basis forevermore. Our affairs we can care for ourselves."

"Another commission will investigate the question of the General's censorship. While I cannot say what will be their conclusion, my own opinion is that the Army's moral should be elected for a 10 or more years, subject to a general limit upon reaching which a general election would be compulsory."

B. C. To Retaliate

(Special to the Guardian)

VANCOUVER, Feb. 18.—British Columbia is planning a retaliatory measure in the event of the proposed Hoover tariff against B. C. forest products. This measure will take the form of legislation to shut out United States fruit and vegetables particularly importations from California, Washington and Oregon. This "provincial tariff" will be effected by the simple expedient of placing an inspection fee on each separate article imported. This method of dealing with the situation which is entirely within provincial rights will immediately operate without the delay of waiting for the dominion to frame a tariff to answer Hoover tariff increases.

THE HUDSON'S BAY COMPANY has recently made, and are making tremendous investments in Canada, and have now the finest departmental store on the American Continent in Winnipeg. They also built a five million dollar store in Vancouver, and have so many and varied undertakings in Canada that it is difficult to enumerate them, ranging as they do from oil wells to sealing fleets. They still own three million acres of very valuable land in the west. But it is by the fur trade that their name is best known, and they maintain 300 fur trading posts scattered over Canada from East to West, and extending to the Arctic Circle. Their new fur warehouse, now completed in London at a cost of five million dollars is so far ahead of anything of its kind possessed by any other firm that there is no comparison.

Livestock Market

(Canadian Press)

MONTREAL, Feb. 18.—Cattle receipts 558. Good cattle and medium grade butcher cattle were steady to a shade stronger. Canners and thin cows were easier. Two or three lots of good steers sold for \$9.75. The balance of the good steers sold for \$9 to \$9.50 with common to medium kind from \$7.50 to \$8. Good cows sold from \$7.00 to \$7.50 with common butcher cows as low as \$4.50 and canners as low as \$3. Bulls were from \$5.25 to \$8.00 according to weight and quality.

Canada And Newfoundland Reach Agreement

TORONTO, Feb. 18.—Newfoundland and Canada have reached an agreement on policy in regard to trade arrangements, revision of postal service and better steamship facilities.

The Mail and Empire quotes Sir Richard Squires, Premier of Newfoundland, as stating in an interview at Montreal last night: "A general policy of co-operation making for mutually advantageous industrial and commercial advancement of both countries has been agreed upon by the principals at the recent negotiations."

The policy includes provisions to improve letter mail, parcel post and freight transportation facilities and certain trade arrangements which will necessitate revision of the Newfoundland tariff in some particulars.

A number of conferences were held with Premier King and cabinet ministers in Ottawa, recently. Some time must elapse before the details of the understanding will be worked out and assembled for a final revision satisfactory to both sides.

Careful investigation is to be made by both governments into the statistics and facts generally bearing on the past and existing relationships not only between Canada and Newfoundland, but between them and other British foreign countries.

The Markets

EGGS

OTTAWA, Ont., Feb. 18.—Higher price levels were reported the week end from practically all Canadian egg markets. The price advances were brought about by the decline in supplies following the cold weather. Temperature throughout the country is turning milder now and receipts show some signs of increasing.

TORONTO—This egg market is unchanged today from last week end but the undertone is firm following today's advance in Chicago. Dealers are quoting country shippers extras 43-44c; firsts 40-41c; pullet extras 34-35c; seconds 32c.

MONTREAL—This egg market is holding unchanged. Receipts of Ontario eggs are light but fairly liberal supplies of B. C. eggs are available. Dealers are quoting country shippers for ungraded eggs delivered cases returned extras 42-44c; firsts 38-40c; pullet extras 34-36c; seconds 32-33c.

WINNIPEG—There has been a shortage of eggs here recently but some increase in supplies has been noted lately. Dealers are quoting country shippers for ungraded eggs delivered extras 40-41c; firsts 37-38c; seconds 27-30c.

VANCOUVER—There is very strong demand for B. C. eggs from all sections of Canada. A number of orders are booked ahead for the present week. Dealers are quoting producers extras 33-35c; firsts 29-31c; pullet extras 27-29c.

MONTREAL—There was no improvement in the demand from the United Kingdom and the continent for grain here today and in consequence the volume of business was very small. There was no change in cash prices for carlots of grain on spot and the demand was again of a limited character. The trade in spring and winter wheat flour was quiet but values were firmly maintained. The undertone to the milled market continued strong owing to the good demand and the small supplies available. An active trade was done in standard grades of rolled oats and values were steady. A feature of the egg market was the stronger feeling that developed and jobbing prices for

In Memoriam

In loving memory of my dear husband, John J. Desmond.

Today the thirteenth anniversary High Mass will be celebrated for the repose of his soul at the Mission Church, Roxbury, and also St. Dunstan's Cathedral, Charlottetown, where he died February 19th, 1916.

Thirteen years have passed and still we miss him just the same. When we sit and talk of him. When we are all alone. For memory is the only friend That grief can call its own.

By his Wife, Margaret. 4423-2-19-11.
