READY FOR THE HERRIN.—A number of nets have been set out along the Charlottetown waterfront in anticipation of the herring striking in. One of those owned by Mr. John White, was nearly put out of business a few days ago, having been taken in tow by some drift ice. It was finally located however near Connolly's Wharf. As yet no herring have been caught to reward these enterprising City fishermen, but they are hoping. Nearly every spring for some years past numbers of herring have been taken in Charlottetown harbor.

INSTITUTE MEETING.—The regular meeting of the Cornwall-York Women's Institute was held at Mrs. Fred McLaren's, York Point on April 1st. Notwithstanding the bad roads, thirteen members and sixteen visitors were present. Thirty-five pairs of socks were handed in to be forwarded to the P. E. I. Sock Committee and the donations to the Prisoner of War Fund amounted to \$5.35. It was decided to hold the meetings in the afternoon during the spring and summer. The members are requested to bring no refreshments to the next one which will be at Miss Kathleen McDonald's on May 6th, but to bring the equivalent in money. Miss McDonald guarantees that no one will go home hungry. After the business of the evening had been transacted, Mr. Poirier of the Dominion Department of Agriculture gave a brief address followed at greater length by Mr. Kerr Dominion Poultry Representative, who impressed on his hearers the benefits of co-operation. He also told of the good work accomplished by School Fall Fairs. Refreshments were served by the ladies and a collection amounting to \$10.50 taken which goes to help along the work of the Institute. After a hearty vote of thanks had been tendered Mr. Kerr and Mr. Poirier the singing of the National Anthem brought to a close a very enjoyable evening.

ISLANDER WOUNDED.—Word has been received that Pte. Horace C. Brown, son of Mrs. Matt Brown, York, has been wounded in the foot, and is undergoing treatment in a hospital in France. He was attached to the 26th Canadian Battalion, B. E. F., France. He crossed over last November, being one of the volunteer drafts of the 105th.

SUCCESSFUL CANDIDATE.—The last issue of the Canada Gazette, contains a list of successful candidates at Preliminary Competitive Examination for positions in the Outside Division of the Civil Service of Canada, held at different centres throughout the Dominion on the 2nd April, 1918. There was one successful P. E. Islander in the list, Mr. Frank B. Clarke, Charlottetown.

HOME FROM THE SOUTH.—Mr. George F. Thompson, son of Mr. G. A. Thompson, son of Poole & Thompson, Montague, arrived home on Wednesday evening from the West Indies where he has been spending the winter on business. His father who happened to be on the train at Emerald Junction, returning from a trip to Tighefish got quite a surprise when he met his son at Emerald, not having received any intimation that he was returning, needless to say the surprise was a pleasant one.

WELL KNOWN HERE.—A telegram received yesterday by Mr. J. N. McDonald, Supt. of Bridges, announces the death in St. John of Mrs. (Captain) Belyea, who is well known in Charlottetown. It will be remembered that Capt. Belyea, master of the "Government tug Roma," who resided in Charlottetown during the winter, was called home a few days ago on account of the illness of his wife. His telegram yesterday tells the sad sequel. Mrs. Belyea spent the past three winters in Charlottetown with her husband. Those who have been laid up in port recently, during her residence here she endeared herself to all who knew her by her winning ways and her willing assistance in charitable and religious work. Mrs. Belyea, whose home was at Purdy's Point, was a daughter of the late Captain W. H. Watters. She was active in church work and was highly esteemed by all who knew her. Besides her husband she is survived by two brothers, Frank Watters of British Columbia and Wesley Watters of Day's Landing, and one sister, Mrs. Joseph Carter, of Public Landing. Her death was due to pneumonia. The Guardian tenders the bereaved husband sincere sympathy.

EARNSCLIFFE ROADS.—April 29 it will be of interest to Islanders living in warmer parts of America than here to learn that, while some of the roads are dry-as-in summer, there are other places—such as between Mr. Frank McInnis' and Mr. George Huggan's snow in the lane from eight to ten feet deep. New bridges will be required this spring on the road between Mr. Joan Doyle's and Bernard Doyle's, and at Cherry Valley factory, where the concrete culverts have been put out of action by the frost. It was thought at one time that the concrete bridge, was the perfect solution of the small bridge problem in P. E. I. but in a winter such as the past one, when Jack Frost is stronger than the Gulf Stream, we find that many of those concrete bridges do not stand the test and some think that in those cases a wooden bridge, made of good material, and put down properly, would be cheaper and more lasting than the concrete one. Following is the Earncliffe Road Master, Mr. Dan McLean's returns for 1917, as published in the report of the P. W. Department: Personal Tax \$55.50; Horse Tax, \$27.60; Dog Tax, \$8.00; Total Taxes, \$101.10; Paid by labour, \$84.00; Collected in cash, \$16.10; not collected \$1.00. Paid out in cash, \$9.90; paid in to dept. \$620.—Q.

"WHAT HELPS"

Just a little pruning - To dignify the face.
Just a little curbing - To mollify the pace.
Just a little purity - In the heart of sin.
Just a little mercy - To let the sunlight in.
Just a little touch of nature - To make the world akin.
Just that little kindness - To the aching heart within.

For every one is human - And has a little heart.
Every one is hungry - For that little part.

Just that little kindly word - Just that little smile.
Just that little hand-grasp - Every little while.

SANK NORWEGIAN AFTER TAKING ALL BRASS AND COPPER

AN ATLANTIC PORT, May 1—The sinking of the Norwegian steamship Wegadesk, by bombs after the crew of a German submarine had held her a prisoner for two days and had re-

moved from her hold fifty tons of brass and copper, was described here today by members of her crew who arrived on a French steamer.

The Wegadesk of 1,271 tons gross register, was on her way to Genoa from Baltimore. On March 13, when about 10 miles off the coast of Mexico she was stopped by a submarine which after making fast to the steamer, put fifteen of her crew on board. For two days, the men said, the Germans, assisted by the Norwegian crew which they pressed into work, removed all the brass and copper the "boat could" carry. Bombs were then placed in the hold, the crew told to take to the boats, and as they raced about baffled explosions were heard.

On the ship arriving here were members of the crew of the Norwegian steamship Nordkya, from Philadelphia to Genoa with grain. This vessel was stopped in the same vicinity as was the Wegadesk, and was sunk with bombs after the Germans had removed all the food supplies and the extra clothing of the crew.

"We asked the Germans if they did not want some of our grain," a member of the crew said. "They replied they did not and added that Germany had all the wheat she needed."

The Nordkya was 4,271 tons register.
