Remember when you buy that the trademark "Vaseline" on the label is your guarantee that you are getting the genuine product of the Chesbrough Manufacturing Company, Cons'd, 5520 Chabot Ave., Montreal, Canada.

Vaseline

PETROLEUM JELLY

Two brown eyes, wistful and true. Speak of a heart that will stick to you; Four fat paws and a feathery tail. Tell of a friend who will not fail; Cold, wet nose thrust into your hand. Speaks of a friend who will understand. And yet the dog is dumb, they say. If you look, he is talking in every way.

Bermuda—Arrive Monday, 15th Oct.

Chest Colds Quickly Rubbed Away

"In our home," writes Mrs. Mary P. Stanley of Pittsburgh, "we were never without Nerviline. If any of the children had a cold I rubbed it away with Nerviline. What a wonderful liniment Nerviline is! For sore throat, a bad cough, or hoarseness. I always rely upon Nerviline. If the children had cramps, sick stomach or diarrhoea, Nerviline relieved them quickly. For overcoming the minor ills that occur in a large family, I consider Nerviline a necessity." Get a large 35-cent bottle of Nerviline from your drug-gist today.

Bringing Up Father

Ups and Downs In Tryon and Vicinity

Oh it's hard to think during these nice, balmy summer days, but I'll try and record a few happenings of our pleasant little village and then I'll stop—never to go again? Oh, yes, go and go strong again next week.

Jack Minor, Canada's greatest authority on wild bird life, arrived on the "Garden of the Gulf" on Wednesday, May 9th, lecturing the same night, in the Provincial Theatre. Then again on May 10th, to a large audience at the Capitol Theatre, Summerside.

Besides the lecture, a number of slides and moving pictures were shown, among them pictures of birds, animals, his home and family, especially his wife and mother. Some of those who were fortunate enough to hear this interesting lecturer were: Mr. and Mrs. Harold Howat of Augustin Cove, Mr. and Mrs. Somers, Mrs. Richard Lord, Austin Smith of Tryon, also LeRoy Howat and Iven MacKemon of Victoria and Crapaud respectively.

Instead of Mrs. Heath Chisholm visiting in Tryon, as printed in last week's "Ups and Downs" it should have read, "visiting in Charlottetown."

Mr. Ivan B. Dawson of Bedouque was a visitor to Augustin Cove on Sunday, May 13th.

Mr. and Mrs. Bruce Campbell and little son of Augustin Cove, were recent visitors to Emerald.

Farming operations are now in full swing, a number of the farmers are busily engaged sowing, but only in a few cases has there been any potatoes planted. In the course of another week, however, the farmers should be well under way, and hoping for a bumper crop in the fall.

The fishermen of Victoria report that herring are now very plentiful, but the windy weather has interfered with the lobster fishing to some extent. Some fair catches of lobsters have been made, however, and high hopes are entertained for a good season.

Two of the winners in the recent Eaton catalogue contest "What I buy from Eatons, and Why I do it" are Mrs. Elmer Dawson of Augustin Cove and Mrs. V. Howat of Tryon. Both of whom received substantial cheques.

Mrs. Art Jay and little son, of Eorden, were recent visitors to Tryon, the guests of Mr. and Mrs. George Pratt.

Miss Amy Ferguson of Hampton P. E. I. is now visiting in Tryon, the guest of her aunt, Mrs. George Platt, but expects to return home the last of the week.

Miss Margaret Dawson and Mr. George Dawson, of the thriving village of Augustin Cove, made a business call to Tryon on Friday evening.

Mr. and Mrs. Willard Thomas, charming little daughter, Madge and Mr. John Thomas, all of Tryon, were visitors to Summerside on Tuesday.

Mr. Brent Howat, son of Mr. and Mrs. John Howat of West Tryon, arrived home this week from the coast, in his new Willys-Cordell and limousine. His many friends here are very glad to see Brent once more, looking so hale and hearty.

Messrs. Brent Howat and Arthur Howat of West Tryon, motored to the Western Capitol on Wednesday and report roads in fair condition.

His many friends regret to learn that Mr. Austin Toombs has been on the sick list, but hope he may be well again in the near future.

Mr. Ernest Harvey, of Crapaud, made a business call at North Tryon on Wednesday evening.

Owners of incubators report poor luck this Spring, which is due, no doubt, to the prevailing cold, high winds.

Mr. Cameron of Albany has been around this week delivering fruit and ornamental trees for the stone and Wellington Co. It looks as though the Island has not gone entirely potato crazy, does it not?

Just to drive through our little village, Tryon, also North Tryon, gives one an idea of the prosperity of its inhabitants. Most of whom are car owners. Several new cars have been purchased and in the evening the roads are literally alive with traffic. Our roads are being improved every day, by dragging, etc. Tryon would surely be an ideal place for any tourist to spend his or her vacation, and, moreover,

Many can Make but few can Invest money wisely

A Truth That Should Be Emphasized by Accredited Financial Guides

NOWADAYS great emphasis is being placed on Economy. The people are urged to Save—save for the "rainy day," save for old age.

This is good advice. But what counts, in personal or general prosperity, is the WISE INVESTMENT of the money saved.

Too often the precious savings of years are lost in a few minutes. The beguiling story of unscrupulous salesmen, the signing of a cheque—and your hard-earned savings are only a memory, and a bitter memory at that.

It is to the advantage of reputable financial houses and institutions to instruct the people in principles of sound investment and to advertise regularly their offerings of high-grade securities.

The public wants to know, as it never did before, how to invest money where it will be safe, and what bonds and stocks are available for the purpose.

And this information can be given most effectively through the advertising columns of THE DAILY NEWSPAPERS OF CANADA.

THE daily Newspapers reach all the people and in an intimate way. Ninety-seven of them, with a combined circulation of over 1,900,000 copies a day—more than one for every literate family in the Dominion—afford the quickest, easiest and cheapest means for reaching every man and woman in the whole country.

The Savings Banks contain over \$2,000,000,000—almost the total amount of our national debt—which is available for investment in high-grade securities and which is in danger of being dissipated if it is not. The Great War taught all classes of people the meaning and value of Government Bonds. Their interest in sound investments is easily aroused.

THE advertising of service available through banks and the best financial houses is in the public interest. Those who recognize this fact, and use the power and influence which the Daily Newspapers offer, will find that substantial profits follow close upon the heels of a wide and dignified publicity.

TIN IS DISCOVERED IN NORTH MANITOBA

WINNIPEG, May 18.—(CP)—Tin has been discovered in Northern Manitoba, according to a wire received by Premier John Bracken from a prospector named Vina A. Lacker, of the Pas, Man. No information as to the probable quantity of the ore was given by Mr. Lacker, who simply pointed out that samples of the ore, which he has forwarded to geologists have been pronounced tin. Prof. R. C. Wallace, Commissioner of Mines, stated that the discovery was extremely interesting. Tin, he said, has been discovered north of Lac du Bonnet, but it was not in commercial quantities. It was also known to exist in other parts of the Province.

New School For Indians

TRURO, N. S., May 18.—Indians of the Maritime Provinces are to have a large school building at Shubenacadie, N. S., where they may receive a good general education, as well as instruction in various trades and scientific farming. Construction of the building, which will be four storeys high, located on a farm recently bought by the Department of Indian Affairs, was scheduled to start this month, and it is expected the work will be finished in the autumn. The building is being built, it is understood, in pursuance of an old treaty providing for an Indian trading post at Shubenacadie.

PATHETIC GROUP COME TO SHRINE

STE. ANNE DE BEAUPRE, QUE. pray for relief from their infirmities. May 18.—The year's most pathetic pilgrimage was witnessed yesterday when over 70 men and women, all deaf and dumb or blind, came to the shrine of Ste. Anne to pray for relief from their infirmities.

Baby is Teething

Don't get the idea Baby must be sick on this account. It is considered by those who make a study of children's diseases that Cholera Infantum—the most common disease among babies—is usually caused by sediment in milk.

Garden City Milk is free from sediment. Let us deliver your daily supply.
