Says U,53 Transgressed the Monroe Doctrine

PARIS, Oct. 15, ia London. — The German submarine U-53 made a breach in the Monroe Doctrine by sinking vessels off the New England coast, and it remains to be seen whether the United States will "sustain the celebrated American tradition, or let it be cast aside," according to Jean Herbette, military strategist and writer on international affairs.

"France is only a disinterested spectator in the debate," said M. Herbette, "because it makes little difference to her whether the Germans operate on one side of the Atlantic or the other, but it will produce a great change in the political equilibrium of the world if the doctrine shall be abrogated by President Wilson. The Jeffersonian maxim against European interference on the other side of the Atlantic applies, in fact, to American waters as well as to the continent itself, and when President Minroe was formulating his doctrine to prohibit European powers from controlling the destiny of the American people, he opposed naval as well as military control. One cannot be tolerated without opening the door to the other."

Russians Capture a Turkish Transport

PETROGRAD, Oct. 15, via London. The Russian submarine Tulen, on October 12, after an engagement near the Bosphorus, captured the Turkish six thousand ton armed war transport Roditsto, says a Russian official statement. The transport, which was commanded by German officers, was taken to Sebastopol. The statement reads:

"Black Sea: On Oct. 12 our submarine Tulen, under command of Lieut. Commander Kitytzin, captured near the Bosjhorus, after an hour's unequal artillery engagement, the Turkish armed war transport of 6,000 tons displacement. The ransport was under command of German officers, and despite the damage which it sustained during the engagement was safely escorted to Sebastopol. The transport captured was named the Doditsto."

VENIZELOS PARTY FORMED IN STATES

Thousands of Greeks Atten Meeting in New York,

Canadian Press Despatch)

NEW YORK, Oct. 16—With tumultuous enthusiasm and prolonged cheering followed by the singing of the National Anthem, the Venizelos party in America was formed yesterday afternoon at a meeting of more than 3,000 Greeks in the hall of the pan-Hellenic unionat 56 west Thirtieth Street. Greeks from all over the city and nearby cities attended the meeting. It was stimated that more than 10,000 flocwed to the union, and those who could not getinto the hall held overflow meetings on the side walk. All were insistent that the old government of Greece had tried to betray their country and that Venizelos was destined to be its saviour. When the call for funds for the assistance of Venizelos was sent out in the hall more than $4,000 was subscribed in less than ten minutes. So great was the enthusiasm and so earnest were the patriots that a little boot black who went to the meeting straight from his stand, gave $150.

Resolutions were unanimously adopted insisting on the immediate entry of Greece into the war on the side of the Allies.

SOLDIER WRITES FROM HOSPITAL

The following very interesting letter received by Mrs. P. D. McInnis, of St. Peters Bay, from her son, Pte. D. F. McInnis, recuperating in hospital after a strenuous experience in France, will be read with interest by his many friends on the Island:

No. 1 General Hospital,
London,
Sept. 24, 1916.

Dear mother,—Here I am in England, with very little the matter with me. I got pretty well shaken up in the big push on the Somme, and had to come out, so they sent me over here for a slight operation. I'm all right now, never felt better in my life, and expect to go back in a few weeks.

Our fellows did fine work on the night of the 15th, when they took Courcellette. I was in with the P. P. C. L. I., and the 42nd Canadian Highlanders, they belong to the 7th Brigade, and we are all proud of the 7th Brigade. It would be impossible to try and describe the battle. It was one continuous roar and crash, men dead and dying all around, but we were advancing, and that make a great difference. The walking wounded were fine, some of them passing us smiling and joking on their way to the dressing station. I was never so proud of being a Canadian as when I heard our attack was successful. I put in five months in the Ypres lines, and it was the mouth of H——, especially the first days of June, in the 3rd battle of Ypres, or "2 of June affair," as our fellows call it.

Our fellows went in 87 strong and came out with 21 men, and I am afraid the Somme will claim many more. The night before last Zeppelins paid some attention to London, and dropped bombs within a few minutes walk of the hospital. Those who know tell me the bombs weigh 3000 lbs. I know they make a couple of tons of noise.

Ypres is a sad looking city; nothing but ruins. The Cloth Hall and Cathedral are beyond repair.

There have been a lot of things happening to me that I couldn't write when at the front, for the censor is very strict.

Now mother, I know how lonesome you must be since father died, but cheer up, the war will soon be over and you and I will have some good times together, better than we ever had before, for I didn't know how good a mother I had. Don't worry about me, as I was never better treated in my life, and when we are at the front it is not all fighting. When I get out of the hospital I am going to hunt up the 105th Battalion and see the boys. You don't know how I long to see people from St. Peters.

Guss Down from Forest Hill came over from Boulogne in the same boat as I did. He had a shrapnel wound in the leg, but is getting along fine. Well, this is all for now.

Your loving son,
442734,
D. F. M.

P. S.—Don't send any parcels, as I only got two since I landed in England last fall. I'll write as soon as I get a permanent address.

A new way to clean silver without strenuous rubbing is furnished by a clever housewife. Let the silver soak all the morning in a pan of sour milk. Wash in warm water to which half a teaspoonful of ammonia has been added, and rub lightly with a clean chamos skin. You will find the silver beautifully bright.

CATARRH LEADS TO CONSUMPTION

Catarrh is as much a blood disease as scrofula or rheumatism. It may be relieved, but it cannot be removed by simply local treatment. It breaks down the general health, weakens the lung tissues, and leads to consumption.

Hood's Sarsaparilla is so successful in the treatment of catarrh that it is known as the best remedy for this disease. It purifies the blood. Ask your druggist for it.

The Danger Zone

Those whose diet is deficient in body-building powers are living in the danger zone and fall to the first attacks of chills, colds and influenza.

Unless you nourish the body the body will fail as surely as an army cut off from its base of supply.

Bovril

just makes all the difference between your being nourished and your not being nourished by your food.

Bovril is *the* food the body-building powers of which have been proved by independent scientific investigation to be from 10 to 20 times the amount taken.

It must be Bovril
