CANDIDATES FOR KNIGHTHOOD.

OTTAWA, Dec. 26.—It is expected in some quarters that a number of prominent Canadians will figure in the new year's honors. There will be considerable disappointment if Premier Borden and Hon. J. D. Hazen are not recognized by his majesty with knighthoods.

It is held that this would be the proper manner for the British court to recognize the Canadian government's naval bill.

Hon. George E. Foster stands a very good chance of being knighted for successfully arranging the West Indian trade agreement, other Canadians will doubtless be recognized.

—CHRISTMAS CONCERT.—The Methodist Sunday School of Hampton held their annual Christmas tree and entertainment in the hall at Hampton on Dec. 17th. The hall was nicely decorated for the occasion and much impatience was shown by the large audience assembled until the curtain rose. Then the lights were lowered and the three well lighted with electric sparklers showed in all its beauty and brilliancy. Rev. G. M. Young acted as chairman. A short but well prepared program was rendered every number of which was thoroughly enjoyed by all. The Santa Claus appeared and greeting the children distributed the gifts and candy in a way that all enjoyed. Home made candy, ice cream and cake were sold during the evening. All went home well satisfied having spent a very enjoyable evening.

—WEDDING BELLS.—A very enjoyable and rather unusual event took place at the home of Robt Harding, of Darnley on the 19th inst, when his daughter Mary I. Harding was united in the holy bonds of matrimony to Charles B. Woodside of Malpeque, and also Teresa B. Harding to Neil B. Matthews of Baltic. The ceremony was performed by the Rev. E. J. Rattee of Malpeque in the presence of a large concourse of friends and relatives from the surrounding country. The brides and their attendants were handsomely attired in costly but not gaudy gowns, that went to show their good sense. The saying is familiar to every one that fine feathers make fine birds, be that as it may, there are other qualifications that nullify that and they are the proud possessors. After the ceremony and the usual formalities gone through all sat down to the festive board which was everything that could be desired by the most fastidious epicure and the writer is speaking as one that participated. Everyone did justice to the inner man. The presents were many and some costly and went to show the high esteem in which the couples were held in the community in which they dwelt. After the tables were cleared away the remainder of the night was spent in tripping the light, fantastic till the wee sma' hours, and every one repaired to their respective homes well pleased with the night's enjoyment and with hearty good wishes for the future.—Com.

WOMAN TOURS ROOKIES IN MOTOR CAMP WAGON

A California woman, Mrs. A. J. Payson of San Mateo, this fall toured through the mountains of California, Idaho and Oregon, in a novel motor camp wagon, made and designed for her by a Wisconsin motor-car company.

This camp wagon, pictures of which appear in the December Popular Mechanics Magazine, is designed for extended touring over rough and wild country where good hotels are few and far between. The chassis is a one-ton truck, having a wheel base of 132 in., and the car is equipped with a 50-hp. engine. The seats are practically those of a roadster. Back of the seats is a space of about 7 ft. on which rests the body. This body carries all the comforts of home in the way of provisions, fishing tackle, and guns, as well as a comfortable bed with a spring mattress.

Special Holiday Prices Will Continue All This Week

The splendid business that this month has brought us is not a matter of luck or of printer's ink or of any element of "cleverness."

People are coming to Prowse's because they get SATISFACTION in Prowse's goods and Prowse's way of doing business, because they are sure of their full money's worth, and often a little over. The plain facts are evident. The people are giving up chasing the will o' the wisp of goods at half price. It is service and value that count in the long run.
