What is MAGNET Quality in a Cream Separator?

Real what the Dairy Inspector for British Columbia says about it.
 The Government of the Province of British Columbia, Department of Agriculture, Victoria, May 19, 1916.
 The Petrie Mfg Co Ltd,
 Hamilton, Ont.

Dear Sirs:—
 There are four points in the construction of a cream separator which should be thoroughly studied by every manufacturer, viz:—
 Ease in Cleaning,
 Ease in Turning,
 Durability of Construction,
 Perfection in Skimming.
 I am pleased to state that, to my mind, your machine, which is made in Canada, combines these to a greater degree than any separator I have examined.
 Wishing you every success,
 (Signed) F. M. Logan,
 Dairy Inspector, B. C.
MAGNET quality means DOUBLE SUPPORT TO THE BOWL, strong square gear, one piece skimmer, correct skimming, easy clean lag, easy turning, improved ball race, strong and light frame, absolute safety.

These plants are where the MAGNET differs from all others. See latest Catalogue.

—The Bandit King shown at Fabyland tonight. Of all the different classes of pictures shown here probably none are so popular as those dealing with an Indian adventure. Clothes, Market Wrong. Did you ever stop to think how easy it is for those engaged in the business of washing clothes to make a mistake. This picture shows how such a mistake was made and the very grievous consequences. A Gentleman Farmer. Beautiful and Reliable Furs

That this is going to prove a "Fur Season" is evident from the great demand. That this old reliable house is, as heretofore, head quarters for reliable furs, is equally evident from our unusually large sale for this early season.

Our furs need little boasting—they speak for themselves—and our reputation for selling reliable guaranteed furs in the past, is now bearing good fruit.

We have as usual an immense range of all the best varieties such as Mink, Sable, Stone Marten, Martot, Mock Fisher, Isabella Fox &c. in sets and separate pieces, at all prices; according to quality, up to the very best.

Our stock of ladies fur coats is up to our usual high standard, both in quality and style, and come in all the best kinds such as Persian lamb, Russian Lamb, Seal Astrachan &c.

Our men's Coon coats are splendid. There is no question of values here, they simply cannot be equalled much less surpassed. Come in and prove this. You will also find the prices moderate.

We have a nice range of ladies fur-lined coats at different prices. If what you want is not among them, we will take your order, and have a coat made to your own choice. This is by far the best method, as you can then have the combination of style, cloth, fur and price you require, which is so hard to get in a ready made. Your order can be completed in about 10 days.

All visitors to the exhibition are cordially invited to come in and view our immense showing, which is certainly well worth a visit.

in the stove line and this is the Enterprise Monarch Steel Range

It is said the proof of pudding is in the eating. The proof of a range is in its working qualities—therefore try one and see but before doing so, ask some of your neighbors or friends who have a Monarch in use to tell you what they think of it. Their verdict will be the same as that of hundreds of others, namely, that for Perfect Baking, Base of Operation and Economy it has no superior.

Our absolute guarantee goes with every one. No expense or effort has been spared to have the MONARCH the most complete and perfect steel range made in Canada and we invite the most careful comparison. The price is low and within the reach of all. Fully illustrated circular for the asking. Write for one.
