

Lumbago's Misery Ceases Every Aching Muscle Cured

JUST RUB ON OLD-TIME "NERVILINE."

Not necessary to drug inside. That awful stiffness that makes you yelp worse than a kicked dog will be cured—cured for a certainty, and quickly, too, if you just rub on Nerviline.

Rob Nerviline right into the sore spot, rub lots of it over your tortured muscles, do this and the pain will go. You see Nerviline is thin, not oily. Therefore it sinks in, it penetrates through the tissues, it gets right to those stiff, sore muscles and irritated nerves that make you dance with pain.

You'll get almost instant relief from muscles soreness, stiffness, aching joints, lameness or rheumatism by rubbing with Nerviline. It's a soothing liniment, and doesn't blister, doesn't burn or even stain the skin. It's the most harmless cure in the world for Lumbago, Back Strain or Sciatic. It takes away the ache at once and ends your misery quickly.

Now quit complaining—don't suffer another day—Nerviline, that soothes anything old-time liniment will liberate you up mighty quick. Get busy today, the large 50¢ family size bottle is most economical, of course, the trial size costs but 25¢. Any dealer anywhere can supply Nerviline.

I was cured of Rheumatic Gout by MINARD'S LINIMENT.

For curing colds and coughs and guarding against all future attacks there is nothing better than Rexall Emulsion of Cod Liver Oil. This preparation is made of purest Norwegian cod liver oil, combined with hypophosphites and is a really splendid article for building up the general condition of the body. Price 75c. and 35c. a bottle. The MacKinnon Drug Co., Corner Great George and Kent Sts.

EXPECT STORK FOR ELYSEE PALACE.

PARIS, Feb. 6. — A baby whose father is President of the Republic, is expected at the Elysee Palace, — this for the first time in the history of France.

No announcement, official or otherwise, has been made yet, but President Poincaré's friends whisper that the happy event is expected during the coming summer. The President is 50 years old, and his wife is 46. They have no children.

KILLED AS HE KISSED BABY

MACON, Ga., Feb. 7. — The Rev. G. E. Tidwell, pastor of a Baptist church, was killed at his home in East Macon by a bullet from a revolver in his pocket. The weapon was discharged as he was leaning down to kiss his two-year old baby good-by.

The minister carried the weapon so that his young children might not play with it. The bullet entered his brain and he died in an hour.

DAILY SELECTIONS FOR GUARDIAN READERS

Furnished By W. S. Louson

ALL NUMBERED.

"All numbered," on our heads the hairs. Our sorrow too, and daily care: The number less from day to day, Till God shall wipe all tears away.

"All numbered," every cross we take, Bearing each for the Master's sake: Made glad by His approving smile, Cheered with His words, "a little while."

"All numbered," are our different woes. By Him Who orders all and knows: He understands what we can't tell, To any friend, though loved so well.

MOTHERS OBJECT TO SEX HYGIENE

LONDON, Feb. 6. — The Countess of Warwick has taken a hand in the discussion raised over the agitation in the Derbyshire village of Bronfield because of the teaching of an Origin of Life, and sex hygiene, to the senior girls, by Miss Outram, the head teacher of the schools. The mothers of most of the girls are furious over the latter and have demanded the resignation of the teacher.

The countess warmly commends Miss Outram and says: "How any one can question the wisdom of her conduct passes understanding, but she is a pioneer and the way of a pioneer is hard. She is, however, treading a path which will soon be a broad highway."

METHODISTS STIRRING FOR MORAL REFORM.

MONTREAL, Feb. 7. — Methodists of Montreal intend to take a more active part in civic and moral reform matters than they have in the past. Two years ago they formed a union to discuss and take action on questions of temperance and moral reform. Rev. T. E. Bourke, B.D., being the Chairman of the organization.

A call has been issued today to all the Methodist ministers of the city to attend a meeting to be held for the purpose of recognizing the union. Rev. T. Albert Moore, Toronto, of the Department of Temperance and Moral Reform of the Methodist Church of Canada, will be at the meeting.

THAW'S COUSIN AN INVENTOR

NEW YORK, Feb. 7. — When the French liner La Provence streams from this port on February 11 for Havre, she will have on board another of America's candy makers for the \$100,000 aviation safety prize offered by the French government in conjunction with others connected with the movement for security in air craft.

The apparatus going aboard La Provence is the automatic stabilizing device entered by Alexander Blair-Thaw, fifteen years old and the 100 horse-power Curtiss hydro-aeroplane upon which it has been installed.

Young Thaw, who is the son of Mr. and Mrs. Benjamin Thaw, of Pittsburg and this city, will accompany the stabilizer with his brother, William Thaw, an aviator, who will fly the hydro-aeroplane in the official trials later in the month.

CAUGHT TAPPING.

One whose ear has been trained to read intelligently the click of a telegraph instrument sometimes put this training to the test under strange conditions. An instance which resulted in embarrassment, apoplexy and finally in a pleasant acquaintance.

"Gentlemen, you are mistaken. We have been married five years and have three children." — Weekly Scotsman.

NECESSARY AMONG THE PERSONS CONCERNED.

It is told by a farmer who spent his early years in the employ of telegraph company.

Some years after impaired health had driven him from the telegraph office to the farm, he and his wife were spending a short holiday from home. While they were dining in an hotel, two young men entered and seated themselves at the same table with the couple from the country.

After a survey of the strangers, one of the youths took up his fork, and tapping it in an apparently careless way against the edge of his plate, spelled out in the Morse code: "Do you think they are bride and groom?"

"Yes, surely," tapped his companion. "Just watch how soft they are."

Immediately, to the dismay of the young men, the fork of the supposed bridegroom joined in the conversation. With great rapidity it tapped out:

"Gentlemen, you are mistaken. We have been married five years and have three children." — Weekly Scotsman.

THE WIRELESS CHAIN.

Rates and regulations for the transmission of messages between vessels and wireless stations belonging to the Government chain of radio telegraphic communication on the Atlantic and Pacific coasts and the great lakes have been issued, the station at North Sydney being among those included in the list. The charges vary all the way from 3 to 117 cents per word and it is announced that charges on all messages to and from ship via these coast stations are computed by the cable method of counting, under which the words in the messages, including the address and signature, are counted and charged for, with a minimum charge per message equal to a charge of ten words. All these stations will handle the following without charge: Messages appertaining to the navigation of any ship and exchange (a) between the commander of the ship and any Government department or Government official; (b) between the commander of the ship and the official in charge of any radio-telegraph station; (c) between the commander of the ship and any person whatever in connection with the following weather conditions and forecasts: tide conditions; ice conditions; and reports an aids to navigation. Arrangements have been made for all these radio-telegraph stations to communicate to passing ships equipped with radio-telegraph apparatus any information not already published respecting changes in aids to navigation on the routes which the vessels are taking, and also, if requested, information respecting weather conditions and the weather prevailing during the previous twenty-four hours. All stations work on a wave length of six hundred metres. The list of stations on the Atlantic coast: Great Lakes, chap., some of which are open all year round, and others, like that at Montreal, only during the season of navigation, is as follows: Atlantic coast, the Gulf and the River St. Lawrence up to Montreal, St. John, N.B., on Partridge Island; Cape Sable, N.S., Halifax, N.S., at Campdenport, Sable Island, N.S.; North Sydney, N.S.; Cape Race, Nfld.; Cape Ray, Nfld.; Grandtrot Island, Magdalen Island; Cape Bear, P.E.I.; Pictou, N.S.; Belle Isle, Nfld.; Point Amour, Labrador, Point Rich, Nfld.; Harrington, Que.; Heath Point, Anticosti; Fame Point, Que.; Clarke City, Que.; Father Point, Que.; Grosse Ile, Que.; Quebec, Que.; Three Rivers, Que.; Montreal, Que. The rates for the Father Point, Grosse Ile, Quebec, Three Rivers, and Montreal stations will be cents per word.

THE CENTRAL GUARDIAN

It Pays to buy in this Province.

MAIL SPECIAL.—The mail special arrived in Charlottetown at 11.15 Saturday night.

LECTURE POSTPONED.—The lecture advertised to take place in Grace Church tonight has been postponed indefinitely.

SOLO.—At the evening service in the First Methodist Church last evening Miss Helen Hughes sang a solo very acceptably. The congregation were delighted with her beautiful soprano voice.

HORSE RACES.—The entries for the horse races which will be held tomorrow afternoon at Charlottetown will close with the secretary, Mr. A. S. Hewitt, tonight at 8 o'clock. Vesta Boy (2:05) and Os Ferry (2:31) are expected to come down from Summerside to take part in those races.

SOUBRIS REPORT.—The Town of Souris has issued its financial statement for the year ending December 31, 1913, together with reports of the various departments of its civic government. The finances of this busy little town, like its commercial and industrial enterprises, are in a healthy condition. The different departments, in the hands of active and progressive committees, are well organized and progressive. Permanent street lighting and other modern innovations have been introduced, and are being steadily extended. The whole report spells progress and one is proud of the town having been incorporated but recently. The report justifies the reputation so long held by Souris as being one of the busiest places in the Province.

DR. MOORE SPEAKS.—The address given Wednesday evening in Pleasant St. Hall, Truro, by Rev. Dr. T. Albert Moore, Secretary of the Moral and Temperance Reform Department of the Methodist Church of Canada was educational, helpful and inspiring, says a Truro exchange. Dr. Moore, who is well known in Charlottetown, has a very pleasing manner and gives his hearers the impression that he is profoundly interested in his work and would like to have everybody else be so, too. The first part of his address was along the line of the building up of strong true Canadian character, and he quoted one man as saying that "Canada is too good a country in which to be a bad citizen." Our Dominion he said is rich now in natural resources and what she needs is a citizenship of sterling worth and true character. The aim of all Canadians should be to make Canada the best nation on earth. The ambition of christian workers now is to have a saloonless Canada in 1920. He denounced most emphatically gambling in any form whatever, and said that if every man were to give up his habit of gambling, worth and true character. The aim of all Canadians should be to make Canada the best nation on earth. The ambition of christian workers now is to have a saloonless Canada in 1920. He denounced most emphatically gambling in any form whatever, and said that if every man were to give up his habit of gambling, worth and true character.

THE SILVER FOX RANCHING CO.—"The Golden tale of the Silver Fox" is the title under which the Silver Fox Ranching Company of Boston, Mass., tells the wonderful history of the development of fur farming in Prince Edward Island and, incidentally tells of a most successful year's work in the company's ranch at Alberton. This brochure was issued after the company's annual meeting, held in Boston, a few days ago. It is excellently written, and gives the fox story in a form which cannot fail to attract attention and to interest all who read it. The Silver Fox Ranching Company, of which Mr. Fred L. Rogers of Alberton, is the General Manager, is one of the largest fur farming concerns in the world, owning a ranch which for location, convenience and modern equipment it would be difficult to surpass. According to the

treasurer's report the net income of the company for the past year was \$109,915.81.

MISS LAURA McFARLANE.—By a letter written a few days ago by Mr. George E. McFarlane of Lunenburg, and formerly of Souris, to his brother, Mr. Harry McFarlane of this city the sad news was brought of the death on Jan. 23 of the former's youngest daughter Laura A. aged 21 years and a most amiable and popular young lady. She had been ill for some time and her death was not unexpected. The bereaved father and mother in the letter above referred to, speak in the highest terms of the great kindness and sympathy received from their friends in Lunenburg, Wreaths of flowers and other tokens of sympathy including the display of flags at half mast over the city, gave a general expression of the highest esteem in which Miss McFarlane was held and the respect of all the family. Miss McFarlane will be remembered by many friends in Souris which place she left with her parents only a few years ago. It will be remembered that the family was bereaved less than a year ago by the death of a son. Two brothers and one sister of the deceased, besides the father and mother, are left to mourn. In their bereavement they have the heartfelt sympathy of many Prince Edward Island friends.

MARSHFIELD BANQUET.—The annual banquet of the Marshfield Farmers' Institute was held in the Hall at Marshfield on Thursday evening, February the 5th, and was very largely attended. After a sumptuous supper the following program was rendered:—Address by the President, Mr. Garfield LePage; address by Prof. Ross, Secretary for Agriculture; solo by Miss Blanch McBeath; paper by Mr. Robert Rhynes, telling of the methods of farming in Great Britain and comparing them with the methods in Prince Edward Island. It is worthy of note that Mr. Rhynes thinks that the land-lord's system is not an unmixed curse, he considered that it was due to this system that farming was carried on so intelligently; Mr. P. Brodie of York was the next speaker. Mr. Garfield LePage then proposed a toast to the ladies which was responded to by Messrs W. J. Gibson and John Ferguson. An address accompanied by a presentation was then read to Mr. Edward McDonald, who has lately removed from Marshfield to Charlottetown. Mr. McDonald was completely taken by surprise but after he had recovered himself he responded in his usual genial manner, the address was read by Mr. Wallace Own. The next number on the program was a reading by Prof. Ross after which Mrs. Rhynes recited "Bairnie's Cuddle Doon" in a very appreciative manner. Mr. Rhynes has but lately come out from Scotland and has no difficulty whatever with the Scotch dialect. The function was a very enjoyable one and every one felt that the Marshfield Institute had entered on a very successful year.

The charges vary all the way from 3 to 117 cents per word and it is announced that charges on all messages to and from ship via these coast stations are computed by the cable method of counting, under which the words in the messages, including the address and signature, are counted and charged for, with a minimum charge per message equal to a charge of ten words. All these stations will handle the following without charge: Messages appertaining to the navigation of any ship and exchange (a) between the commander of the ship and any Government department or Government official; (b) between the commander of the ship and the official in charge of any radio-telegraph station; (c) between the commander of the ship and any person whatever in connection with the following weather conditions and forecasts: tide conditions; ice conditions; and reports an aids to navigation. Arrangements have been made for all these radio-telegraph stations to communicate to passing ships equipped with radio-telegraph apparatus any information not already published respecting changes in aids to navigation on the routes which the vessels are taking, and also, if requested, information respecting weather conditions and the weather prevailing during the previous twenty-four hours. All stations work on a wave length of six hundred metres. The list of stations on the Atlantic coast: Great Lakes, chap., some of which are open all year round, and others, like that at Montreal, only during the season of navigation, is as follows: Atlantic coast, the Gulf and the River St. Lawrence up to Montreal, St. John, N.B., on Partridge Island; Cape Sable, N.S., Halifax, N.S., at Campdenport, Sable Island, N.S.; North Sydney, N.S.; Cape Race, Nfld.; Cape Ray, Nfld.; Grandtrot Island, Magdalen Island; Cape Bear, P.E.I.; Pictou, N.S.; Belle Isle, Nfld.; Point Amour, Labrador, Point Rich, Nfld.; Harrington, Que.; Heath Point, Anticosti; Fame Point, Que.; Clarke City, Que.; Father Point, Que.; Grosse Ile, Que.; Quebec, Que.; Three Rivers, Que.; Montreal, Que. The rates for the Father Point, Grosse Ile, Quebec, Three Rivers, and Montreal stations will be cents per word.
