

MOVES IN COFFIN; RESCUED. ENGLAND SHORT OF TURKEYS.

CLEVELAND, Dec. 15.—Shifting her position in the casket in which she had been taken to a vault, as dead, and then brought back to health, was the experience of Mrs. Anna Hubbell of Aurora, O., according to her daughter, in this city. A granddaughter at Aurora disputes the story. Mrs. Hubbell refuses to discuss it. Mrs. Etta Winfield, the daughter, says her mother was taken ill three weeks ago and was thought to have died. Mrs. Winfield suspected that it was a trance, and had the casket left open in the vault, she says.

LONDON, Dec. 14.—England is suffering from a diminished supply of turkeys owing to the various cantonal complications. While prices are rising the cheap Serbian turkeys which come via Austria are cut off by the new Austrian transport regulations. The continental season has been so appalling that France and Germany, are exporting few of the birds, while America, which promised some years ago to export a fair number of turkeys does not do so because of the increased consumption at home. The English turkey has been affected by the wet, early season.

REFOREST THE NATIONAL FORESTS.

WASHINGTON, Dec. 14.—As many new trees will be planted under the direction of the forest service in the national forests of the country during the fiscal year as were set out during the past five years combined, said Associate Forester Potter today. This is the beginning of a plan to increase as much as possible each year the number set out. The seeds which provide nursery stock are planted in the fall of the year, while the nursery stock is set out both in the fall and in the spring.

The elimination of certain areas from national forests, because after inspection they have been found to be more valuable for agriculture than for forestry, and the additions to the reserves of certain parts of the public domain considered more adaptable for forestry purposes, which have been made by President Taft, practically have been completed, it is said and some idea may now be obtained of what will be the permanent boundaries of the reserves. This is given as one of the reasons for the increased activity in setting out new stock.

MRS. BAKER EDDY'S WILL PROBATED.

CONCORD, N. H., Dec. 14.—For the purpose of more effectual promoting and extending the religion of Christian Science as taught by me, Mrs. Mary Baker G. Eddy in her will filed here today makes the mother church in Boston her residuary legate, after various other bequests are paid. Conservative estimates of the value of the estate place it at approximately \$1,500,000, of which about \$1,000,000 will pass under the residuary clause.

Among other bequests is one of \$100,000 to the Christian Science board of directors, to be set in trust for the purpose of providing free instruction for "indigent, well-educated, worthy Christian Scientists at the Massachusetts Metaphysical College, and to aid them hereafter until they can maintain themselves in some department of Christian Science."

In addition to the previous gifts made to her son, George W. Glover,

ROCKED THE BOAT; SIX DROWNED.

SEATTLE, Wash., Dec. 14.—Six men were drowned in the Snohomish River late yesterday, when a cabin launch containing seventeen passengers capsized. The accident happened near Marysville, Washington.

The men who were drowned were all employees of a logging camp at Marysville. They had chartered the launch for a pleasure trip to Everett. When the boat capsized there were fourteen persons in the little cabin and three on the roof.

It is said that the men on the roof of the cabin were rocking the boat, as it careened in the swift current of the river.
