**KING'S NAME REMAINS IN IRISH CONSTITUTION**

DUBLIN, Sept. 29.—The question of the King's authority as indicated in the Irish constitution, was raised in the Dublin Parliament today and accepted by a majority vote.

Deputy Gavan Duffy moved that the King's name be excluded from the constitution. Independents supported the Duffy proposal, but it was beaten.

**CANINE IS FAITHFUL UNTIL DEATH'S CALL**

NEW YORK, Sept. 29.—Faithful to his master until death, a bull pup stood by the side of John Bracken, watchman, trapped in the

Long Island Waste Company's barks for help. They were found dead, the dog's unlit flames and smoke choked head on his master's chest, by the master's shout and the dog's policemen, who came too late.

**ENGLISH SHABBINESS DUE TO HIGH TAXES**

LONDON, Sept. 29.—The old saying that "it takes nine tailors to make a man" was revised to "every tailor pays the income of nine men" at the meeting of the Federation of Merchant Tailors at Oxford. Lord Decies married Vivian Gould, of New York in answering the question why Englishmen are growing shabby in their dress, said it was because Englishmen saved on clothes to pay their income and that shabby dressing was a question of necessity and of choice.

The delegates of the Federation of Oxford said that the deplorable condition of the Englishman would not be in vain if they could devise something more human than a man's evening dress. "Miserable man" he declared, "should no longer be forced to wear the horrible things which are pleased to call reforms." He pleaded especially with regard to stiff shirts. But the delegates would not be in vain if they could devise something more human than a man's evening dress were not suited to manhood, if a change comes it must be back to court dress with knee breeches silk stockings buckles and powdered wigs.

The tailors agreed that the man in the present vogue and that they would not dare attempt to dress in the style of the past or new extremes. "We would welcome a change in men's styles every season, as in the case with women's clothes," declared the

president of the federation "but it's no use. They are somehow not made of the same stuff when it comes to clothes, and we would only make ourselves ridiculous if we attempted seasonal changes."

**TWO WEEKS' CURE OF BROKEN NECK**

CHICAGO, Sept. 29.—While swimming in the lake two weeks ago, Basil Wallace, twenty-seven years old, a printer, dived off a pier and broke his neck. Today he sits in his room in the Polyclinic Hospital practically recovered and soon will be discharged as cured.

X-ray examination revealed that the second, third and fourth vertebrae of the spinal column had been fractured and thrown out of line. Doctors Irving Perrill and B. L. T. Woods decided on an immediate plan to stretch the man's neck back into a normal position and relieve the pressure.

Wallace was placed in a special X-ray constructed bed where he lay with his head supported by two pillars in an angular position. The doctors then placed a strap around his head, under the chin, and fastened it securely. A rope was tied to the strap and thrown over the head of the bed. A sack filled with sand weighing ten pounds was tied to the rope and allowed to hang down thereby throwing weight on the rope and pulling the man's head away from his body. Wallace was forced to stay in this position for two weeks. Today he sat up relieved of pain and paralysis.

**EXHIBITION ATTRACTION.**  
Do not miss seeing Brace's "Pilot Superior" Pipeless Furnace, at the Charlottetown Exhibition.

**BIG BARGAIN**—A large table of discontinued lines of ladies and childrens underwear will be placed on sale at Patons today at tremendous discounts. Come early as the weather is cool. 800971-29-21

**CORRECTION**—The Guardian is informed that the female Holstein Championship was not won by Mr. Walter Jones, but by Mr. Alexander Agnew, Charlottetown Royalty, with his famous cow. Mr. Jones won the championship in the milk test with his year old heifer, Lily over all ages and breeds.

**WE INVITE OUR FRIENDS** and all others to visit our booth at the Exhibition and sample the biscuits baked on the grounds. From our Azby pastry flour. Miss Harper will be in charge of the culinary work, and serving at all those sampling these biscuits a treat. The Charlottetown Milling Co. 21

**THE MARKETS**—The market yesterday was only fairly well attended. Eggs sold at 30c; butter 28c; ducks \$1.40; chickens from 75c to \$1.10; plums 15c; apples 15 cents doz and island pears 60 cents doz. There was a small supply of fish; fresh cod and had-dock being scarce.

**HORSE SALE**—A successful sale of Percheron mares and geldings owned by Mr. A. K. McNeill, held yesterday morning at the Agricultural hall. Prices ranged from \$140 to \$180. This is the second sale conducted by Mr. McNeill, three of his last spring's shipment taking prizes at the Fair this year. These horses were shown by Messrs. Horne Bros. and Peter Roberts and proving the quality of the stock brought here by Mr. McNeill is of the best.

**WELCOME VISITORS**—Among the visitors at present in the city are Mr. and Mrs. James A. Dewar of O. J. Island, N. Y. Mr. Dewar's father, Mr. John Dewar has not been feeling well for some time and if at all able will accompany his son on return. It is their sixth year since Mr. Dewar has visited Charlottetown and he naturally notices many changes and improvements, although he has not got around as much as he would have wished since his arrival on Tuesday night. Mr. Dewar conducts a large garage in his home town handling the Cadillac car.

**ARTILLERY COMPETITION**—An Ottawa despatch of the 29th Sept. gives the following results.—The results of the Canadian artillery Association competitions held throughout the training camps of the Dominion during the past summer have been announced. The Governor General's Cup for first place in the general efficiency of field artillery was won by the 31st Battery of Vancouver; second place including the Lansdowne cup was won by the 9th Battery, Toronto. The Governor General's cup for first place in general efficiency Siege Artillery was won by the 4th Battery, St. John, N. B. while the 8th Siege Battery, Charlottetown secured second place and the Association Challenge Cup.

**BECKEER'S MEETING**

Amongst the interesting events of Exhibition week was a meeting of the beekeepers of the province which took place at the Experimental Farm on Thursday evening. Mr. Gooderahn, Dominion Government Apiarist, Ottawa, was present to answer all questions of interest to those engaged in this industry, and from his large and practical experience was enabled to give very much necessary and valuable information.

The discussions on the various phases and needs of the profession was participated in by Mr. Arbing president of the P. E. Island Bee Keepers' Association, Messrs. Harold Newson, Provincial Inspector, Prof. J. A. Clark, L. P. Tanton, Bowness, Mr. H. Duvar, A. Aylward and Mr. Gooderahn.

The most debated topic was that of winter keeping, at this season the most interesting and important, the conclusion being reached that in this province where cellar conditions were favorable the indoor method of wintering was most desirable, but otherwise by all means the outdoor method of wintering in packing cases should be chosen. And in outdoor wintering the advantages of a liberal snowfall and plenty of snow to cover the hives and cases was conceded. The method usually adopted is to place the hives in cases, in groups of four and at their usual summer stands, pack these well inside with leaves of chestnut and have the whole well covered with a water proof material to keep the interior dry. Provision must be made at the entrance of the hives to permit the entry and exit of the bees to enable them to take a cleansing flight in the occasional warm days of winter and spring. Those wintered in this way should be put in winter quarters at once. Those wintered in the cellar are to be left until they have their final flight in the latter part of November.

In feeding for winter sugar is accepted as preferable to honey as it contains less of sediment, and it was recommended that where possible some frames of honey be removed from the hives and empty combs placed in the centre and the bees fed with sugar syrup to fill these for their midsummer consumption, leaving the honey and pollen on the outer frames to encourage spring breeding. In all cases the bees are best off and safest to winter when they have an abundance of stores.

Swarm control, the comparative qualities of Island as compared with the product of other provinces, our different climatic conditions, the merits or demerits of upward ventilation as against the sealed cover method, the expediency of importing bees by the pound instead of in hives or nuclei frames, and the methods of introducing bulk bees and of uniting weak colonies were all under discussion and resulted in bringing out a lot of information which will be an encouragement and of advantage to those starting out in the business.

The meeting was a most interesting and instructive one, and it is only to be regretted that it was not convened immediately in the city so that a large number of those who would have liked to be present could have had the pleasure of learning more about those busy little collectors of our table sweets.

**EMYVALE AND VICINITY**—Harvest time is over! The crop was bountiful and good. Though the wheat was found to be somewhat rusted yet the returns were quite up to previous standards.—The past summer was an ideal one in P. E. Island and the many sons and daughters of Emyvale and the surrounding country who have made homes for themselves in other parts of our land took enough time to leave their occupations for a delightful visit to the scenes of their childhood.—Miss Kathleen Peemoy New Haven, left on return Saturday morning for Boston after spending a few months vacation at home.—Mrs. Peter Callaghan, Emyvale, returned home after a few days visit at the home of her daughter Mrs. Frank Sullivan, Vernon.—We are pleased to learn that our friend Mr. Byron Berrigan, whom we recently reported injured, is well again.—Of more than usual interest to the three districts of Elmwood Green Bay and Emyvale, was the school Fair which was held at Emyvale on Friday September 22nd. The day was an ideal one and the very large number present were delighted with the excellent exhibits and the interesting sports which followed the judging.—Miss Babe Trainor Charlottetown was a recent visitor to Emyvale.—Among the many exhibits displayed at the School Fair was a fine dairy calf (five months old) which won first place. Its owner is Master Louis Griffin of Emyvale and Louis feels quite elated over his victory and the splendid cash prize of five dollars.—

**Beekeeper's Meeting**

Amongst the interesting events of Exhibition week was a meeting of the beekeepers of the province which took place at the Experimental Farm on Thursday evening. Mr. Gooderahn, Dominion Government Apiarist, Ottawa, was present to answer all questions of interest to those engaged in this industry, and from his large and practical experience was enabled to give very much necessary and valuable information.

Headquarters for **MEN'S WEAR**

The "probs" say "cooler weather," and of course it will be cooler. What all expect cooler weather—What does it matter?

We have nice medium weight Overcoats, or we have the nice warm Overcoats of soft cloth, that won't tire you to carry around.

It doesn't make any difference what kind of weather there is, we can suit you in an Overcoat. Prices from \$25.00 up.

There are many people who are hard to suit in Hosiery. We have the remedy for these people, right here in our store.

Buy your socks from us, and your troubles are over, and besides, your socks won't cost you as much as you have been paying.

Another very important part of your apparel for comfort is your gloves. We sell the right kind in wool, mocha and kid, in lined and unlined. All prices.

You frequently hear people say that they cannot get a good fitting suit made. That is their fault—they do not patronize the RIGHT TAILORS! WE MAKE GOOD FITS, and we do not want any customer of ours to wear a suit that does not suit him in every particular.

Buy your clothes at the right place, where you can be sure of a good fitting suit—and the price will also suit you.
