There are now available in Prince Edward Island for shipment to the United States if freed from tariff duties, 100,000 bushels of potatoes, 500,000 bushels of turnips and other roots, 2,000,000 bushels of oats, 150,000 tons of hay, 600,000 pounds of cheese, 100,000 pounds of butter, 1,000,000 dozen eggs.

Table with 2 columns: Articles and Quantities. Lists items like Beef, Butter, Cheese, Cream, Eggs, etc.

This is, of course an estimate so far as the crops of this summer and autumn are concerned, and much will depend upon weather conditions, but it is interesting to have such an estimate and it is also worth while to know that, more than any other foreign country, the United States is taking very careful measures to find out what we have to sell and what we require to buy in this small insular community in Eastern Canada.

many years a distinguished and arresting figure upon the state of Imperial politics, he approaches their chief problems with a many-sided knowledge and insight which no other Minister called to this year's discussions can hope to rival."

The Opposition press in Canada has constantly striven to prejudice public opinion in Great Britain against the Dominion Premier, as in regard to his alleged hesitation in sending a Canadian contingent to South Africa, his insistence upon Canadian control of the Canadian navy and more recently in regard to the reciprocity agreement with the United States.

WANTS STIPULATION ENSURING AN EXCHANGE

WASHINGTON, May 18—Senator Root appeared before the committee to suggest an amendment to the wood pulp and paper provision of the bill. A NEGLECTED DUTY.

One of the saddest things ever heard of occurred at a funeral, the story of which was repeated by a minister in the following language: "I was called upon to preach the funeral sermon of a man who was a clerk in a great railroad office, and in the city, a lovely wife and children. He lived a life of simple, happy ease. In vain did insurance agents importune him to carry just a little insurance. He lived each week to the limit of his small office salary. One day he was sitting at his desk writing and whistling. Suddenly his whistling ceased, his writing stopped, his head dropped forward on his book, and his heart ever light and gay, had ceased to beat. When his account was footed up he had nothing. The boys in the office had to buy his coffin and defray his funeral expenses. They were just as poor as he.

The saddest thing I think I ever witnessed in my life was his frail, delicate little wife standing beside that open grave. The cold winds whistled through the trees and she sobbed as if her heart would break. There was not enough money in her pocket-book to buy her lunch and pay her way back to her cheerless home. And after she had returned to it, what then? Her husband had left no bread in the pantry, no coal in the cellar, no money in the house, and already the month's rent was due."

When we think of a scene like this, we have little sorrow for the dead husband, but great sympathy for the poor wife and destitute home. In connection with the benefits of life insurance, we can say with the poet: "It sweetens life and takes a pang from sorrow."
