White Oats	45
Black Oats	50

WATCH THE STOMACH.

HAVE YOU ANY OF THESE SYMPTOMS?

If you have either variable appetite, a faint gnawing feeling at the pit of the stomach, unsatisfied hunger, a loathing of food, rising and souring of food, a painful load at the pit of the stomach, choking sensations in the throat, headache and dullness of spirits, constipated bowls with alternate diarrhoea, are you gloomy and miserable?

THEN YOU ARE A DYSPEPTIC.

The cure is careful diet, slow eating, thoroughly chewing the food; avoid drinking at meals.

Keep regular habits, shun stimulants, tone the digestive powers and regulate the stomach and bowels with Burdock Blood Bitters. It has cured the worst forms of dyspepsia, even of twenty-five years duration. Mrs. Geo. Parks, Cooper, Ont., was cured; she writes: "I have used Burdock Blood Bitters and find that few medicines can give such great relief in dyspepsia and stomach troubles. I was troubled for a number of years with dyspepsia and could get no relief until I tried B.B.B. It helped me right away and I think it a wonderful remedy. I would recommend it to all sufferers from dyspepsia.

GEO. McSWEENEY, Prop

:Buying seeds and buying a horse there is a similarity in the transaction. The pedigree must be looked into, it is important to know who raised the horses and blemishes and kindred troubles must not be overlooked. A poor horse is dear at any price, and this is doubly true of seeds, even if the seeds were to be had for nothing. Poor cheap seeds are very expensive to the grower, and there are seeds on the market, we could not be paid to plant. We do not claim to have a large stock of seeds, but just seeds such as we are planting ourselves, and our extensive experience in the market garden business, places us at the head, in this particular. Many seeds are planted too early and they rot in the ground. This is the fault of the planter not the seeds. Such seeds as peas, beets, carrots, raddish, lettuce, turnips, spinach, onions, parsnips, cabbage, cauliflower, sweet peas, etc., can be planted whenever the ground is in fit condition—but tender seeds must be either started in a hot bed, or planting delayed until all danger of cold damp weather is past. Tender seeds such as cucumber, beans, squash, pumpkin, tomatoes, corn and many flower seeds should not be planted before the latter part of May. Farmers when in town and all who intend planting a vegetable garden, come direct to us, don't be misled by offers of cheap seeds in packets or any other way, cheap seeds are often dear at any price. In buying your vegetable seeds from us do not overlook that we have the very choicest mixture of sweetpea seed obtainable sixty colors blended together. Watch for our plant advertisement the latter part of this month. In spite of the cold late spring we have hundreds of thousands of vegetable and bedding flower plants.—J. J. Gay & Son.
