SPEAKS FROM AUTO.

CHICAGO, August 5— Colonel Theodore Roosevelt arrived at 8.52 a. m., He was given an enthusiastic welcome and hurried to headquarters in the Congress hotel. The crowd cheered as the colonel stepped from the train. He was received by a delegation of progressives headed by George W. Perkins, and Governor Johnson, of California, The streets along the route were lined with crowds, and as the colonel swept past cheer after cheer was raised; Standing in his automobile in front of the hotel, Colonel Roosevelt said:—

"I am very pleased to be with you in Chicago again, and this time at the birth of a party and not at the death of one. I am convinced that the people will not stand for the convention of seven weeks ago, especially as it was against the interests of the people. By November the men nominated at that convention will not be a factor in the race. The days of the corrupt political boss and the crooked financier who stands behind the boss and the newspapers owned by the boss and financier are over, the channels of information have been choked by the opponent of popular government in the efforts to prevent the people from finding out what we stand for. We intend to see that the facts are known, and when the people find out what this movement really is, and decide for themselves, what their government shall be."

After completing his speech Colonel Roosevelt went to his headquarters, where he said he would remain all day consulting with the leaders concerning the convention. He said he did not intend to go to the Coliseum today.

A DARK OUTLOOK.

LONDON, August 5—The vision of a mad world was pictured, and an era of lunacy was prophecied by Dr. Forbes Winslow while expressing his dissent from the statement made at the Eugenics Congress by Dr. Mott that increase in lunacy is more apparent than real. Dr. Winslow said

There will be more lunatics in the world than sane people three hundreds years hence. This prophecy is based on the present rate of the growth of lunacy revealed by recent returns. We are rapidly approaching a mad world. In every part of the world civilization is advancing, and so insanity is bound to advance. There were 36,762 lunatics in 1859.

MISTAKE MADE IN OFFICIAL SUGGESTION

Canada Is Represented on the Privy Council

(Canadian Press)

OTTAWA, Aug. 6—It is pointed out in official circles that the suggestion which has been made that Canada should be represented on the judicial committee of the privy council is evidently the result of a misunderstanding.

Sir Chas Fitzpatrick is a member of it and is now in London in that connection.

He does not, however, sit on cases in which he has given judgment in the supreme court of Canada.

ROOSEVELTS CONFESSION OF FAITH

(Canadian Press)

CHICAGO, Aug. 6—After a demonstration last fifty-seven minutes Col Roosevelt today delivered his confession of faith to the bullmoose convention.

He continually departed from the prepared speech, interpolating many side remarks and skipping portions of the printed speech.

He was frequently interrupted by applause and cheers.

GIFT TO HALIFAX MADE.

HALIFAX, Aug. 6—There is on exhibition in the south window of the Nova Scotia Furnishing company two magnificent flags presented by the ladies of Bristol, to the ladies of Halifax, for the Memorial tower. One is all silk, and the other, the finest grade of bunting. They are the facsimile of the Royal Ensign given by Henry VII., to the Cabots when they departed from Bristol, 1497, on their voyage which resulted in the discovery of Nova Scotia and North America,

A CAPTURE IN CUSTOMS.

BROCKVILLE, Ont., Aug,, 5.— A party of Brockville customs officers, with two policemen and two women members of the department, one of whom has been in service here during the summer, surprised about five hundred people on their return from moonlight excursions to Ogdensburg, N. Y., early on Sunday morning. Upon landing, the excursionists found the C. P. R. wharf securely guarded from exit, and on being forced into the freight shed a systematic search was conducted, which resulted in a large quantity of dress goods, shoes, etc., being confiscated, while duties were paid on the other articles. Saturday night trips to the United States port have become very popular here, and the crowds leaving Brockville have continued to grow to such an extent on account of of continuous local advertising of the Ogdensburg merchants that the department at Ottawa decided to make a move.

MOVEMENTS OF THE CABINET MINISTERS

THAT FUND TO DEFEND LIEUT BECKER

(Canadian Press.)

NEW YORK. Aug. 6—If any police fund is being raised for the defence of Lieut Becker, Commissioner Walda said today he was ignorant of it. If I should find anybody collecting such a fund, "he said," I would at once take steps to punish them. So far there is not the slightest evidence of the existence of such a fund.

At Halifax on behalf of the institute, he will present two bronze lions, replicas of those at the base of the famous Nelson monument in London, to be set near the Halifax memorial tower.

GUERILLAS AND TURKS ENGAGING

In Frontier Fights-Much Excitement

(Canadian Press)

CETINJE, Aug. 6—Frontier fighting between small Guerilla bands and Trukish troops has been going on continuously since yesterday morning.

A cordon of troops on the Montenegrian frontier was ordered to retire and adopt a defensive policy.

Turks crossed the frontier but retreated again when the Montenegrins opened fire with artillery.

Great excitement prevails here and dangerous complications are feared.

PALACE DESTROYED.

ST. PETERSBURG, Aug. 5— The Palace of Peter the Great, on Petroyski Island, was destroyed by fire today. The fire statrted in a timber yard and spread rapidly. Several buildings in ahdition to the Palace were burned.

WILSON WILL NOT STUMP.

SEA GIRT, N. J., Aug 5— Notwithstanding what other presidential candidates may do, Governor Woodrow Wilson will not stump the county in his campaign for the presidency and will indulge in no personalties. The governor has said that he would make no extensive tours or back platform speeches but would follow a programme of scheduled addresses which has yet to be arranged by the national campaign committee. These engagements would be based, he added, on calls from various States and his addresses would treat of campaign subjects not persons.

"Then you will make such speeches as the campaign committee thinks necessary for you to make?" he was asked by the newspaper men.

"Oh, yes," he said with a smile. "If I agree with 'em."

It was suggested that perhaps Mr. Bryan might make a number of speeches on behalf of the Democratic hominee.

"Yes I hope so," he replied, "but there has been no formal programme arranged."

The governor admitted that he might reach some of the coast States, but that a call from the far West would be a big order." He expects to begin active campaigning about Sept. 1. Governor Wilson declared he had just been able to read President Taft's speech of acceptance. He declined to comment on it, however, as a whole or in part, remarking that he was not given to "making comments on persons, but rather to discuss subjects." As to the subjects treated of in President Taft's speech, Governor Wilson declared his own speech of acceptance sufficiently stated his views on many of hhe same topics.

KING GEORGE WILL REST

NEW YORK, Aug. 5—A London cable to the Herald says :—

None is more tnankful that the stress of the London season is over than King George or Queen Mary, who will now be able to enjoy a period of rest after the public engagements of the last few months. The public duties to be performed the remainder of the year are not particularly heavy.

It is no secret that a few weeks ago the King was not feeling very well and had a careworn expression, but fortunately this has now disappeared and he is now quite himself again. Queen Mary's splendid vitality and her rigid observance of the rules of health have carried her successfully through the season without any discomfort. She and Princess Mary will be engaged the next few months in getting together garments, which the distribute among the tenantry of Sandringham estate every Christmas and which is to both of them a labor of love.

Sentence was reserved. Three other suffragettes, Mary Leigh who is accused of throwing a hatchet at the Premier on the same occasion, Mabel Copper and Litzie Banter, accomplices, are also being tried today.

NEW COMPANY TAKES OVER HALIFAX COLD STORAGE.

The North Atlantic Fisheries, Limited, Acquires a Highly Profitable Enterprise Which Will be Enlarged and Given Additional Capital.

MR. A. E. BOUTILIER, President and General Manager of the North Atlantic Fisheries, Ltd.

One of the most prosperous enterprises in Nova Scotia and one showing remarkably rapid growth in the scope of its operations and in its earning power, has been the Halifax Cold Storage Company, established six years ago by Arthur Boutilier, of Halifax. Its success was little short of phenomenal.

The North Atlantic Fisheries, Limited, has been organized to take over the company as a going concern, adding to its capital and extending the business and plants.

The Halifax Cold Storage Company built a plant in Halifax in 1906, another has been built at Port Hawkesbury, and there are also buying stations at Canso and Petit de Grat. The business of the company, including the bait for fishermen, has far outgrown the capacity of the plants, capable as they are of handling 20,000,000 pounds of fish per annum. The growth has been consistently steady, till now the company's products find a market across the continent to Seattle, Vancouver and Victoria. West of the Maritime Provinces the sales in 1907 were $22,976,66. Next year they had more than doubled and each succeeding year an almost similar proportion of increase was effected, till last year the sales had reached $219,524.95—a wonderful showing in six years.

There seems no doubt that this increase will continue. That it will do so is the opinion of Mr. Boutilier, the president and managing director of the company, whose excellent management and business skill has largely created the industry, and who will continue to direct the management of the North Atlantic Fisheries, Limited.

The Halifax Cold Storage Company's net earnings in 1910, as reported by R. Carter, chartered accountant, were $20,395, increasing to $24,465 for 1911, and amounting to $35,155 for 1912—more than sufficient to pay the dividends on the total preferred stock now being issued by the North Atlantic Fisheries, Limited.

It is to be borne in mind that the new company will have $225,000 additional working capital and the increased profits derivable from this, President Boutilier estimates, should make a total of fully $60,000 in net earnings—with every prospect of an increase year by year.

With Mr. Boutilier will be associated on the board of directors in the management of the North Atlantic Fisheries, Limited, a group of practical business men.

The capitalization of the company consists of $1,000,000 preferred shares and $1,000,000 common stock, authorized, and $500,000 preferred and $500,000 common issued. The common stock of the old company has been selling at $150.00 per share.

F. B. McCurdy & Co. elsewhere in this paper are offering $200,000 of the preferred stock of the new Company with 40 per cent bonus of common stock at par.

IMPORTANT CHURCH APPOINTMENTS

In addition to the appointment of the Very Rev. James Morrison, D. S. V. G., of Vernon River, P. E. I., to the bishopric of Antigonish, vacant thru the death of Bishop Cameron other important changes are announced.

Bishop Casey, of the diocese of St. John, has been appointed archbishop of Vancouver, to succeed Archbishop McNeil, who goes to Toronto, and Rev. Father LeBlanc, parish priest at St. Bernard's, Digby county, becomes bishop of the diocese of St. John in succession to Bishop Casey.

These appointments give great gratification to all who know the two men.

Bishop Casey was born in New Brunswick, being appointed bishop of St. John in 1910. He is a man of signal administrative ability and has a distinct gift for making himself beloved by the people, irrespective of religious belief.

"In his new field," said His Grace Archbishop McCarthy," he will find very different conditions from those in New Brunswick. At the time Archbishop McNeil was appointed to Toronto he was engaged in organizing Catholic colonies in his diocese —work which his successor will carry on."

Bishop Casey is a man of thoro balance and broadly sympathetic outlook, well qualified for his new post of duty.

Father LeBlanc, who becomes bishop of St. John, was born in St. Bernards, where he is now parish priest, and was educated at Church Point and the Eudist Seminary in Halifax.

He is noted for his burning zeal in all relating to the advancement of the church, and is a great organizer and builder of churches.

A French Canadian, he speaks English and French with equal fluency. He is well known in this city and, as stated, news of his appointment to the bishopric of St, John gives great gratification.

VOLCANO BENEFITS ALASKA

SEATTLE, Wash., Aug, 5—Permanent alteration to the climate of the Alaskan coast, the opening of fishing banks of value that cannot be estimated, and the eventual closing of Bering Straits are among the possibilities now being investigated as the result of the eruptionof Mount Katmal a month ago.

With the air clouded with dust from the eruption, various geological parties and several revenue cutters are taking soundings to determine how far submarines geography has been changed.

This feature of the situation is held to give great importance to the eruption. So far as the earth's surface is concerned, the eruption was beneficial, the volcanic ash deposit having already stimulated plant growth.

The revenue cutters in the North are now assigned to the task of examining the ocean's floor. A modification of the Alaskan climate in the last year is ascribed to a shifting of warm ocean currents by a lifting of the sea bottom, and the present researches are partly for the purpose of learning what more may be expected in this direction. Besides this, a raising of the floor in Bering Sea probably would mean new cod banks here and there, augmenting the existing large cod fisheries. The salmon run was uninjured by the volcanic disturbance.

Geologists assert that the tops of the submerged mountains which form the Aleutian Islands are rising steadily and, after eventually cutting off Bering Sea, will continue to rise until what is now the sea will be replaced by a great sweep of land. Recent disturbances are attributed by them to pressure on the ocean's floor caused by deposits of enormous amounts of sediment. The floor, they say, bends, and the craters spout to relieve the pressure.

A party of Government scientists has sailed from here for Seward, there to take passage for Kodiak.

TO PRESERVE ORDER.

WASHINGTON, August 6— One hundred blue jackets and marines from the United States gunboat Annapolis, are now quartered in Managua, the Nicaraguan capital. They were landed at Corintho yesterday at the suggestion of the Nicaraguan government, which found itself unable to protect the American railroad and steamship companies property here.

AN OTTAWA RUMOR.

OTTAWA, Aug. 5—Rumors to the effect that owing to the typhoid epidemic at the capital, Parliament might sit at Toronto or Winnipeg next session, are generally discredited in government circles. According to the report of Dr. Sheriff, City Medical Officer, in the first place the epidemic appears to have reached its height and shows indications of abatement. New cases on Saturday only numbered twenty, which is a very considerable decrease over previous days, while yesterday the number of new cases was not even so great as that. The continued cool weather, with increased purity of the water is responsible.

In addition to these facts, it is considered that any attempt to have the seat of Parliament changed, even temporarily, to any other city, would meet with great difficulties owing to the fact that the successful and expeditions transactions of parliamentary, and especially government business, depends greatly upon easy access to the various departments in the matter of returns, etc. The use of the library is also a necessity for the members. It is further pointed out that during the last Ottawa epidemic, a high-class system of fileration was installed in the various buildings at great expense, and that pure water can now be procured independent of the city tap. Altogether little credence is given to the reported movement.

FORT CAPTURED.

SAN JUAN DEL, Sur, Nicaragua, Aug. 5—Advices from Masaya, which has been in the hand of the adherents of General Mena say that Fort San Carlos has now been occupied by the Government forces.

ANOTHER MURDER IN THE SHARP CASE.

EUPORA, Miss., Aug. 5— Walter Permenter, brother of Swinton Permenter, once convicted and later granted a new trial on the charge of killing Miss Janie Sharp, July 22, 1910, at Louisville, Miss. was shot and killed from ambush in the yard of a relative's home here last night. Young Permenter arrived on Saturday to accompany his brother to Winona, where Swinton's second trial is scheduled to open today. His death is the second during the progress of the case, which has become famous in the legal annals of Missippi. Detective Walker was recently shot and killed at his home after he had brought a former neighbor of the Sharps back from Texas under the claim that he had evidence to connect his prisoner with Miss Sharp's death. Clues of the slayers of both men are lacking.
