Disease Halted Physicians Say

Although the King Had an Uncomfortable Day Yesterday the Fact That the Pleurisy Had Not Increased Was Regarded as a Hopeful Sign.

LONDON, Nov. 26.—It is generally expected by medical men that the crisis in the illness of King George may be reached about the middle of this week...

Issuance of this report from Buckingham Palace was awaited by the public with perhaps greater anxiety than on any day since His Majesty became ill last Wednesday...

PROGRESS REPORTED

LONDON, Nov. 26.—The Press Association announced this afternoon late that it understood that King George had "made satisfactory progress" during the day...

GOVERNOR HEARTZ RECEIVES MESSAGE

The following bulletin issued from Buckingham Palace at 9.09 p. m. was received last night by Lieutenant Governor Hertz:

"The King has not had a comfortable day. Temperature now 101.6 but pleurisy has not extended further and strength is maintained."

PRINCE GEORGE LEAVES FOR ENGLAND

HAMILTON, Bermuda, Nov. 26.—Prince George, youngest son of the King of England, will leave late today on a race to the bedside of his father...

Prince Maintains Communication

NAIROBI, British East Africa, Nov. 25.—The Prince of Wales arrived at his first camp en route from Dodoma, Tanganyika to Abercorn...

AIR FORCE READY

LONDON, Nov. 26.—Unusually occasioned by the King's illness is stirring the Empire's millions deeply and attention is focused on the remote regions of South Africa where Edward, Prince of Wales, and heir presumptive to the British throne is hunting big game...

Although the government had considered sending a special dispatch to his father's illness it was later decided to send word by regular telegraphic channels...

Dr. Green's office will be closed Tuesday and Wednesday, 27 and 28. 9333-11-27-28.

"Be sure and see Kings Daughters Tables at Trinity Church, 124 St. John's St., Nov. 29th. Wax work and croquet paper novelties, we have all sorts of epsons for Christmas gifts, children wear, dainty kerchiefs and fancy work. Bring the children to Mrs. Wieg's Cabbage Patch. 9288-11-24-27-28

BACK HOME

Dr. F. G. Banting, co-discoverer of insulin and winner of the Nobel prize in 1923, who is back in Canada. Dr. Banting went overseas recently to deliver a lecture at Edinburgh University in recognition of his having won the Cameron prize. He made the Atlantic trip on the S. S. Laurentic.

GENEROUS OFFER FOR SANATORIUM

Two Acres of Suitable Land Generously Offered by Mr. Geo. E. Hughes.

The generous offer to donate two acres of land situated between Highland Avenue and McGill Avenue close to the North River Road, for the purpose of a Tuberculosis Sanatorium, has been made by Mr. Geo. E. Hughes of this city. The site is a valuable one and is within the Common of Charlottetown...

Mr. Hughes has always been a public spirited citizen and has been deeply interested in matters of public health and welfare. In this instance he is entitled to the thanks not only of the city but of the whole Province.

TRENTON, N. J., Nov. 26.—One death caused here by the cold wave which struck yesterday. Frank Wilson, 60 years old, a baker of 124 Washington Street, froze to death in the back yard of his home.

chest trouble is causing many of his subjects to wonder whether he is not straining his constitution unduly by remaining in Britain all the year round. Among the eminent specialists who discussed his case Continued on page 3.

Although the government had considered sending a special dispatch to his father's illness it was later decided to send word by regular telegraphic channels...

JUDGING COMPLETED AT THE ROYAL FAIR

(Special to The Guardian) TORONTO, Nov. 26.—Judging of foxes at the Royal Winter Fair was completed yesterday at noon. Peter G. Clark wins world championship (Humphrey Reserve); Ruthven Brett world's champion pup, Humphrey Reserve. Reserve, Ruthven Brett. Champion year old male, Clark Reserve; Stewart and Lewis. Champion male pup, Ruthven Brett; Reserve Humphrey. Champion female pup, Humphrey; Reserve, W. B. McArthur. Champion matched pair, Humphrey. Humphrey heads list in winning with a total of thirty-two. Peter Clark is second with twenty six.

TORONTO, Nov. 26.—With a few exceptions, Prince Edward Island, carried off the fox championships at the Royal Winter Fair here today. H. R. Humphrey, Kensington, P. E. I. and Peter G. Clark, Summerside, were the chief winners. Other winners in the various classes were: John A. Lee, Summerside; W. B. McArthur, Kensington; and Stewart and Lewis, Summerside.

On Saturday last, his visit was essentially of a private nature but many old friends called upon the prime minister and took occasion to talk over old times.

CESSATION OF STRIFE DEMANDS

European Powers Interfere in Critical Situation in Bulgaria.

(Special to The Guardian)

SOFIA, Bulgaria, Nov. 26.—The European powers on Saturday intervened in the critical situation in Bulgaria caused by the continued bloody Macedonian feuds. Great Britain and France were reported to have jointly demanded cessation of the strife as not only menacing Bulgaria but jeopardizing the peace of the Balkans.

Foreign Minister A. Bouroff while not attempting to disparage the gravity of the situation replied that the government had sufficient troops to subdue Ivan Michaeloff, but that it was most difficult to capture him and his thousands of well armed Macedonian revolutionaries, who when confronted with danger flee to inaccessible mountain retreats.

The government dispatched a peremptory demand to Michaeloff on Saturday afternoon saying that the sanguinary feuds must cease immediately or he and his partisans will be captured. Undaunted the Macedonian chieftain hurled back the defiant reply, "Any government official who signs a decree against me signs his own death warrant."

In ministerial circles it was said that war minister Volkoff was in disagreement with the rest of the cabinet and that the Liepichoff-Buroff declared that while regular troops are within reach of Petritch the Michaeloff stronghold the government desires to give the revolutionaries leader a last chance to capitulate before giving the order to engage him in battle.

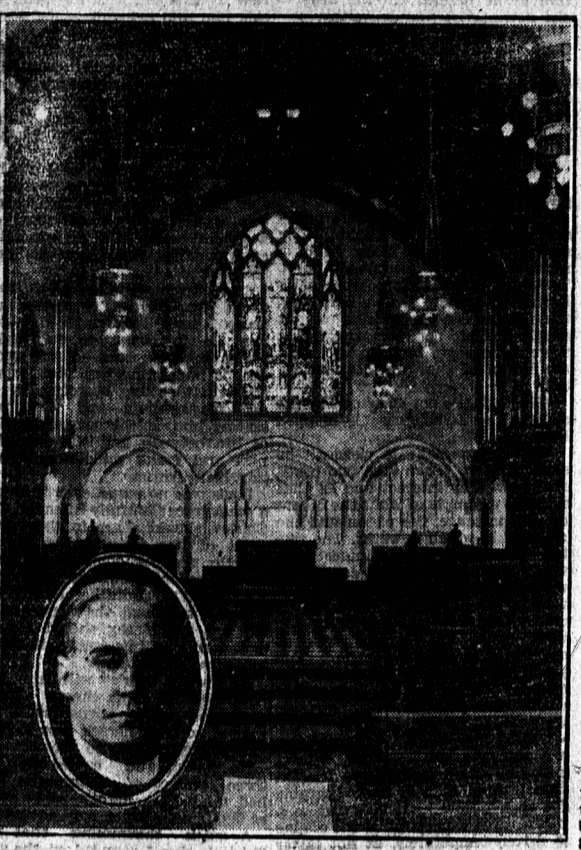

Decision Meets With Approval

(Special to The Guardian)

TORONTO, Nov. 26.—Decision of the newsprint industry to divide business in order that all mills might operate at about 80 per cent of their capacity meets with the approval of Premier Ferguson with some reservations.

"What the government wants to do is to protect the working man," stated the premier. "Some mills can operate a little more cheaply than others and there might be a tendency to carry out production at these points. We want all the mills of every company to keep operating in order that there shall be no distress among the people of the towns in which they are located." He pointed out that in many places whole towns were dependent upon the mills.

CANADIAN MEMORIAL CHAPEL

Rich in the symbolism of the great war and representative of the Dominion from coast to coast is the church which has just been dedicated in Vancouver. This Canadian Memorial Chapel, which has been described as "a poem in granite and stained glass," is the fulfillment of the dream of a G.E.F. padre, Col. the Rev. G. O. Falls. The four windows of the transept are devoted to the four original provinces of Confederation—Ontario, Quebec, Nova Scotia and New Brunswick. Six windows in the nave are to be representative of the other provinces and of the Yukon. A great all-Canada window adorns the north end of the church. Here the figure of Canada bears emblazoned on her shield "Right, not might, shall rule the world." Beneath this is shown the death of Wolfe on the Plains.

Chamberlain Returns Home

(Special to The Guardian)

LIVERPOOL, Nov. 26.—Sir Austen Chamberlain, the British Secretary for foreign affairs, returned to England today aboard the "Regina," looking bronzed and healthy and presenting a strong contrast to his appearance when he left. He declared that his health was now quite restored and he intended to resume his duties in the foreign office at once.

Sir Austen declined to comment on foreign affairs or politics, but willingly discussed incidents of his tour, especially his visit to California and Canada. He said that he was greatly impressed at the almost limitless possibilities for the development of Canada's resources.

Farm Relief Bill Drafted

(Special to The Guardian)

WASHINGTON, Nov. 26.—A farm relief bill, drafted by Chairman McNary of the Senate Agricultural Committee will be presented for a vote at the approaching short session of Congress. The measure calls for establishment of a federal farm year with membership of 10 to take over the marketing of surplus crops.

The new bill abandons the equalization fee but it puts the cost of surplus marketing on the gov't. It would permit the setting up of stabilization corporations over the country to supervise crop marketing, it being the theory that in the event of a crop surplus, the corporations would keep this surplus off the market thus helping prices. The surplus then would be disposed of in off season.

BAD STORM IN EUROPE

Terrific Weekend Gale Takes Toll of Life and Property in British Isles and Europe.

(Special to The Guardian)

LONDON, Nov. 26.—Devastation and floods ashore and shipwrecks at sea took an enormous toll of life and property in the British Isles and Europe during a week end gale that exceeded in violence the unprecedented storm of a week ago. The previous took 85 lives and did many millions of dollars damage. Latest returns showed today that the death toll of the present storm already was probably over 100 and likely to mount. Damage could not be estimated.

The known death toll in Europe was estimated late today at 84, which included 22 in Great Britain. In addition 14 lives were lost when the steamer Cesare foundered in the Mediterranean off Algeria. The toll at sea probably will be increased when all reports are in.

At least 38 men were missing including the Norwegian steamer Hjort, mine on the British trawler Dean Swift, seven on the British steamer Mils and four on the British trawler Forget-Me-Not. It was noteworthy as the 25th anniversary of the greatest storm in the history of Great Britain which blew down 1500 buildings and took 8,000 lives.

The storm today reached such proportions off the Atlantic coasts of England and France that the air was crowded with distress signals from shipping. Dozens of ships were disabled. Others were driven ashore and several thrilling rescues were made at sea from ships in distress. Twenty one ships appeared in Lloyd's list of wrecks and casualties over the week end. The liner Metagama, arriving at Queenstown, reported she had picked up eleven S. O. S. calls on her way from Charlottetown.

LONDON, Nov. 26.—The recurring hurricanes which have been scourging the west coast of Europe with ruthless fury for four days have swept up tonight an appalling list of marine disasters which involved, perhaps, one hundred deaths and the loss of a score of vessels of substantial tonnage. While the furor raged had considerably moderated in the English Channel and over the French and Spanish littoral, the storm still raged tonight along the coasts of Belgium and The Netherlands.

The Belgian lowlands particularly suffered inundations as the sea was driven in by the raging winds, overflowing rivers and breaking down dykes to the great distress of densely populated districts. In England the lives lost ashore were no great number, but the property damage was great over wide areas. The shipping intelligence tonight was full of reports of gallant rescues of mariners from angry seas, of abandoned ships, of unidentified derelicts whose crew may or may not have perished of crippled crafts crawling perilously toward a safe anchorage.

Inquiry Reopens Communications Re Car Ferry

(Canadian Press)

NEW YORK, Nov. 26.—The Federal inquiry into the sinking of the Lamport and Holt liner Vestris off the Virginia Capes, November 12, reopened today with second officer Leslie Watson called to give his version of the tragedy in which 110 lives were lost. He has been in a hospital recovering from injuries received in the disaster. The second inquiry, that of the Department of Commerce into the inspection of the Vestris just before she sailed, when she was passed as in good condition and her lifesaving equipment declared satisfactory, re-opens tomorrow.

(Special to The Guardian)

OTTAWA, Nov. 26.—Despatches from Quebec to the effect that the government contemplates abolishing the personal income tax are not taken seriously on Parliament Hill. The tax is yielding more than \$50,000,000 annually and it is doubtful if the minister of finance is contemplating anything more than a reduction in the schedule of rates pertaining to individuals. It has been his policy for some years gradually to reduce the tax, especially on persons of the small salaried classes and it may be that the tax will be dispensed with altogether in time.

There is a possibility also that the minister is considering some modification of the companies income tax, which at present is 8 per cent. This has been suggested more than once by eminent business leaders, including Sir Joseph Flavelle, if one remembers correctly. The sales tax is another impost that has been unpopular and the minister has been working toward its elimination. With stamp taxes and other excise taxes it is yielding about \$88,000,000 annually. But the expenditure attributable to the great war still exceeding \$150,000,000 annually it is difficult to see how any minister of government can abolish these taxes at one stroke, and the probability is that the people of Canada will have to bear the personal income tax for some years to come. The country is prosperous and the minister of finance is performing wonders in the way of debt reduction but he cannot be expected to work miracles.

NEW YORK, Nov. 26.—An aeroplane manufacturing corporation modelled after modern automobile plants and having a production line capable of putting out five aeroplanes daily, is being organized by Clifford Durant, son of William C. Durant; it was learned today.

Mr. S. A. MacDonald, President of the Associated Boards of Trade, received the following letter yesterday from the Hon. the Minister of Railways and Canals. Dear Mr. MacDonald: I have your letter of November 21st, embodying Resolution passed at a recent meeting of the Associated Boards of Trade of Prince Edward Island, relative to construction of the new Car Ferry Steamer. While the matter is a Dominion Government one, the technical end of it is left with the Canadian National Management, and I am glad to note that a copy of the Resolution has also been sent to Sir Henry Thornton. Yours sincerely, CHAS. A. DUNNING, S. A. MacDonald, Esq., President Associated Boards of Trade, Charlottetown, P. E. I. Mr. Dunning also wired Premier Saunders as follows: "Ottawa, Ont. November 24th. Rest assured nothing will be done until you have an opportunity to make full representations. Suggest that you stop off at Montreal on your way up, as all technical information is there. The difficulty is a technical one. Sir Henry Thornton will be glad to see you regarding this matter at any time."
