SHIPPING NEWS

CREW STARVING CALLS FOR ASSISTANCE

The steamer Tyee, asked assistance in wireless messages intercepted in Boston Sunday night which gave her position as about 90 miles east of Five Fathom Lightship on New York. The message said: "Wireless disabled. Steamer out of course. We are starving." The steamer Northern Pacific replied to the calls, saying she could reach the disabled steamer in four hours. The Tyee, a wooden steamer of 1,528 tons, was last reported sailing from Philadelphia for Fayal on November 12th.

SHIP ORE BY AIRPLANE

Shipments by airplane of ore from some of the North British Columbia mines will soon be an expressed fact, according to Lieut. D. C. Hall, of Vancouver who with other airmen, has contracted with a Seattle firm to deliver a specially designed flying boat for use at Stewart, B. C.

Sufficient contracts have been signed by mine owners of the district to keep these and other airplanes busy for five years.

SCHOONER'S CREW LAND AT NEW YORK

Captain Hays and five men, the crew of the British three masted schooner Maid of La Have arrived in New York Sunday on board the White Star Line Steamship Adriatic, from Southampton. On March 10th, about 750 miles east of Sandy Hook, the Adriatic sighted distress signals of the schooner, bore down on her, launched a life boat, took off the six men and set fire to the wreck.

The schooner was bound from St. Johns, Nfld., for Bahama, with a cargo of fish. From February 14th to March 5th, she experienced a succession of gales during which the bowsprit, head gear and sails were carried away.

SEA RATES JUMP

Freight rates on foodstuffs shipped to England on British vessels have been increased 30 cents a hundred pounds from 45 to 75 cents it was announced in New York recently. As the British Ministry of Food has 300,000,000 pounds of hog products in warehouse in the U. S. the increase means that the English public will have to pay \$90,000,000 more for them if they are shipped under the new rates, according to Robert Graham, chairman of the Ministry, in New York. A further surcharge of 13-13 per cent in passenger fares has been decided upon by the North Atlantic Steamship Co., according to the Liverpool Post. The increase in the cost of the voyage to the United States since July 10th now amounts to 33-13 per cent.

HORSEMEN OPPOSE DOCKING PRACTICE

The Toronto Humane Society calls attention to the action taken by the Canadian Hackney Horse Society at its last annual meeting, in advising breeders to cease docking their horses' tails, and in this connection quotes the world renowned horseman, Walter Winans, and Sir John Butcher, Bart. K. C., who has written in regard to this action as follows: "Mr. Walter Winans writes, 'About driving tandem with undocked horses I was investigating the way tandem-driving first started and have come to the conclusion that the earliest tandem driving was with undocked horses. It was only later that docked horses became the fashion. 'I think that I have got things going very well now in the anti-docking line. I am vice-president

THE MARKETS

(Montreal Star.)
Another slight drop in the price of eggs was the only feature of the Bonsecours Market this morning. Whereas the "strictly fresh" variety, which are the freshest of all fresh eggs, retailed at 78 cents last week, this week they have gone down to 75 cents. "New laid" eggs sell for 70 cents a dozen.

ROBUST CHILDREN

A child should not look pale, thin or worn. Such condition denotes malnutrition. To keep up growth and robustness a child needs a plenty of food rich in vitamins.
