REMEMBER THE LUSITANIA

Can you ever forget the stark horror when the newspapers spread the word that on May 7th 1915, the unspeakable Germans had sunk the "Lusitania," murdering women, children and non-combatants?

The horror is very fresh in the minds of the widows and orphans of the heroic crew.

To their mental distress is added the torture of threatened poverty. The Government does not recognize their needs, makes no allowance as it does to the dependents of the men of the Army and Navy. Their only refuge is in public aid.

They rely on your benevolence, as do the families of 15,000 other merchant seamen lost in the war, victims of the U-boat and floating mine.

Surely no life was ever more nobly given than by these unsung heroes, who go down to the sea in ships.

What shall be said of their dependents? Let your cry be: "They shall not want," and make your offering as large as a worthy sacrifice will allow to the Sailors' Relief Fund. 1244-9-5M1L.

FOOD BOARD FLASHES FOR FEMINE FOLK

There was nothing that the farmer wanted so much in the way of a farm-ette this year as the girl who could milk cows. Few of them could.

Consequently the Ontario Government Employment Bureau has made arrangements for dairy classes to be held at the Ontario Agricultural College, Guelph, during September and October. The courses will include instruction in milking butter-making, milk bottling, etc. Hitherto these

WAR CANNING BULLETIN Issued by Canada Food Board

SLICE THEM THUS

There is nothing that the youngsters enjoy more on a cold winter day than a dinner which allows them a liberal helping of corn. While the season is on, as much corn as possible should be canned. It will result in a saving of wheat during the winter months.

To can it, blanch the corn on the cob for five minutes. Cold dip it for one minute. Then cut off the tops of the kernels and scrape off the rest of the pulp as shown in the sketch. Pack and press firmly into jars so that the corn juice may fill all spaces. Add one teaspoon of salt to each quart jar and if the milk of the corn is not sufficient to fill the jars, add water. Adjust the rubbers and covers and partly seal. Sterilize for three hours.

courses have only been held during the winter months, so that this is an innovation that should be taken advantage of by all prospective farmer-ettes.
