Canadians In London

THE OFFICE OF THE HIGH COMMISSIONER FOR CANADA WEEK BY WEEK.

4th DECEMBER, 1924

During the week ending 4th December 311 visitors called at the Office of whom 156 obtained interviews and 24 registered.

The High Commissioner has brought to the notice of the British authorities the reports furnished by officers of the Department of Immigration and Colonisation, Ottawa, upon the inspection of children from Poor Law Schools in Great Britain who went to Canada during 1924 and the previous years.

The Department of Agriculture of the Dominion Government has been assisted by the High Commissioner's Office in negotiation for the purchase of a thoroughbred stallion. It has now been decided to purchase a Cleveland Bay stallion 'Tantalus' and the horse will leave for Canada on Friday, December 5th accompanied by one of the Veterinary Inspectors of the Department. Two Cleveland Bay mares purchased by a well known breeder of horses in the Ottawa district will also leave on the same date for Canada.

The High Commissioner's Office has received a report which shows the difficulties under which Exile and gratiation propaganda is carried on by the Canadian Government representative in the West of Scotland. A meeting recently held at Grimsay, South Uist (Hebrides) could only be arranged at the last moment, owing to the uncertainty of the crossing, and the school children had to be utilized to spread notice of the meeting among the Islanders. Forty six people attended the lecture several of them walking over four miles.

In contrast to this enthusiasm may be noted a letter to 'The Times' of the 4th December from 'A Canadian' expressing the opinion that settlement in Canada of people from European countries would not in any way improve the position of those who are in Canada at present; that it might add to the riches of a few creating enormous fortunes, but it would just as certainly create a lower stratum as it has done in the United States. The average person in Canada today is materially and in every other way as well-to-do as any people on the face of the earth and their position will not be improved by an influx of population.

Lieutenant Colonel H. W. Snow, C. M. G., D. S. O., and Mrs. Snow leave England on Saturday 6th to join the Staff of the Governor General at Ottawa. Before leaving Colonel Snow called on the High Commissioner to say goodbye and thank him for the facilities for information on Canadian affairs which had been placed at his disposal at the Canadian Office.

The London Trade Commissioner reports that the Director of an important daily newspaper is visiting Canada in order to study the newspaper situation, and has been furnished with general information and introductions. The report received at the High Commissioner's Office from the Bristol Trade Commissioner states that continued heavy arrivals during the month of November of grain, a large proportion of which is of Canadian origin have resulted in extreme congestion at Avonmouth so extraordinary are the demands that transit sheds, hulks, barges, and even a portion of the Royal Edward Railway Passenger Station, have been pressed into service for the receipt of grain. Added to this a shortage of labour has been apparent since the big rush began. Sufficient men are not available to form gangs for discharging grain.

In fairness to the port of Bristol it should be stated that the facilities for grain handling are excellent at Avonmouth which provides for the normal accommodation of 750,000 quarters, or approximately 150,000 tons. Avonmouth at the present time is handling more than ten per cent of the grain imports into the United Kingdom. It is understood that a scheme for further extending the grain storage facilities of the port of Bristol is under discussion.

A Press Bulletin dealing with the Canadian Grain Crops 1924, based on a report of the Dominion Bureau of Statistics was circulated to the Press this week. A Bulletin dealing with the Slaughtering and Meat Packing Industry in Canada 1923 is also in preparation.

The Canadian Official Mining News Letter on Monday next will be based on the report of Mr. Victor Dolmage of the Geological Survey Branch of the Dominion De-

Address and Presentation

Mr. J. W. Patterson, Hunter River, left last week for Los Angeles, Calif. Previous to his departure, he was tendered a 'Farewell' at the Globe. On this occasion, Mr. B. W. Taylor, on behalf of the assembled citizens, read to the guests of the evening the following address.

Mr. J. W. Patterson, Hunter River.

Dear Friend:—We understand that you are about to leave Hunter River, and having filled such a prominent place in the social life of our village and taken such an active part in every charitable undertaking, no matter for what purpose, we wish tonight before you leave us, to take this opportunity of expressing our appreciation of your valued services. You may have felt sometimes on occasions of farewell gatherings of this nature that part of what was said tended towards flattery rather than facts, but we wish you to feel tonight that instead of trying to flatter you with flowery words, we are only expressing very inadequately the feelings we have towards you as a personal friend and a worker for the general good of the community and anything pointing towards charity. During the years you have been with us, you have gained a well-merited prestige, and when you are gone we shall miss the man who was always ready to give ungrudging of his time and means to help—no matter what or whom, so long as the need was urgent and the cause worthy. We regard you as a man who stands four-square for manly principles and who, without pretence and without any attempt at attracting personal praise or making personal gain, goes through the world with a smiling face and a hand ready to help when needed. You are well and favorably known, not only in your native village, but throughout a large section of the surrounding country, and our village will find it hard to replace your efforts and your help on behalf of the Improvement Society and Dramatic Club.

We might go on recalling your commendable efforts in many directions, but will refrain from doing so as we know that our attempts to commendate your good work cannot add anything to the happy feelings of a man who has played an upright man's game as the years rolled by—for as such we realize you to have been. As we take one brief, retrospective view of the years we have spent together as neighbors and villagers, we say in all sincerity from the depths of our hearts, and as man to man tonight, 'We will miss your friendship and your natural good humor and witticisms in many ways. We ask you to remember us all as your friends and as you go from here our best wishes for your future health, happiness and prosperity will accompany you, and we know that in a new land, you will win your way among strangers, as you did with us. We will be pleased to have you accept this little token of good fellowship and appreciation. May you have an enjoyable trip. A Merry, Merry Xmas and the best of luck always. In happy remembrance

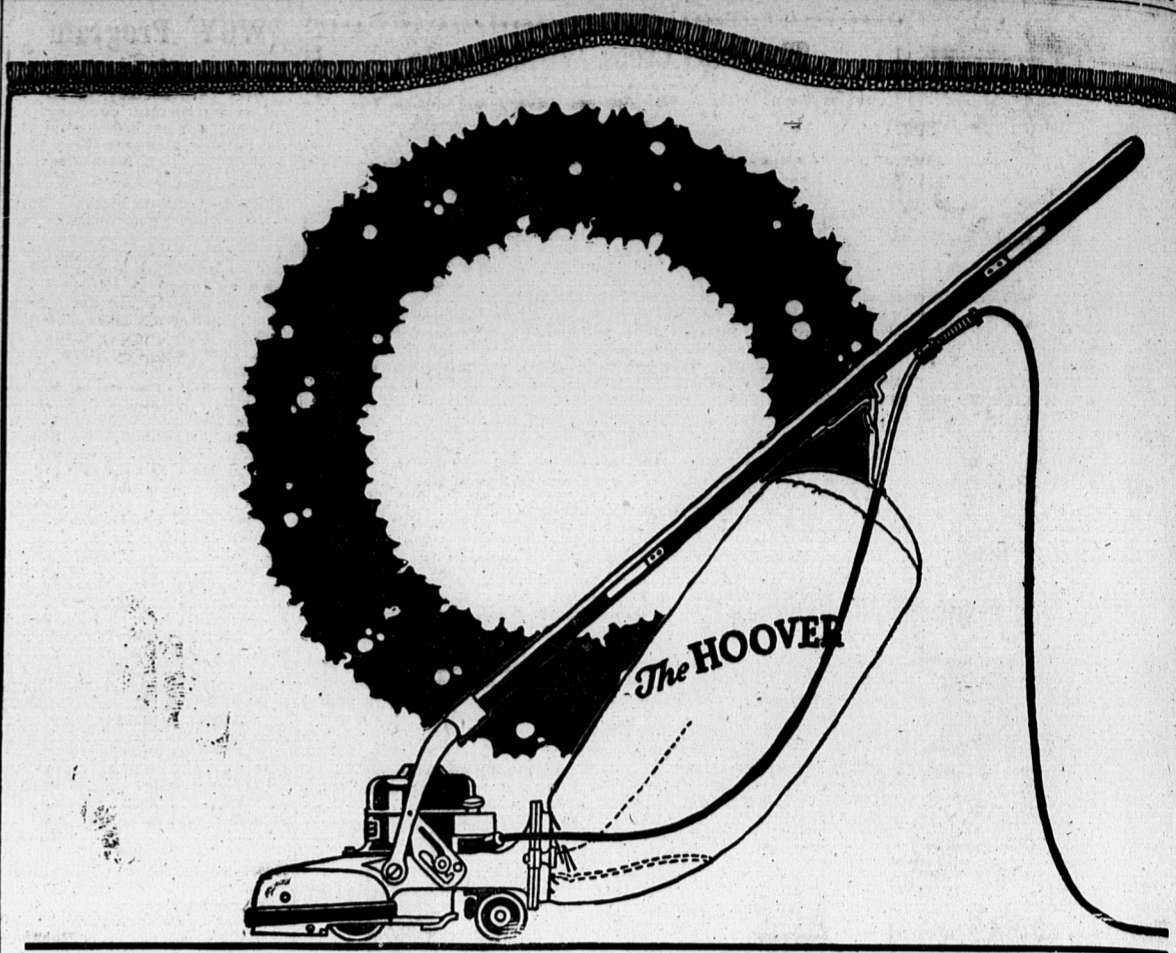

'The boys of Hunter River' Dr. Green made the presentation which was in the form of a handsome case containing a Waterman Fountain pen and pencil, to which Mr. Patterson made a very fitting reply. L.

partment of Mines entitled 'The Mining Situation in British Columbia.' Canadian Trade Commissioners in Great Britain have received the following enquiries for Canadian goods during the past week: A London Commissioner Agent is desirous of securing the representation of Canadian exporters of Frozen Meat Offal, for the sale of which he claims a large connection. A Dublin firm asks to be put in touch with Canadian shippers of Hay, Straw, Oats and White Bran. A Glasgow firm would act as Agent for Canadian Exporters of all food products, including butter, cheese and eggs.

Two Birkenhead firms are open to receive offers of Canadian Potatoes. A South of England company asks to be placed in touch with Canadian exporters of Crude Alcohol.

A Belfast firm asks to be put in touch with Canadian manufacturers of Steel Battery Crops. A West of England Hay Importer desires quotations during the month of January and later for No. 1 Clover Mixed.

An important London firm seeks the agency of Canadian shippers of Railway Sleepers. A Dublin Company desires quotations for Cheese and Canadian Creamery Butter.

Give Her A Hoover

Do you know what your wife wants for Christmas? You need not guess about it, nor make embarrassing mistakes on 'sizes' or 'colors,' nor spend your time and temper in futile 'shopping.' A Hoover will mean real happiness to her. It will last for years. It will take drudgery out of her life. It will clean and refresh and prolong the life of rugs and other household things she treasures. Your wife knows about The Hoover—knows it is an electric sweeper, electric suction cleaner, and electric rug beater, all in one. Her smile will tell you just how much she appreciates your thoughtfulness when her eyes alight on a Hoover for her very own.

The HOOVER

It BEATS . . . as it Sweeps . . . as it Cleans.

All you have to do to place this much-prized gift in your home on Christmas morning is to telephone us, drop us a line, or call. If you can, drop in, so that we may show you just how fine a present this is that we suggest.

Authorized Hoover Dealers at Both Charlottetown and Summerside

IN MEMORIAM

MR. DUNCAN McDONALD

Died in U. S. A., Duncan MacDonald, for more than a quarter of a century a resident of Somerville, Mass., was buried from the Highland Congregational Church, Somerville, of which he was a member for twenty-seven years, on Tuesday afternoon, Rev. George S. K. Anderson, the pastor, officiating.

Mr. MacDonald came to Somerville in 1889, and was a well known figure in the political and business life of the city. For many years he held his trade as a harness manufacturer on lower Broadway, East Somerville.

He was born in Charlottetown, Prince Edward Island, September 1, 1845, coming to Boston in 1868. He leaves to mourn his going, his

widow, Mary MacDonald, a sister, Mrs. Levi Silliphant, of Summerside, P. E. I., four sons, Charles E. of Somerville, John A., of Baldwinville, Fred A., of Worcester, and William D., of Arlington; six grandchildren and four great-grandchildren. Burial was in Woodlawn Cemetery, Everett.

MRS CAPT. JOHN GRAHAM

It is with regret we record the passing away at her home, Cambridge Road on Dec 3rd, of (Isabelle Millar) beloved wife of Capt. John Graham in the seventy third year of her age.

Although in failing health for the past two years death came as a shock to her family and friends by whom all was done to relieve her suffering.

She leaves to mourn an aged husband five sons and one daughter Mrs. Ressel Finley, Oswald, William, Andrew and Stanley all re-

sidents of Cambridge Road and Ernest in New Glasgow, N. S., also one brother Walter Millar who lived with deceased, all of whom will cherish the memory of one who was very devoted to home and family.

The funeral services on Dec 4th, which were conducted by Rev. M. D. MacDonald of Murray River were very impressive.

The large cortege which followed the remains to the cemetery at Murray Harbour North where she was laid to rest is evidence of the high esteem in which she was held by all.

There is no Death an angel form Walks over the earth with silent tread

He bears our best loved one away And then we call them dead And ever near us tho' unseen, Their dear immortal spirits tread For all this boundless universe is life—There are no dead.

ALCOHOL? WHAT KIND!

Question—What is the difference between Denatured and Wood Alcohol as regards Anti-Freeze?

Answer—The United States of America Bureau of Standards Bulletin L.C. 28 has this to say re Wood Alcohol:—

'The alcohol solutions do not exert greater corrosive action than water alone. This can be predicted from theoretical considerations and is well established in practice. However, Wood Alcohol sometimes contains free acid, such as acetic acid, which is objectionable and should not be used unless it is known to be free from acids.'

Contributed by Geo. G. Kaestner, Manager, Anti-Freeze Alcohol Development Department, Canadian Industrial Alcohol Company, Ltd.
