Two ladies driving along the Bedeque road some days ago saw an automobile approaching. Fearing the effect upon their horse's nerves and having but little time to make preparation for the encounter they left the animal to his fate while they precipitately, and at the expense of some garments, climbed over a lighted wire fence. From their safe vantage-ground in the middle of the field they tremulously awaited the expected ascension of their horse and to their disgust and relief the animal never moved a muscle except perhaps, that of his upper lip which he curled in contempt as the terror sped by. They resumed their journey in absolute silence.

DON'T USE GREASY LINIMENTS.

A century ago they were popular. Today people want something easy to apply, certain in results, and above all a clean liniment. When Nerviline is applied aches and pains disappear as the pores absorb its soothing healing properties. Nerviline penetrates to the core of the pain, eases instantly, and leaves no oily or smelly memory behind. Good to take in, capital to rub on, and five times more powerful in de-troying pain than any oily liniment. Don't fail to get a large bottle.

RUMBLING BOWELS.

One of the very first lessons that ought to be taught every child is that the bowels must move regularly and freely every day, as more troubles arise from neglect of this duty than from any other cause. The effect matter that should pass out of the body remains in the bowels contrary to every law of nature. If it does not pass away by the natural channels then the other way to escape is through the pores of the skin. That is why people look so sallow and unhealthy. This causes pimples, blackheads and blotches.

For immediate relief take two or three Huteh before you go to bed. The whole digestive canal responds to the healing effect of this tablet. Rumbling bowels recover quickly under its treatment. It neutralizes the foul gases. It sweetens the stomach. It gives a good appetite. It's a doctor for ten cents. A big bottle with 300 for \$1.00. For sale by all druggists.

ONE OF THE MANY REASONS

WHY you should heat your house with a "Sunshine" Furnace rather than stoves is that the former will save your carpets and furnishings and relieve you of the trouble of carrying so much coal up from the cellar. It has large double feed doors to admit large blocks of wood or coal. The ash pan is large and so placed that all ashes must drop into it. Made in all sizes at all prices.
