Councillor Brace, who spoke in high terms of the efficiency of the Fire Department, moved that in recognition of their services each member of the three companies (30 in all) should receive ten dollars and the Hook and Ladder Co., (with ten members) $5 each. The motion was, of course, carried unanimously. On motion of the same councillor it was resolved that the Supt. of the P. E. I. AFTER SICKNESS

How to Recover Strength.

So many people are asking how to recover their strength after severe sickness that we are publishing this information for their benefit.

After grippe, pleurisy, pneumonia, or any illness what you need is new strength and better blood.

The most certain way to get this is by taking Vinol, our delicious cod liver and iron preparation (without oil). It creates strength, improves the blood, sharpens the appetite and restores the entire system to a healthy robust condition.

Mrs. Alice Mill of Newton, N. C., says: "I had a very severe attack of grippe which confined me to my bed for several weeks, After I was able to sit up, I felt weak, tired and worn out for a long time. A friend advised me to try Vinol and before I had taken one bottle I was entirely relieved of that tired, worn out feeling which usually follows grippe and I had regained my strength and felt well again.

Try a bottle of Vinol. Your money will be returned if it does not restore your vitality and strength. E. A. Foster, Central Drugstore, Charlottetown.

ALWAYS CONSULT THE PHONE DIRECTOR.

It is surprising the large number of people in Charlottetown who, when they want to inquire about their Morning Daily Guardian or subscription, ask Central for the News phone No. 132.3, instead of 132.2; or when they want to inquire about advertising ask Central for the Subscription phone No. 132-2, or for the News Phone No. 133, instead of 132-3; or when they want the News or Editorial Department ask Central for the Subscription phone No. 132-2, or the Advertising phone No. 132-3, instead of 133, although all these departments and their respective phone numbers are plainly given in the telephone book. Some people, instead of looking at the book, even phone one what number to ask for to get another department. All this is a great waste of time on the part of the person phoning, the operator at the Central, and the clerk in the department wrongly phoned. The news staff, on an upper floor, cannot give the necessary information about either advertising or subscriptions, nor the advertising staff about subscriptions or news, nor the subscription staff about advertising or news. In other words the clerks know and can do but their own work in their own departments, and if it were otherwise they would be continually running from one department to another, upstairs and down, mixing work, wearing themselves out and causing the greatest possible confusion. On and after 6 p. m. daily it is useless to ask for any phone numbers except 132 and 133.

Patrons who consult their phone books for the numbers they really want will greatly lessen the work of the patient Central telephone and Guardian clerks and thus help make their lives much brighter and happier. 1-16Mtf.
