and the most serious consequences will follow. It lives on your vitality. The stronger it becomes the weaker you are. Membranes become inflamed—causing a cough, and, until the irritation is reduced and the sore places healed, there is no possibility of stopping the disorder. ADAMSON'S BALSAM gives instantaneous relief and inevitably brings a perfect cure if taken as directed.

# BEE HIVE

Almost daily we are receiving additions to our stock. Already we have landed three cargoes made up of almost every size of dimension lumber in Hemlock and Spruce.

### TO THE BUYERS' INTERESTS

We have made our season's purchase. The quality is always first and uppermost—and we never forget that there must be a combination of quality and price that will be appreciated by Bee Hive Patrons. It will be impossible to enumerate addition after addition to our stock as it arrives but lumber hunters will find at the Bee Hive a general supply for every day usefulness.

The spring trade left our stock in a low state before the opening of navigation but we fully expect to be up to the requirements of the trade from this forward. PHONE 181.

## S'SIDE AND PRINCE CO.

JUSTICE HODGSON, was in Summerside, on Saturday.

MRS. BRENNAN, and daughter returned Saturday evening by the Northumberland.

MRS. ROGERS, and Miss Fraser of Alberton, returned Saturday evening from a short visit to Charlottetown.

Mrs. EDWARD DONALDS of Alameda, Calif, daughter of Mr. D. Montgomery, Alberton, is visiting friends in Summerside, the guest of Mrs. David Montgomery.

THE Campana called here Saturday morning from Montreal with a large freight and two passengers for Summerside. She left about 10 o'clock for Picou and intermediate ports.

THE watering cart made its first appearance on the street Saturday afternoon. Some miscreant, whose name is withheld in consideration for his family has suggested that the present watering cart be disposed of and a combined machine to be used as a mud digger in spring and fall and as a watering cart in summer be substituted.

NORMAN ARSNAULT, a laborer while helping to load the City of Ghent Friday evening had a narrow escape from death. He slipped and fell between the steamer and the wharf, his head striking a projecting piece of timber on his way down after which he went to the bottom. He was fished out by some of his companions and after about half an hour of unconsciousness he was able to return home. This is the third accident of similar character that has befallen him.

"AND at Tignish every French Canadian possessed of a flag had it up by time in the morning in honor of Her Majesty" Pioneer 28th.—Does the esteemed Pioneer mean to insinuate that the French were so spasmodic in their demonstrations of loyalty on this occasion that they would not leave their flags up. Only had them up by time, and that only in the morning! Why by time! and where was their loyalty in the afternoon! In justice to the French Canadians the Pioneer should rise to explain.

mowing machine, and not half as dangerous.

Bordeaux should be prepared fresh for each application, for when lime is added to copper sulphate solution the mixture begins to deteriorate after 48 hours.

A good general rule for applications is to spray once just as the leaves are expanded; once just after the blossoms fall and a third time in ten days or two weeks. But let me say in closing that no one but the grower himself can decide just when the sprayings should be made, for all depends on what pests are most troublesome in that particular orchard. If the apples are wormy at

### ITS FAME SPREADING.

A New Remedy in General Use in Manitoba and the Northwest.  
Winnipeg, May 23.—The effects of the regular waves of sickness which sweep over the portion of the Dominion in the spring are noticeable in the increasing amount of the druggists' sales. There has been quite a run on the kidney remedy now so well under the name of Dodd's Kidney Pills. The recovery from Bright's Disease of Mr. Arthur Coley, of Somerset, through their use, an account of which appeared in the papers, gave a considerable impetus to the sale, and the remedy has become indispensable in many Manitoba households, its fame having penetrated into the remotest parts of the province and Northwest Territories.

Yellow will dye a splendid green by using Magnetic Dyes—10 cents buys a package and the results are sure.

the core it means that the codling moth is abundant, and his great care should then be to spray his orchard thoroughly with Paris Green within a week after the blossoms fall. If the black spot is troublesome, then he should give most attention to the use of copper sulphate, making one application before the buds have begun to swell, using 1 lb to 10 gal. of water; and spraying once just before the blossoms open, and two or three times after they fall, with Bordeaux mixture. While if the cankerworm and the caterpillar are the chief offenders, he should spray thoroughly with Paris Green or some other insecticide, making the first application just as the leaves are expanding. But whatever may be his enemy, let him spray thoroughly and in good season and as a result he will do his share to keep Nova Scotia where she belongs, in the front rank of apple producing countries in the world; and what is, perhaps, even more to the point, it will mean money in his own pocket and in that of his neighbor.
