

THE IRISH UNIVERSITIES.

DUBLIN, Oct. 2.—The Irish Gazette contains a proclamation bringing the new university act into operation today. The central idea of this measure is the establishment of two new universities in Ireland with headquarters at Dublin and Belfast. The new Dublin College under national control will be opened immediately. The college has a revenue of \$200,000 a year and fees and moneys contributed by the councils will add considerable amount to this.

PRAYING LADY WAS A CLEVER BURGLAR.

PARIS, Oct. 2.—An amusing story comes from Berck-Plage, a popular seaside resort near Boulogne. Every evening at sunset a young Moorish lady, with brilliant black eyes, dressed in a white "burrous," which covered her hair, knelt on the sands and prayed to Allah in a melodious voice. The public was much interested. The police had suspicions and watched the lady closely, for she had been seen at night in the vicinity of houses and villas which had just been robbed. A few nights ago she was caught red-handed. At the police station it was found that the "praying lady" was a Spanish man called Fernandez, aged eighteen, and known as a dangerous burglar.

WIRELESS TELEPHONES.

LONDON, October 2.—Dr. Lee DeForest, working under instructions from the Admiralty, has just completed a very successful succession of wireless telephony between warships in Portsmouth harbor. Dr. DeForest operated the transmitter on board the cruiser Furious, while Mrs. I. Stewart was at the receiver on the schoolship Vernon, both of which vessels steamed at full speed fifty miles apart. As a result of the tests, Admiral Gamble, who superintended the experiments, has recommended that the Admiralty install two complete sets of instruments.

SMUGGLING CHINESE INTO UNITED STATES.

SAN FRANCISCO, Oct. 2.—The Chronicle publishes a statement that the recent changes in the immigration Department in this state were the result of an investigation disclosing widespread corruption in the service along the Mexican border, by which hundreds of Chinese have gained illegal entrance to the United States during the past two years. The details of the plot, which is said to involve Chinese and Mexican residents of Mexico and Southern California, as well as American holding official positions, are said to have been communicated by one of the government agents who discovered the existence of the smuggling ring. It is said that the prices paid were two hundred and seventy five dollars for delivering a Chinaman at Los Angeles or five hundred dollars for landing him unmolested in New York.

ONLY LICENSED TO MARRY.

WALLACE, Idaho, Oct. 1.—Investigation by the county recorder's department of Shoshone County has brought to light an extraordinary condition of affairs with regard to the issuance of marriage license in this county. For many months the department has been puzzled at the non-return of marriage licenses issued to Finlanders, Poles and others of foreign nationality, of whom there are many employed in the mines. No official notice has ever been taken as the department was under the impression that many of the marriages had been contracted in other counties and returns made there. Accidently, however, it was discovered that many foreigners in the district have been under the impression for years that all that was necessary to contract a marriage was to take a license out, and no minister of the gospel, or justice of the peace was employed to perform the ceremony. In one case marriage papers were found framed in a cabin just as issued by the county recorder years ago, and a family of seven children had been raised.

HAMILTON IS GROWING.

HAMILTON, October 2.—The figures of the assessment commissioner of this city show that the population was increased by three thousand since last year, being now sixty seven thousand. There is also an increase of three millions in the assessment, making it forty million. This year's increase in population is the largest in the history of the city.

TUBERCULOSIS CONGRESS.

WASHINGTON, October 2.—The final session of the seven sections of the International Tuberculosis Congress were begun this morning in the National Museum. Section 1 was opened with a discussion relative to pathological anatomy and histology. Pneumonia in the process of pulmonary tuberculosis was one subject which brought forth several addresses. Measures for increasing resistance to tuberculosis, such as parks and playgrounds, outdoor sports, physical education, individual immunity and special conditions and the importance of family histories for the study of tuberculosis occupied the attention of other sections.

CZAR OF RUSSIA IN A CANADIAN COURT.

OTTAWA, Ont., Oct. 2.—The Czar of Russia will figure in a case which comes up before the Supreme court at the October term. A motion will be made to quash the appeal of Russia vs. Proskowizh. The man with the Russian name was an official of the Russian government who became involved. With a woman and a trunk full of securities he fled the country. He turned up in Winnipeg, where his cash ran out, and he resorted to his securities. In this way his location became known to the Russian authorities and he was arrested and held for extradition.

RED TROUSERS ARE POPULAR.

PARIS, Oct. 2.—Red trousers are greatly in vogue among the young men frequenting the holiday resorts in the south-west of France. Bordenaux witnessed the birth of the new fashion. Wine-colored and scarlet habiliments, it is added, break the monotony of standard red. Tennis players are adopting the new fashion, which is also seen on the beaches and promenades. The rest of the costume is so to speak, all kinds of upper garments being worn as of

DEER HUNTING

SEASON IN MAINE

KINEO, Maine Oct. 2.—The deer hunting season swung wide open at daylight this morning, and half a hundred hunters in this vicinity were on the lookout for venison until dusk fell. The sharp report of smokeless powder in singles, doubles and triple intervals during the day and numerous kills were reported this morning.

INCREASE MISSION GIVING 100 PER CENT

ST. JOHN, Oct. 2.—A meeting which represented the Epworth League and Sunday School workers of the Methodist church in St. John city, was held last evening in Centenary church for the purpose of outlining the missionary policy of the St. John district so far as the young people's societies and Sunday schools are concerned. The Rev. S. Howard, president of the N. B. and P. E. I. Methodist conference, presided, and F. E. Barbour was appointed secretary. It was decided to aim at increase of contributions to missions 100 per cent, and to ask the general missionary society of the church to devote the amount of this support of the Fukui mission in Japan where Rev. E. C. Hennigar, B. A., B. D., is stationed. The following committee, with power to add, was appointed to co-operate with the missionary and Sunday school and Epworth League officers in the various churches in carrying out the details of this forward movement: Rev. S. Howard, Rev. H. D. Marr, Rev. J. Heaney, J. Hunter White, William Kingston, Alfred Burley, and H. P. Robertson.

RUDYARD KIPLING ADDRESSES STUDENTS.

LONDON, Oct. 2.—In distributing the prizes at the Middlesex Hospital Medical School yesterday afternoon Rudyard Kipling delivered an address sparkling with bright epigrams. He said: "There are only two classes of mankind in the world—doctors and patients. Speaking as a patient, I should say that the average doctor very much as a non-combatant looks upon troops fighting in his behalf, the more trained men there are between his body and the enemy the better. 'I have had the good fortune to meet a number of trained men, who in due time will be drafted into your permanently mobilized army, which always is in action, always is under fire against death. 'Of course, it's a little unfortunate that death, as the senior practitioner is bound to win in the long run, but we non-combatants console ourselves with the idea that it is your duty to die in our behalf to see how his attacks can be longest delayed or diverted, and when he insists on driving his attacks home, that it shall be according to the rules of civilized warfare. 'Your training shows that things are what they are and will be what they will be, and we deceive on one except ourselves when we pretend otherwise. 'I wish you all work to do and enough of it.'

READING FORTUNES NOW FROM PEOPLE'S NOSES.

PARIS, Oct. 1.—Not palmistry but nosology is the new fortune-telling science. An elderly lady has just set up in Latin Quarter, where she reads people's careers from their noses. She is doing a flourishing business. The noses are examined by her long and carefully through a microscope, and she finds better indications in their marks and lumps than ever she found before in the lines of the hand. Hitherto it had been supposed that the nose revealed only habits of intemperance by its hue, and that not infallibly. But the nosologist says that that is a grossly ignorant misconception of an exact science.

The sale of Government rams in Souris last week was very successful, fourteen being sold averaging \$10.41 each.

WILL ABOGATE TREATY.

OTTAWA, October 2.—The treaty of commerce and navigation between Japan and Queensland terminates on July 31st of this year. Queensland participated in the Anglo-Japanese treaty in July, 1897, to which Canada has recently become a party. Before the Commonwealth of Australia was organized and a constitution formulated, the validity of Queensland's participation in the Anglo-Japanese treaty was questioned, but its validity was confirmed. The federal authorities of Australia, however, consider it undesirable to be bound by the Anglo-Japanese treaty in the matter of the customs tariff and other economic considerations, and on account of this reason, the decision to seek the abrogation of the treaty is ascribed.

THE COST OF THE ATLANTIC TRADE.

BERLIN, Oct. 2.—The Tagblatt publishes an interview with Herr Ballin, director of the Hamburg-American Steamship Company, in which he states that two months ago he submitted to the North German Lloyds, the Hamburg-American line, the White Star, and arrange a common shipbuilding program, which would enable the companies to lay up or break up a number of old ships in the Atlantic service with a view to economy. The present extreme costliness of the Atlantic trade could be reduced by common agreement more than \$12,000,000 annually. An agreement might be made by which one of the largest steamships would sail daily eastward and westward if they could agree upon terms.

Warning to Electors.

Treating.

The giving or causing to be given to any voter on nomination day or polling day on account of the voter having voted or being about to vote, any meat, drink, or refreshment, or any money or ticket to procure refreshment, is an unlawful act, subjecting the offender to a penalty for each offence of \$10 and costs to any person who sues therefor.

Undue Influence.

Any force, violence, or restraint, or threat of violence, injury, damage, harm or loss, or any manner of intimidation practiced upon or against any voter to induce him to vote or refrain from voting for a candidate is an indictable offence and subjects the offender to a penalty of \$200 and costs in addition to any other penalty thereby incurred.  
Any one who by any force, or false or fraudulent pretense or contrivance prevents or interferes with the free exercise of the franchise of any voter or by such means induces a voter to vote for a candidate or to refrain from voting is guilty of an indictable offence.

Conveying Voters to Polls.

Any person on behalf of a candidate, who hires or pays for or promises to pay for conveying any voter to or from the polls at an election, whether conveyed by horse, carriage, steamboat, vessel or other conveyance commits an unlawful act which disqualifies him from voting at such election and for every such offence he shall forfeit \$100 to any person who sues therefor.

Hiring out team &c.

Every person demanding or receiving payment from any person on behalf of a candidate or from the candidate himself for the use of any team or other conveyance for conveying any voter to or from the poll is guilty of an unlawful act and liable to forfeit \$100 to any person who sues therefor.

Personation or voting twice.

Personating another voter, or attempting to vote more than once at an election is subject to a penalty of from \$50 to \$200, and the imprisonment for a term not exceeding two years and not less than six months.

Aiding or procuring personation also subjects the offender to fine and imprisonment.

A Candidate who endeavors to induce personation or to take a false oath is guilty of an indictable offence.
