

CRUSHED - not ground. This process removes all dust and chaff. Result - finer flavour. Red Rose Coffee "is good coffee"

Central Guardian

SUNDAY SERVICES—Rev. H. R. Bell will preach as follows on June 14th: South Lake at 11 a. m.; Kingsboro at 7.30 p. m.

CHURCH OF SCOTLAND—Rev. Ewen MacDougal will preach Sabbath, 14th at Point Prim at 10.30; Kinross at 3; and Birch Hill at 7. Mr. J. Harvey Bishop will conduct service on the same day at Brooklyn at 10.30; and Murray River at 7 p. m.

COMMUNION AT STACHEL—The Sacrament of the Lord's Supper will be dispensed in the Kirk Stachel on Sabbath, 21st. Services at 10.30 and 7. Preparatory services on Thursday, 18th and Saturday, 20th at 2 p. m.

PRESBYTERIAN CHURCH IN CANADA—There will be services at Orange Hall, Rose Valley at 11 a. m.; Bradabane at 3 p. m.; Sunday School at 2 p. m. Service at Hunter River will be at 6.30 p. m., Brookfield at 7.45 p. m. Services will start on June 1st. Preacher, Oliver Nugent, Student Pastor.

HALF HOLIDAY—Yesterday afternoon was in general kept as a half holiday by the merchants throughout the city. This custom of closing stores on Wednesday afternoons during the summer season will be followed for the next three months, thus an opportunity will be afforded for merchants and clerks of having one afternoon during the week for recreation.

K. of C.—At a regular meeting of the Knights of Columbus held in their Home, Queen Street, last evening, the following officers were elected: G. K.—St. Clair Trainor; D. G. K.—Alban Farmer; Chap.—Rev. M. Francis; Fin. Sec.—Leo F. McDonald; Rec. Sec.—F. L. Coyle; Treas.—Frank Doucette; Warden—W. W. Coyle; Advocate—W. O. Davy; I. G.—John P. Bradley; O. G.—Thos. Crehan.

ARE REPRESENTING HOSPITAL—Mr. W. K. Rogers, chairman of the Board of Trustees of the Prince Edward Island Hospital, and Miss Anna Mair, Superintendent of Nurses, attended the annual meeting of the Hospital Association of Prince Edward Island and Nova Scotia, the sessions of which were held yesterday and Tuesday at Windsor, N. S. The representatives are expected to return to the Province to-night. Mr. L. D. Currie, Glace Bay President of the Association, presided at the meetings.

BRILLIANT STUDENT—The many friends of Rev. E. S. Weeks, Salisbury, N. B., will be interested to know that his son Ernest has had a most successful year at Mt. Allison University. In Economics I, he led his class with over one hundred in the class, winning a scholarship. He also led in Economics 2. He made high first class standing also in English, General Psychology and German, and a high second class in French and Sophomore Essays. Besides this he took an active part in dramatics and debating, being on the winning team that debated against Truro Agricultural College. He is also on the Mt. Allison team that has been chosen to debate against an American college team that is to visit Mt. Allison early in the fall. Rev. Mr. Weeks is entering on his sixth year as pastor of the Salisbury United Church.

THE BIG PROVINCIAL EXHIBITION of 1931 commences Monday, August 17th and continues until Friday night. Biggest prize list in history. Fastest and best horses will compete. The most thrilling vaudeville acts. Bigger and better Midway. In fact the biggest and best show by large odds ever staged in the Garden of the Gulf. Tell your friends about the dates. Arrange your holidays for this carnival of fun and education. J. W. Boulter, Secretary, Charlottetown, P. E. I.

THREE MILLION TO VISIT WEST COAST IN 1932. SAN FRANCISCO, June 10.—(U.P.)—More than 3,000,000 delegates, visitors and tourists, including many of the nation's most noted economic leaders, will visit California in 1932. Leland Cutler, president of the San Francisco Chamber of Commerce, made this prediction upon his return from the United States Chamber of Commerce convention at Atlantic City. Some 10,000 delegates are expected for the convention of the national chamber when it is held in San Francisco next year, Cutler said. In addition, the Rotary International convention in Seattle; the Olympic games in Los Angeles; the conferences of business leaders of 11 western states, Hawaii, China, Japan and Australia; and the mobilization of the United States fleet at San Diego carrying 50,000 officers and men will be assembled, will all bring many persons to California. Cutler further stated that the Republican and Democratic national conventions might be held here. Cleveland is the only competitor for the Democratic convalescence, he declared, while the G. O. P. meet is practically assured.

POPULARIZING NEW BERRY JACKSON, Mich., June 9. (U.P.)—A new berry, a cross between the raspberry, the blackberry and dewberry is being popularized by the state department of agriculture. It is called the "Young-berry" and is said to be a better product for commercial growth than any of its forerunners.

WHEAT CROP CARS READY. By the time cutting is generally under way, some 35,000 inspected grain and flour cars will be concentrated in Kansas City and the adjacent territory. Many have already been assembled. Speed in harvesting and moving grain has necessitated radical changes in methods employed by the railroads in recent years. A few seasons ago the loading of 600 cars a day was unusual. Last year more than 2,000 cars were loaded on many days, and a maximum of 2,300 cars was reached. Operation of the Trans-Missouri-Kansas Shippers' Board is credited with much of the facilitation. Each year it surveys the situation and lays out a transportation program. The board has authority to order cars to any point at which a shortage threatens.

OPERATION OF THE TRANS-MISSOURI-KANSAS SHIPPERS' BOARD is credited with much of the facilitation. Each year it surveys the situation and lays out a transportation program. The board has authority to order cars to any point at which a shortage threatens.

Potato Acreage For Year 1931

The following report from the Tabb Potato Service, Chicago, Ill., will be of interest to local growers.

Reports from numerous dealers and dealer-growers in the various late producing states received during the last few days indicate that the potato growers of the United States have, as a whole, fully carried out their intentions to plant as reflected by the government report in March.

SOME states show small decreases from the government figures, but these are about offset by increases in others, particularly in the northern states and in Idaho. Based upon the reports we have received, we calculate that the 19 late states are planting about 2,398,000 acres, compared with 2,190,000 acres last season, an increase of 9.5 per cent. The 16 deficiency states apparently show an increase of 11 per cent; and we have used the original government figures on the 13 southern states, showing 17.7 per cent increase.

THE total U. S. acreage appears to be about 3,764,000 acres, compared with 3,394,000 acres actually harvested last season, an increase of 10.9 per cent. Past experience, however, shows there is usually a loss in acreage of about 2 per cent between planting and harvest, due to drought, blights and other causes. Subtracting this would leave 3,688,000 acres for harvest this season.

AVERAGE YIELD. The average yield per acre last year was 106 bushels, and in 1929 the yield was 108 bushels; but both of these were drought years. The five-year average yield, 1929-1930, is 115 bushels, and the normal yield is considered to be about 118 bushels. One or the other of the following crops may therefore be expected this season:

PERSONALS. Rev. H. R. Bell, Kingsboro, was in the city yesterday. Mrs. Jas. Huntley and Miss Shirley Huntley, of Halifax, N. S., are visiting the former's daughter, Mrs. C. S. Dingwell and Mr. Dingwell Bishop St.

COE COLLEGE STUDENTS GIVE TEACHERS RATING. CEDAR RAPIDS, Ia., June 10.—(U.P.)—A new wrinkle in education has been announced by Prof. C. H. Geiger of Coe College. He has worked out a system whereby students of the college can tell their professors what they think of them.

TEXAS EXPERT ERRS. AUSTIN, June 10.—(U.P.)—Even the recognized authorities make mistakes. J. Frank Dobie, expert on early Texas, and celebrated author of "Colorado's Children," has been caught in one by Bill Sterling, the college-educated Texas Ranger who became Adjutant General. Sterling was reading Dobie's "Vaquero of the Ranch Country" when he discovered the book put Fort McIntosh at Eagle Pass. It is really at Laredo.

THEATER IS MUSIC HALL. BOSTON, June 10.—(U.P.)—The Lancaster Theater, a North End movie house, where you can see the show for a dime, spends \$5,000 to \$6,000 a year on a novel cultural program. Among other things, the theater finances the musical education of deserving North End children who show talent training for some 100 other youngsters.

FROG CAUSED SPRAINED ANKLE. ONTARIO, Cal., June 10.—(U.P.)—George Wheeler wanted to see what a frog looks like while croaking its night song, so he and several companions repaired to a nearby creek after dark to satisfy the whim. A frog croaked so unexpectedly that Wheeler did a frog leap, landed in a water hole and sprained his ankle.

BEAVERS MEET TRAIN. LOCKES MILLS, Me., June 10.—(U.P.)—Five beavers met the 8 o'clock train here each night and later loiter around the post office. The postmaster has suggested that maybe they're waiting for their mail.

SORORITY SELLS PEANUTS. CORTLAND, N. Y., June 10.—(U.P.)—Members of the Clonlian Sorority of Cortland Normal School have turned to peanut vending to fill the sorority's treasury.

Patent Located

A patient who escaped guard at Falconwood Hospital Tuesday morning at 11 o'clock through the prompt action of the officials was located about 7 o'clock the same evening near North Milton. The patient who was with a group of others slipped into the woods and disappeared. A search for her was immediately instituted.

LARGELY ATTENDED FUNERAL—The large attendance of citizens at the funeral of the late John S. Pierce yesterday afternoon at 2 o'clock bore testimony of his worth as a citizen. Service at the house, 65 Rochford Street, was conducted by Rev. Dr. E. H. Ramsay at 2 o'clock the funeral cortege leaving at 2.30. The pall bearers were: Messrs. Chas. Earle, John Hillon, John Stewart, Alfred Pickard, B. R. Holman and Patrick McTague. The Lodges of the I. O. O. F. and Sons of England of which the deceased was a member attended in a body. Interment was in the People's Cemetery. Rev. Dr. Ramsay conducting the service.

WISCONSIN MEN WILL EXCAVATE PETRIED TREES. MILWAUKEE, Wis., June 10.—(U.P.)—A forest of petrified trees in Yellowstone National Park will be excavated by a group of men from the Milwaukee public museum. The work will be done at the request of the federal government and is sponsored by the national park service.

DIFFUSE GASES IN SPACE. A great advance in our knowledge of the constitution of the galaxy has been made in the last two or three years by discovery, mainly due to observations with the 72-inch telescope at the Dominion Astrophysical Observatory of the Department of the Interior at Victoria, B. C., that the space between the stars in the galaxy is nearly uniformly filled with very diffuse gases of the principal elements known on earth. These gases are, however, so tenuous that the molecules are some half an inch apart and though rushing about in all directions with a speed of about two miles per second, each molecule will only collide with another about once a year. A hollow sphere, 8,000 miles in diameter, the size of the earth, would only contain some four ounces of this inconceivably diffuse gas and would be thousands of times more highly exhausted than the most perfect vacuum obtainable on earth.

RED STAIN IN JACK PINE. Red stain develops in standing jack pine as a result of infection by certain fungi. Whether or not these fungi continue to develop in the wood after it has been placed in service is a problem at present being investigated in the division of Timber Pathology of the Forest Products Laboratories of Canada, Forest Service, Department of the Interior. It has been determined by analysis of selected red-stained jack pine railway ties that the staining fungi may resist air-seasoning of the wood in which they are growing for a period of two years; and that in such air-seasoned ties they may, in addition, survive creosote treatment. A test track of some 400 selected ties is at present under study to determine the reactions of red-stained wood to service conditions.

OLD FORT TO BE ABOLISHED. AUSTIN, June 10.—(U.P.)—Abolishment of Fort Ringgold by the U. S. Army in its retirement plans would wipe out a place that has become almost a shrine to Texans. The modest little army post on the Rio Grande is visited by thousands because among its officer quarters can still be pointed out the one occupied by Lieut. Robert E. Lee.

Comments Action Preaches For

WASHINGTON, D. C., June 10.—The Rev. G. Z. Brown, negro pastor of the Mount Zion Baptist Church, today claimed the world's record for the longest sermon.

For twelve hours and ten minutes he preached yesterday. His sermon had been prepared and consisted of 88,794 words by official count. Four lamb chops, a chicken leg and a glass of milk sustained him during the ordeal. He had just finished a three weeks vacation which the congregation voted to prepare him for his long-cherished ambition.

Only the chicken and milk were taken to the pulpit. The chops had been devoured beforehand. Brown's first subject was gambling, which took more than three hours. Companionate marriage occupied him until dark. Law breaking, prohibition, fast living and "the evil of dancing" followed in order. "Famine" was reached about 10 p. m., when time out was taken for the chicken leg. Then "pestilence" and "drought" the latter a signal for a few gulps of milk.

Rev. Mr. Brown finished at midnight, "a little husky," as he put it. He described the attendance as excellent; the collection the same.

RESERVOIR FOR NEW YORK MAY WIFE OUT TOWNS. BINGHAMTON, N. Y., June 10.—(U.P.)—Five thriving Delaware County villages will be wiped out to give New Yorkers an extra supply of drinking water.

If condemnation proceedings are successful, Shavertown, Arena, Peapack, Union Grove and Runraven containing nearly 800 persons will be replaced by a 22-mile lake. The Delaware River will be dammed near East Branch to build a lake of 370,000 gallons, according to construction plans. A farm has been located with bed rock 90 feet below the surface, offering a satisfactory dam foundation. The valley to be flooded contains the little Delaware and Northway Railroad. It was purchased several years ago by Samuel Rosoff of New York for \$470,000.

EDUCATIONAL MEN TO MEET. KALAMAZOO, Mich., June 10.—(U.P.)—Educators from eleven Middle Western states will gather here June 12-13, for the second Middle-Western Regional Supervisory conference. The conference was called by Dr. William J. Cooper, U. S. Commissioner of Education. Problems of supervision will be discussed by representatives from the following states: Illinois, Ohio, Indiana, North Dakota, South Dakota, Kansas, Minnesota, Nebraska, Wisconsin and Michigan. Program features include addresses by Dr. Cooper, Edith F. Parker of the University of Chicago, and Mary G. Waite of the University of Cincinnati.

"NEW DISCOVERY" OLD REMEDY IN OREGON. SALEM, Ore., June 10.—(U.P.)—Oregon poultrymen are chucking over a "new discovery"—tobacco as a poultry feed. The announcement was made from a Pennsylvania college. For 25 years, Oregon poultrymen have used tobacco as poultry feed. Its principal use was as preventive of certain diseases. Powdered tobacco mixed in bran or mash feeds was a favorite remedy and is still used quite generally.

LEMON 1 1/2 POUNDS. BINGHAMTON, N. Y., June 10.—(U.P.)—B. E. Whitaker received a lemon weighing one and one-half pounds from a nephew, superintendent of the experimental greenhouse on W. K. Kellogg's ranch at Pomona, Cal. The lemon was 1 1/2 inches in circumference one way and 1 1/4 inches the other way. Mrs. Whitaker was able to make six lemon pies with the large lemon.

DOCTOR'S FRUIT JAR BANK FOUND SOLVENT. SILOAM SPRINGS, Ark., June 10.—(U.P.)—The late Dr. John Doss' fruit jar bank has been found solvent. Shortly before his death recently Dr. Doss told his legal representatives that he had a sum of money hidden but did not reveal its whereabouts. A search revealed \$1,302.50 in a buried fruit jar.
