

Westclox

Buying clocks by name

There is a great difference between buying an alarm clock and buying a Westclox. When you ask for an alarm clock you may be lucky and get a good one. When you ask for a Westclox you get a clock that has built up a reputation for reliability and is very jealous of that reputation.

You can buy alarm clocks for less than you can buy Westclox, but when you consider the certainty in buying Westclox compared with the slight difference in price, Westclox are really cheaper. You will find Westclox at most shops selling good alarm clocks. The name on the dial is your guide.

DON'T FORGET whist in St. Joseph's Sodality Hall tonight at 8 o'clock.

NEW WATER TANK.—The large 60,000 reserve tank in the railway yard has been completed and is now filled with water. This tank built by the railway workmen, replaces the old one, discarded some time ago. It is used for supplying locomotives and is also a provision against a scarcity when that particular section of the city might be cut off for repairs to the mains, etc.

TO PRESENT MEDALS.—The children of Prince Street School will meet in their Assembly Hall this afternoon at 2.15 for the presentation of the Tindale Medals, two of which have been won by Prince Street girls. Addresses will be given by Rev. Mr. Raymond, Judge Stewart and Mr. J. P. Gordon and Prof. Ball will have charge of the music. Parents and friends will be cordially welcome.

CALL TO P. E. I. PASTOR.—Call in favor of the Rev. Geo. Taylor, of Charlottetown, P. E. I., has been made by the Calvin-Westminster Presbyterian minority, now worshipping in the old Baptist Church, corner of Oliver and Western avenues, Westmount, P. Q. This call offers a salary of \$3,000 per annum, and will be submitted to the Montreal Presbytery for endorsement at the next meeting, which takes place on Tuesday night at 9.30 a. m. in Knox-Crescent Church hall—Montreal Exchange.

After shaving—Mina's's Lintment.

PERSONALS

Mr. Edward Roach, Johnston's River, was in the city yesterday.

Mr. Henry Platts, Brackley, was in the city yesterday.

Mr. John C. McDonald, Bedford, was in the city yesterday.

Mr. Thomas E. Dunphy, Peakes Station, was a visitor to the city yesterday.

Mr. Wm. Gillispie, Bonshaw, was a visitor to the city yesterday.

Mr. Louis Drake, Cornwall, was a visitor to the city yesterday.

Mr. Leon Peters, Martin, was in the city yesterday.

Mr. Geo. H. Robertson, Mayfield, was a visitor to the city yesterday.

Mr. Alex Anderson, Orwell Cove, was a passenger by the Harland to the city yesterday.

Mr. Gerald Yeo, has returned home from Aberdeen, Saskatchewan.

Mr. A. R. Dillon arrived in the city Monday night from Montana on a short visit to his mother, Mrs. William Dillon and brother.

The friends of Miss Margaret MacCarthy, of St. John, N. B., who has been visiting her sister, Mrs. F. J. Casey, will regret to learn that she has undergone a serious operation in the Charlottetown Hospital. Later reports are that she is making good progress towards recovery.

DELICIOUS CANDY. St. Paul's, Thursday. 5989-11-11-21

FOXES FOR THE FAIR.—Yesterday afternoon two hundred foxes left for the Royal Winter Fair, which opens at Toronto tomorrow, being over half the total number of entries, which are 350, in all 753 entries were received from Canada and the United States, but less than half that number could be looked after. Hence the cutting down to 350.

TO RECEIVE MEDAL.—The Royal Canadian Humane Association has awarded to Master Wilfred McIsaac the Society's medal for bravery in rescuing from drowning Master Daniel A. Riley at Charlottetown last summer twelve months. Mr. G. S. Inman through whose efforts the medal was procured, handed the same over to the Mayor of the City, who will make a public presentation of this to Master McIsaac in the near future.

With so thorough a preparation at hand as Miller's Worm Powders the mother who allows her children to suffer from the ravages of worms is unwise and culpably careless. A child subject to the attacks of worms is always unhealthy, and will be stunted in its growth. It is a merciful act to rid it of these destructive parasites especially when it can be done without difficulty.

Live Stock Industry

Pasturage and ensilage crops have been further benefitted by the rainfall experienced during the past month. Live stock conditions generally are satisfactory. Although there has been little change in prices a better feeling is noted in the cattle industry, and the basis for it appears to be that breeding herds and feeder stock have been reduced materially. It is expected that, with the plentiful supply of feed on hand, store cattle will be in strong demand this fall. Regarding the beef cattle industry The Canadian Countryman in a recent issue had this to say: "The present low prices for beef cattle are the result of the stimulus given to the industry during the period of the war, and it is expected that a noticeable upward swing in prices will take place before very long. Just how the curve of ascending prices will move, no one, of course, knows definitely but it seems altogether probable that the swing in prices will be upward for the next seven or eight years. There is no doubt in our mind that farmers would be well advised to build up their herds now so as to get the full advantage of the more remunerative prices that can be had in the next few years." Slightly lower prices obtain for hogs and the trend appears to be downward, but they are still considerably higher than a year ago. The decline is stated to be partly seasonal, but is also attributed to the smaller demand for bacon from Great Britain, where the purchasing power of the people has decreased because of unemployment, although in this connection it is noted that large shipments of bacon are being exported to that quarter by Holland and Denmark. A large supply of lambs is available, but it is not expected that prices will go much lower. More attention is being given to sheep-raising than for some time, and it is reported that many ewe lambs are being retained on the farms.

DAIRYING

The extraordinary progress made by the dairying industry of the Dominion during the past few years continues and it is gratifying to find that the demand for Canadian dairy products is becoming greater and wider each year. The output of creamery butter last year was 184,290,908 lb., valued at \$63,449,150. Canadian creamery butter for the product during the year ended 31st July last was the United Kingdom, other markets being the United States, South Africa, Bermuda, West Indies, Newfoundland, Ireland, Cuba, Alaska, China, Japan, Germany, Belgium, Holland, New Zealand, Philippine Islands, South America and Panama.

The growth of the industry in the prairie provinces has been remarkable, particularly in the case of Saskatchewan, which only a few years ago was regarded as entirely grain-growing territory. For the first six months of the current year the butter production of that province was 6,292,432 lb., exceeding the figures for the corresponding period of the previous year by 25 per cent. Manitoba's increase was even greater, being 52 per cent. higher to the end of May last. Alberta, which in 1915 imported 4,116,000 lb. of butter and last year increased its output by 20 per cent. this year. The outstanding reason for this growth, doubtless, is that the farmer is realizing, as never before, that dairying provides a steady source of revenue and affords relief from many of the cares which go hand-in-hand with the production of grains alone.

The figures of the Dominion Bureau of Statistics covering the export of dairy products for the year ended 31st July last, compared with the two preceding years, are as follows:

Butter, 1925, 26,869,307 lb. \$10,317,817; 1924 14,474,341 lb. \$6,278,479; 1923 17,654,220 lb. \$6,507,282.

Cheese, 1925 1,401,493 cwt. \$27,804,665; 1924 1,192,368 cwt. \$23,729,762; 1923 1,088,127 cwt. \$20,142,400.

Milk (fresh and cream) 1925 4,775,195 gal. \$6,906,615; 1924 5,427,568 ga. \$5,453,782; 1923 3,489,046 gal. \$3,837,426.

Milk (condensed, etc.) 507,979 cwt. \$5,500,019; 1924 461,690 cwt. \$5,268,871; 1923 376,863 cwt. \$4,147,409.

Total value 1925 \$60,619,118; 1924 \$39,705,108; 1923 \$34,724,457.

What She Paid

For her gloriously clear teeth was this

Just accept, please, this remarkable dental test. Note how "off-color" teeth go and delicate gums become firm when that dingy film is removed

THE enemy of tooth and gums

Film is the great enemy of teeth and gums; a chief cause, according to world's dental authorities, of most tooth and gum troubles. It clings to teeth, gets into crevices and stays. Germs by the millions breed in it. They, with tartar, are the common cause of pyorrhea. It holds food in contact with teeth, inviting the acid that causes decay.

You can't have prettier, whiter teeth; you can't have firm, pretty gums unless you combat that film.

Ask your druggist or mail the coupon for Pepsodent. Don't expect the same results from old time dentifrices. Begin beautifying your teeth today.
