Canon E. F. Braley has ordered a stop to bellringing in the central tower of 865-year-old English Worcester cathedral when caretakers found two 40-ton pinnacles on the tower badly cracked and in danger of falling. The canon was afraid vibration from the bells would jar the huge pieces of masonry off their piers. Repairmen estimated it will take two months to make the pillars of one of the loveliest churches in England secure and cost will be about \$80,000. Braley, who is worried about how "to come by the money," told reporters that "All the lipstick and face powder of the tower, as it were, has deteriorated."
