CLASSES POSTPONED.—Owing to the illness of Miss Gwennyth Coombs, her classes will not be resumed until next week.

HAIR DRESSING.—Ladies desiring the latest in hair work should look up card elsewhere 1632.

CONCERT.—Tonight in S. A. Citadel at 8 o'clock, consisting of sixteen numbers. Hear the Scotch Bag Pipes play. Big treat in store. Admission ten cents. 1538-3-26M1ipd

ICE RACES.—A special train with horses and sightseers, who wish to see the ice races at Summerside, Friday, will leave Charlottetown at 7 a. m. The return fare will be $1. 1637.

CENTRAL CHURCH SERVICES.—Central Christian Church services will be conducted on the 29th, by Rev. C. E. Hatfield of New Glasgow. All members and friends of the congregation are invited to attend.

NEW GLASGOW CIRCUIT.— Rev. A. J. Macleod, who was a few years ago, minister of the Christian Church at New Glasgow and Bradalbane, will preach in Mr. Hatfield's place in Fredericton at 2.30 and in Bradalbane at 7 p. m. Sunday next.

BANK OF N. S.—The Bank of Nova Scotia announces that on March 14th, they secured premises at Victoria, P. E. I., and then arranged to open at that point. In accordance with this decision a Branch will be established on March 27th, under the management of Mr. K. L. Golding, late of the Charlottetown Branch. 1539.

DWELLING BURNED.—Mr. John Whalen, Irishtown, had the misfortune to have his dwelling house destroyed by fire last Saturday, and with it, besides furniture, clothing etc., a considerable quantity of seed grain. The fire started during his temporary absence from the house. Much sympathy is felt for Mr. Whalen as his loss is a heavy one.

APPRECIATION.— The Catholic Register, of the 19th, inst. of which the Rev. Dr. Burke a well known Prince Edward Islander is editor, contains the following appreciation of Premier Mathieson. "Every big man has the defects of his great qualities. We do not say that Premier Mathieson is perfect by any means. Let him who is, throw the first stone. But we are glad to repeat what we heard from the lips of one of his colleagues at the recent Conference of Premiers at Ottawa, and one of another political school, too: "Premier Mathieson was easily the ablest of all the Premiers of the Conference." That was a glory for Prince Edward Island. It was a glory for him. It was a peculiar pleasure for us who contributed to his being made leader of his party at a critical moment, fully confident that in power some day, he could do more for this Province than any Premier since the beginning."

THE PEOPLE'S THEATRE.— The People's Theatre was well attended last night and a splendid pictorial program was presented. The "star" picture was "The House of Bondage" a three-act drama of the Puritan days in which a girl was charged with witch-craft. The accused girl, however, after being imprisoned escapes and returns to the settlement to give warning of an Indian attack in the warding off of which she loses her life. It is a drama full of tense and dramatic scenes containing thrilling battle scenes and a storm at sea. It was an excellent photo-play and will be repeated to-night when it deserves large houses. "Henrietta's Hair" and "Borrowing Trouble" were two real good comedies, heartily enjoyed. The Pathe Weekly was exceedingly interesting and will be shown again to-night. The People's orchestra were also heard to good advantage. The same program will be reneated to-night.

THE PRINCE EDWARD THEATRE —There was a large attendance at the Prince Edward Theatre last night when a good program of entertainment was presented. The picture program which was entirely changed from the previous evening was headed by a two-act drama of adventure "The Smuggler's Son." It was a story brimful of action and was produced with splendid acting. The photography was especially good and tended greatly towards a splendid production on canvass. "A Soldier of the C. S. A." was another good drama shown. "The Fat Man's Burden," "How They Struck Oil" and "Outblocked" were three comedies of a high order. An interesting British Animated Weekly was also screened. Miss Gardner appeared exquisitely gowned in a new costume of the latest New York style which was made in Charlottetown. She sang "How Long Have you been Married" and was heartily applauded. In the song "When the Bell in the Lighthouse Rings Ding Dong," Mr. Cairns was able to demonstrate the merits of his excellent bar tone voice.

PASTEURIZATION OF CREAM

Pasteurization of cream has become justly popular. While it does not remove all the ills which are apt to befall cream, it does perform the following services:

1. Drives off bad odors, especially those due to feed.
2. Destroys most of the bacteria, leaving a clean seed bed for the added culture to work in.
3. Produces uniformity of flavor from day to day.
4. Makes the cream easier to churn.
5. Adds to the keeping qualities of the cream and butter.

The process of pasteurization is a simple one. To pasteurize cream, place the container in a vessel of hot water. Stir the cream occasionally and bring it to a temperature of 175 degrees F. Leave it covered at that temperature for twenty minutes. It will cool very little if lifted out of the water. Then cool rapidly to 60 degrees F. Pasteurized cream remains sweet for several days. "Starter" must be added to it if ripened cream is desired for churning.

looking at the book, even phone one want will greatly lessen the work of other department. All this is a great waste of time on the part of the person phoning, the operator at the Central, and the clerk in the department wrongly phoned. The news staff, on an upper floor, cannot give the necessary information about either advertising or subscriptions, nor the advertising staff about subscriptions or news, nor the subscription staff about advertising or news. In other words the clerks know and can do but their own work in their own departments, and if it were otherwise they would be continually running from one department to another, upstairs and down, mixing work, wearing themselves out and causing the greatest possible confusion. On and after 6 p. m. daily it is useless to ask for any phone numbers except 132 and 133.

Patrons who consult their phone books for the numbers they really what number to ask for to get and the patient Central telephone and Guardian clerks and thus help make their lives much brighter and happier. 1641

ALWAYS CONSULT THE PHONE DIRECTORY.

It is surprising the large number of people in Charlottetown who, when they want to inquire about their Morning Daily Guardian or subscription, ask Central for the News phone No. 132.3, instead of 132.2, or when they want to inquire about advertising ask Central for the Subscription phone No. 132-2, or for the News Phone No. 133, instead of 132-3; or when they want the News or Editorial Department ask Central for the Subscription phone No. 132-2, or the Advertising phone No. 132-3, instead of 133, although all those departments and their respective phone numbers are plainly given in the telephone book. Some people, instead of

FRUIT TREES FOR TRAVELERS.

Along the highways near Topsham, Maine, where new state roads are being built, residents are grafting the wild apple trees outside the old stone walls along the roadside with Summer apples, early fruit that will be ripe and ready for the wayfarer, no matter whether he travels by Old Dobbin, the automobile or shanks mare.

On these trees metal signs are to be placed informing the public that the fruit is for public use, simply requesting the same care and consideration for others in picking the same that was shown by those who have planted the trees or grafted them for the use of all.

SILAGE FOR HORSES

Some inquiries have been received concerning the advisability of feeding silage to horses and mules.

Silage is not a safe horse feed. It is used to some extent for that purpose, but the feeder must be extremely careful in the examination of the silage that goes to the horses. Horses are more subject to digestive derangements than most other live stock, and while a comparatively small amount, say a fifth of their feed, by bulk, may consist of good silage, there is a great danger from overfeeding, or from feeding of mouldy or spiled silage.

It is impossible wholly to prevent mouldy spots in silage, these being caused frequently by imperfect packing, leaving slight air pockets. Also, it is very difficult to make sure that there are none of these mouldy spots in silage which is being fed. Its use should be confined chiefly to growing colts and idle horses. As it contains about 75 per cent. water, it causes a horse to sweat easily and effects him otherwise in the same way that green feed or pasture does.—G. E. Morton, Colorado Agricultural College.

We Take the Risk

We know you will be delighted with the O-Cedar Polish Mop.

We know you will welcome the relief it brings.

We know you will appreciate the hard work it saves.

We know you will be pleased with the way it dusts, cleans and polishes—all at the same time. That is why we say:—

Try the O-Cedar Polish Mop for 2 days at our risk. If it is not satisfactory, we do not want you to keep it.

The price—$1.50—will be returned without question if it is not all, and more, than we claim. You to be the judge.
