## To Discontinue Buying Hogs for Season

Davis & Fraser are issuing a circular to all buyers notifying them that they discontinue receiving dressed hogs for this season on Thursday next, June 10th, inst. They ask the co-operation of all dealers in their annual appeal to farmers to try to have hogs ready for the early fall market. The meats will be wanted, and from present indications prices are not likely to be much lower. The season just closing has been a very satisfactory one, and the firm assures all interested of its high appreciation of their loyalty to this "Home Industry." They expect to resume packing operations in September, or as soon as sufficient hogs are ready to keep the establishment supplied regularly.

Konora, Ont., Jan. 22, 1920. The Minard's Liniment Co., Ltd., Yarmouth, N. S.

Dear Sirs.—Just a few lines in favor of your Liniment. I would not be without MINARD'S LINIMENT for anything, as it will relieve almost anything. When I go hunting I always take a bottle in my pocket. It is the best for Cold in the Head I ever used; and for Cold in the Chest, and every other part of a person, and for Sore Throat it has no equal. It is also a good liniment for the hair as I always use it. I have also taken blemishes off of horses with MINARD'S LINIMENT and I would use no other for any reason. For Man or Beast as I think it is far the best.

I remain, Yours truly, DANIEL MACLAREN (Signed)

GIVES CHILD \$10,000 ON PRENATAL INJURY.

Court Holds Property Owner Liable for Accident.

NEW YORK, June 1.—Supreme Court Justice Ford has upheld the complaint in a damage suit on behalf of an infant, which was brought on the ground of injuries suffered by the mother shortly before the child was born. The infant is Joseph Drobner, son of Mrs. Sarah Drobner, of 19 west 118th street, who on April 17 last fell into an open coal hole in the sidewalk.

The child born seven days later, showed the effects of the injury, and the mother sued to recover \$10,000 from August L. Peters, owner of the property where the accident occurred. Justice Ford passed on a demurrer which contended that the child could not sue for injuries caused prenatally.

## PURITY - QUALITY - ECONOMY

With the increased cost of labor and materials due to war conditions, it is not reasonable to suppose that a really first class baking powder can be made and sold at the old prices. Rather than sacrifice the quality of

# MAGIC BAKING POWDER

we found it necessary to make slight increases in price during the war period. Even though Magic Baking Powder may cost a few cents more than the ordinary kinds it is still by far the most economical baking powder on the market to-day when purity, strength and leavening qualities are taken into consideration.

Contains No Alum Made in Canada

In his opinion Justice Ford said: "It is our boast that the common law is elastic enough to fit itself to new conditions and to progress, parsipassu, with civilization and our evergrowing humanitarianism, and it is but a manifestation of this spirit of the law to recognize the responsibility of the defendant to this child, now doomed to go through life permanently injured in head, body and limbs." The Appellate Division in Brooklyn had decided that a child born after its mother had fallen in

case showed that the decision was based on that fact that "while the mother was a passenger the child was not, inasmuch as the railroad company had no knowledge of the existence of the child and hence never contracted for its safe carriage." In outlining the difference between the cases Justice Ford said: "In the latter case the mother fell into a coal hole on the public sidewalk. Surely the railroad in the Nugent case does not apply any more than if the mother was carrying her infant in her arms."
