CLUB HAD GOOD YEAR FINANCIALLY
Returns From Burns Concert Unsatisfactory, Committee Reports.

The regular monthly meeting of the Caledonian Club was held on Tuesday evening, February 2nd. The President, Clansman J. M. Macdonald, occupied the chair. There was a good attendance of members, and much interest was manifested in the proceedings.

A number of bills were presented, and being duly certified, were ordered to be paid. Chief T. F. White, chairman of the Burns Anniversary Committee, presented a full report of the celebration accompanied by a financial statement showing a deficit of \$25.55.

In presenting this report, the committee stressed the fact that it was the most unsatisfactory report ever presented by a Concert Committee of the Club for a period of forty years, notwithstanding that the programme on this occasion was one of the best ever sponsored by the organization.

The committee had secured the services of Mr. Alexander Campbell who was acclaimed by the press of Europe and America as the greatest Scottish singer of the age, and Master Harold Sutherland a boy singer who made a great sensation in New York last summer. The unfavorable weather on the second day, the lack of ice on the rivers, and the hockey excitement kept many from attending, but apart from these causes the committee complained that there seemed to be a general lack of appreciation of good music.

The members of the Charity committee presented reports. Payment of all disbursements was ordered, and the committee was requested to discontinue any further expenditure for charitable purposes for the present year.

In the absence, through illness, of the Treasurer, Ex-Chief C. F. McDonald, Ex-Chief John Anderson presented his report which showed the finances of the Club

PROVEN REMEDY

to be in a very satisfactory condition at the close of the past year. The President stated that owing to continued illness the Treasurer had tendered his resignation, and on motion of Ex-Chief J. G. McPadyen, seconded by Ex-Chief T. F. White, Ex-Chief John Anderson was appointed his successor. A number of communications were read and on motion of the Club were ordered to be engrossed in the minutes of this meeting.

Clansman J. B. Manderson brought up the matter of the holding of the Annual Gathering, and as several dates had already been selected for Horse Racing and other social events throughout the Province, he thought it advisable to select a date for this annual event without further delay. This matter was discussed at some length and it was decided to leave it over till next night of meeting.

The members of the Pipe Band, Clansman Manderson, Lawson, Duncan and Reid who were present on this occasion, entertained the members of the Club with a number of choice selections on the bagpipes before and after the close of the meeting.

10 P. C. DUTY

(Continued from Page 1)

tariff is designed as a revenge producing measure but it was certain that in addition to bringing in need of revenue it would discourage imports to some extent. It was an historic occasion. Since approval of the proposals by Commons is certain it marked Britain's definite adoption of protection after almost a century of free trade.

Chamberlain's speech vindicated the stand of his famous father, Joseph Chamberlain, who resigned from the Cabinet 28 years ago because the Government refused to accept his tariff policy.

The Prince of Wales, the Duke of York and Prince George listened in the Peers gallery. Mr. Chamberlain's speech was tantamount to the third budget this year, the other two having been delivered by Lord Snowden in April and September.

The new 10 per cent duty will not apply to articles which already are dutiable under the old import duties.

Faults: We would willingly have others perfect and yet we amend not our own faults.

REPORTS SUCCESSFUL YEAR— The Charlottetown Fire Insurance Co., held its annual meeting last evening in the Y. M. C. A. Hall, a good attendance of stock holders being present. The Company's business for the year ending December 31st, was very satisfactory, the usual dividend being declared for the year. The following officers were elected for the year 1932: Directors, George E. Hughes, A. C. Duchemin, G. W. Ritchie, E. S. Coffin, Nell McKenzie; Auditors, Dr. J. A. Ayers, L. P. Tanton.

THE BEST BARGAINS ever offered here in ladies silk pyjamas, vests, bloomers, slips, etc., sale commences Saturday morning. See our Richmond St. window display and watch for the prices to be announced tomorrow. **Prowse Bros. Ltd.** 531-2-5-21

TO PREACH IN BASILICA— Rev. John McGinn, C. S. P., of New York City, noted American preacher and lecturer, has been invited to preach the series of Lenten sermons in St. Dunstan's Basilica, Charlottetown. Father McGinn belongs to the Congregation of St. Paul and made his Theological course in the seminary at Washington, D. C., completing his training at the Catholic University of America. His preaching tours have taken him four times across the American continent and his voice has been heard in such widely separated cities as Montreal and Los Angeles. His work is now almost exclusively confined to preaching of Missions and retreats. Father McGinn will preach in Charlottetown from Ash Wednesday until Easter Sunday. He will preach at High Mass every Sunday and on every Wednesday and Sunday evenings.

McKinnon, J. J. McKinnon, Ed Henderson, J. F. McDonald, and Geo. A. Hughes. Services at the house and grave were conducted by Rev. R. Moorhead Legate.

NFLD. MIN.

(Continued from Page 1)

Mr. Cashin, who is 42 years of age and has been prominent in Newfoundland politics since first elected to the Legislature in 1923, announced his intention of retiring from public life at the expiry of the present government.

The address in reply to the Speech from the Throne was moved by Nathan Windsor and seconded by J. Green, who established a new precedent by contenting themselves with formal motions, saying nothing more.

The Legislature was adjourned until February 16, despite a protest from F. O. Alderice, leader of the Opposition, who declared business should proceed.

It is expected that the budget and estimates will be presented shortly after the Legislature reopens.

Features of the Speech from the Throne were committal on the world depression on Newfoundland, the increase in newspaper production and value, the promise of continued financial reform, and limitation of an internal loan and legislation to prohibit the export of gold from the country.

Legislation to restrict the export of gold from the country, to make legal tender the notes of certain banks doing business in Newfoundland, to provide a system of treasury control and to effect changes in the auditing system were foreshadowed in the Speech.

It is also expected that Legislation will be introduced to amalgamate the Departments of Fisheries, Agriculture and Mines, and to consolidate the government engineers under the Department of Public Works.

ELECTION CARD

To the Electors of Ward One Ladies and Gentlemen: Complying with the request of a large number of the Electors I have nominated to contest Ward One in the coming Civic Election. I elected I promise to support all measures that may come up for the good of the city consistent with the revenues, to safeguard the interests of the working man, to urge for a reduction in our electric service charge, and rates. Now that valuation of property has been increased I am in favor of a lower percentage of taxation.

There may be some voters that I will miss seeing personally in my canvass, and I earnestly solicit their support on Election Day. If you do me the honor of electing me I will work for the best interest of the city and Ward One in particular. Respectfully yours,
JOHN T. DOYLE

THRONE SPEECH

(Continued from Page 1)

the general depression, it declared Canada's position to be "fundamentally sound." It confirmed the date of the Economic Conference as July 18, it announced that negotiations are under way with the United States for construction of the St. Lawrence waterways, and it forecasted the presentation of a report at this session by the Commission of Transportation.

REDUCTION IN ESTIMATES
Estimates will be reduced. They will conform, in the words of the speech, "to my Ministers' determination to maintain a policy of rigid economy, consistent with a discharge of those statutory and contractual obligations, which is essential to the preservation of the integrity and credit of the Dominion."

From the glitter and gold of the Senate, the members of the House of Commons returned to their own chamber. Here another unique event occurred. A Labor member, sponsored by two other members of the same group, was presented to Mr. Speaker, Humphrey Mitchell, elected in the by-election in East Hamilton, was escorted to Mr. Speaker Black by J. S. Woodsworth of North Centre Winnipeg, and A. A. Heaps, of North Winnipeg. The latter two are veterans of Parliament. The Labor membership in the Commons now numbers four.

The other new member to be presented, Charles Bourgeois, Conservative of Three Rivers, was accompanied by Premier R. B. Bennett and Hon. Alfred Dureanleau, Minister of Marine and Fisheries.

PROCEEDINGS BRIEF
Proceedings in the Commons were brief. A well filled chamber heard Mr. Bennett move that consideration of the Speech from the Throne be deferred until Monday. No objection was offered so the mover and seconder will be heard then. Probably Mr. Hon. Mackenzie King, Opposition leader, will follow.

The House, however, will sit tomorrow for a brief period, when tributes will be paid to members who have died during the session, and possibly some minor matters discussed. The Governor General's drawing room in the evening precedes the possibility of a lengthy session.

After adjournment of the Senate and the House of Commons, Hon. P. E. Blondin, Speaker of the Senate, and Hon. George Black, Speaker of the Commons, received. Both receptions were very largely attended by ladies and gentlemen who had witnessed the opening ceremonies. Refreshments were served in the large railway committee room of the House of Commons.

MONDAY'S DEBATE

OTTAWA, Ont., Feb. 4. (By the Canadian Press)—Debate on the address in reply to the Speech from the Throne will open in the House of Commons on Monday afternoon. Charles Bourgeois, (Conservative-Three Rivers) will move the address. James H. Sitt (Conservative-Selkirk) will be the seconder.

Mr. Bourgeois is a new member of the Commons and was presented to Mr. Speaker at the opening proceedings of the House today. Prime Minister R. B. Bennett and Hon. Alfred Dureanleau, Minister of Marine, were the sponsors. Representing Three Rivers, Mr. Bourgeois was the successful Government candidate late last summer in the by-election in that constituency after the riding had been in the Liberal column for many years.

SENATORS PRESENTED
OTTAWA, Ont., Feb. 4. (By the Canadian Press)—Four new Senators were presented in the Upper House this afternoon prior to the reading of the speech from the Throne by H. S. Excellency at the opening of Parliament today.

General A. D. McRae (Vancouver) was presented by Hon. W. B. Willoughby (Moose Jaw) and Senator George H. Barnard (Victoria, B. C.).

RE. Hon. Arthur Meighen (Toronto) was introduced by Hon. W. B. Willoughby and Senator Pascal Poirier (Ac die).
Hon. C. C. Ballantyne (Montreal) was sponsored by Senator Meighen and Hon. Lorne C. Webster, (Stadacoa, Que.)
Senator W. H. Dennis (Halifax) was introduced by Senator Meighen and Hon. J. S. McLennan (Sydney, N. S.)

The four newly appointed Senators took their seats amid applause.
Hon. J. A. Macdonald (Richmond West-Cape Breton) will probably be presented in the Upper House when the Senate meets again on Monday night.

The party standing in the Senate is: Conservatives 49; Liberals 47; total 96.

EFFORTS

(Continued from Page 1)

ing some districts.

The danger of introducing the Colorado potato beetle in shipments from Canada, led to the ministry's decision not to lift the embargo, stated Sir John Gilmour, Minister of Agriculture, in a communication to Hon. G. Howard Ferguson, Canadian High Commissioner, late this afternoon.

"I need hardly say that for both political and other reasons nothing would give me greater pleasure than to be able to meet the wishes of Canada," the Minister wrote, "and I deeply regret I do not feel I can do so, consistent with my duty to the potato industry here.

"The general grounds on which I fear this would have to be my decision were explained to you at an interview yesterday. The settled policy of this country has always been that potatoes are not to be admitted from any region where the Colorado beetle exists. This rule was framed purely on sanitary reasons. It has been and is applied not only to Canada but also to the United States and France.

"You will, I am sure, recognize it thus not possible for us to depart from the principle in favor of one particular country, even though it is the Dominion of Canada."

MAKES STATEMENT
FLORENCEVILLE, N. B., Feb. 4.—"Nothing short of a crime," said A. D. McCain, Florenceville, Vice-president of the New Brunswick Associated Potato Shippers, when informed tonight that the British embargo on Canadian potatoes would not be removed.

"If our representatives were able to convince the British authorities that there was no danger of the Colorado beetle entering Great Britain with potatoes sent from our country, and I presume, from reports, that they did convince them of this, I see no earthly reason why Britain could not give this country, an Empire possession, a fair show."

"I speak not only for our organization, but for all shippers in the Province, when I say that the news has come as a bombshell. It will mean that we will not obtain a market there."

No Comment

SAINT JOHN, N. B., Feb. 4.—Officials here had no comment to make tonight with reference to word from London that efforts to lift the British embargo against Canadian potatoes had been unsuccessful. Hon. Lewis Smith, Minister of Agriculture in the Provincial Government, is in London with other delegates representing Canadian Potato Growers.

DIPHTHERIA URGES CLAIMS OF CANADIAN RADIO LEAGUE

The High Cost of Individual Cases In The Province.

In years gone by Diphtheria was a disease which caused great alarm to the general public as it never failed to take its toll of young lives. Many families in the past have been wholly exterminated by this grim messenger of death.

In more recent years Diphtheria has been less dreaded after diphtheria antitoxin was perfected and introduced for the cure of diphtheria when given in large quantities, and for temporary immunity when given in smaller doses. The introduction of antitoxin was certainly a great step forward in the treatment of diphtheria and is as important today in the treatment of diphtheria as it was when it was introduced.

However, we still have diphtheria with us and each year a number of young lives are needlessly sacrificed all because the general public have to some degree failed to realize the fact that diphtheria can be prevented, that diphtheria cases should now be decreased to the vanishing point, that almost never should it be necessary to report a diphtheria death.

The deaths which take place each year from diphtheria for the past number of years are due in the main to failure in recognizing the disease in the early stages; not calling in a physician to see the case until it is too late. In order for antitoxin to save the life and prevent complications it must be administered early in the disease and in fairly large quantities.

During the last few years a great impetus has been given to the prevention of diphtheria by a product known as "Toxoid" which will give about 95% complete protection to all individuals when administered according to the directions. Prevention is, without doubt, much better than cure, and if the general public, the parents and guardians of children could be made to realize this fact, then the diphtheria problem would be a thing of the past.

Apart from the deaths that result from this disease, many who recover from it have frequently heart lesions, paralysis of the throat, etc., which render them semi-invalids for the remainder of their lives, thus interfering with their earning capacity and often they become public charges, liabilities to the community or to the provincial treasury.

Our diphtheria cases each year with the isolation of the cases, the quarantining of the contacts, the supplying of antitoxin, the paying of medical care, and in indigent cases, the paying of grocery bills, fumigation, etc., cost the provincial treasury quite a sum of money annually. Last year one case of diphtheria in a child, in an indigent family was investigated and it was found that the expenses resulting therefrom amounted to \$68.85, or a sufficient sum of money to render protection to 145 children for life by immunizing them against diphtheria with Toxoid. Had this child been protected at a cost of less than half a dollar, the Government would have saved this sum of money.

Toxoid has been found to give about 95% protection. Vaccination against smallpox protects about equally. Surely the time is opportune for legislation to be enacted and the law properly enforced that all children be protected against both diphtheria and smallpox before entering school. It would be the means of saving many young lives, needlessly sacrificed as at present, and at the same time save the parents, the community, and the province, much financially as well as the annoyance of quarantine in many cases and the loss of time from profitable employment resulting therefrom.

The greatest asset of the province for tomorrow are the children of today and unless every effort is directed towards the safeguarding of their health at the present, we cannot expect them to develop into the strong, healthy citizens we would desire them to become in the next generation.

By rendering them this protection we would save lives and money at the present, and at the same time, bequeath a more viable race to posterity.

CANADIENS 6 MAROONS 5

FORUM Montreal, Que., Feb. 4 (By the Canadian Press)—Coming from two goals behind in the third period, and notching the deciding number in the extra session, Montreal Canadiens went into a tie for first place of the Canadian section of the National Hockey League here tonight by defeating Montreal 6 to 5 in the 60th minute of play.

It was from the stick of Wildor LeCompte that the two goals came. The Canadiens were trailing 5 to 3 with less than five minutes to go. Young bulls grabbed a pass from Monette and they beat Walsh with a shot that bounded into the net. A goal which promptly later he tore down, leaving the Maroons coal again and now a 1-1 tie. Maroons' point guard, Maurice Phillippe, went back into the Maroon cage.

ELECTION CARD

TO THE ELECTORS OF WARD FOUR

I respectfully ask the support of those who feel that I am capable of representing them in Ward four and the city in general.

FRANK S. CURRIE.
533-2-5-51
