

# VIC SENIORS WON THE GAME

### Last Night's Hockey a Victory for Victorias by Score of 9-5

## CRYSTALS WON THE INTERMEDIATE GAME

Victorias-9, Crystals-5.

The above is the result of last night's hockey match in the Arena. Speculation had been rife before the game as to the possible outcome, and in many cases opinions were at some variation. It became evident, from the very opening of play to the finish that the Victorias were superior to their opponents, particularly in team work, which was one of the best features of the Vics' playing. It was generally considered that the Crystals were not in good form, for with such good material as they had, they should have played much better hockey. There was not enough combination play on their part to balance the splendid team work of the Vics' fast forwards, who held to their positions well. LeBlanc played a good defence game and made occasional intrusions into Crystal territory—taking the puck with him, of course. The same can be said of Grady whose play was ever aggressive, cool and steady. McAskill did some excellent work in the nets.

Individual play was the chief characteristic of the Crystals game, and some of it was really excellent. The work of Phillips, Gallant and McDonald in this regard was at times spectacular. Peery played well but seemed just a little off colour. Despite this he dropped in two of the five.

# DIES IN ATTEMPT TO SAVE LIFE OF ANOTHER

NEW YORK, Feb. 6.—At least one fatality and the injury of several persons and spectacular rescues by civilian volunteers as well as the firemen marked a fire which swept up the dumb waiter shaft of a five story apartment building at 107 East 68th Street last night.

The one known victim was himself a hero. He was A. Schimmel, a Venezuelan, 25 years old, who lost his life in going back after once out of danger to hunt for Florence O'Connor. The girl, who was ten years old, is believed also to have perished. Her parents were both seriously injured and the mother will probably die.

Six other O'Connor children and occupants of several other apartments were badly burned or injured.

# THE ANVIL

Last eve I passed beside a blacksmith's door,  
And heard the anvil sing the vesper chime;  
Then looking in, I saw upon the floor,  
Old hammers, worn with beating years of time.

"How many anvils have you had," said I.

"To wear and batter all these hammers so?"

"Just one," he said; then, with a twinkling eye,  
"The anvil wears the hammers out, you know."

And so, I thought, the anvil of God's Word  
For ages septic blows have beat upon;  
Yet, though the noise of falling blows was heard,  
The anvil id unharmed—the hammer's gone.

# DEMOCRATS PLEDGED TO RECIPROCITY

WASHINGTON, Feb. 8.—Favorable action by the House on the Canadian reciprocity agreement was assured tonight when the caucus of Democratic representatives formally pledged the party to vote for the agreement.

# BRITISH CABINET SOLIDLY UNITED

LONDON, February 8.—With parliament now under way, it is asserted that never has the cabinet been more solidly united than at present. The Irish party are said to be acting in perfect accord with the cabinet, serene in the confidence that home rule is coming and that the passing of the veto bill is a necessary preliminary to it. As for the preamble to that bill, which certain radical members of the government party would rather see discarded, even these members now agree, that as the recent elections were fought on the preamble bill containing the preamble, as the chief issue, it would be a tactical mistake for the government to leave out the preamble now, as this would lay them open to the charge of deceiving the voters.

Redmond and his party do not care very much whether the House of Lords is reformed or not, but the Unionists hope that the Labor party will vote against the preamble and the leaders of the Labor party would probably see that this would mean a victory for the Lords and will vote with the government. With unity and control in the Liberal ranks the parliament bill should be passed by the House of Commons before Easter and the whole constitutional crisis settled before the coronation.

As to what will happen after the present difficulties have been successfully solved, all kinds of rumors are afloat. Time and again it is asserted that Mr. Asquith has carried through his program he will feel that he has done his duty to his country and will turn over the leadership to one of the younger men of the cabinet, either Churchill or Lloyd George.

# ACTOR BADLY BURNED AT A CALAIS HOTEL

CALAIS, N. B., Feb. 8.—Shirley Llewelyn, who was taking part in an opera, which was put on last by a company from Eastport, met with a serious accident at the hotel after the performance. By mistake he entered an unoccupied room, in which the gas had been turned on but not lighted. When he lit a match there was an explosion, which caused some excitement for a little while. A hole was blown through a partition, causing flames to start, that it took some time to extinguish, although confined to one room.

Mr. Llewelyn was seriously burned about the face and hands.

"The President has submitted to the Congress his recommendation upon that subject, but it would seem from the press reports that the present Congress is unlikely to act upon them. In view of these conditions, and in view of the emphatic stand taken by the people of this Commonwealth in favor of reciprocity, I deem it to be of the greatest importance that Congress receive at once from you a memorial to take prompt action in support of the President's recommendation. A memorial from the Legislature of Massachusetts will be of exceptional weight in Congress."

# SCHEME TO DAM ST. LAWRENCE IS BOWLED OUT

WASHINGTON, Feb. 7.—The house today defeated the bill giving the right to erect dams in the St. Lawrence River near Long Sault, Barnhart and Sheek Islands, so as to utilize the water power of that stream.

It was asserted in debate that the so-called "Aluminum Trust" was back of the bill, and proposed to make an investment of \$40,000,000. The state of New York had granted a charter to the company and water from rights. The only interest of the United States, it was declared, was to preserve navigation.

# NOT ORDERED BUT ALLOWED TO PARADE

OTTAWA, Feb. 8.—Col. Sam Hughes (Victoria and Halliburton) was told by Sir Frederick Borden, in the house today, that the Tenth Hussars and the Papal Zouaves, of Quebec, had paraded in uniform and under arms to receive the papal legate to the Eucharistic congress last summer. They had saluted his eminence and had acted as his guard of honor during his visit. The two corps were not authorized by the government to turn out, but were permitted by the militia act to volunteer for church service.

No guard of honor had met or acted as an escort for Bishop Ingraham, of London, who visited Canada, as an accredited representative of King George, because the matter had not been brought forward.

Sir Frederick Borden said there had been no transgression of military law.

# COUNT ON STAND IN MURDER TRIAL

ST. PETERSBURG, Feb. 6.—Count Patrick O'Brien De Lassy, who with Dr. Pantchenko, is being tried for the poisoning of Count Vassil Boutourlin, occupied the centre of the stand at the proceedings today. The prosecution is endeavoring to establish that De Lassy wrote a letter to Pantchenko relating to a plan to poison both general Boutourlin and his son.

The letter, which was typewritten was found among Pantchenko's papers at the time of his arrest. The envelop was missing, and Pantchenko explained that he had thrown it away. The author has been attributed by Pantchenko to De Lassy, who stoutly denies this. As a test De Lassy was instructed to recopy a portion of the letter on his own machine which was brought into Court today.

Surrounded by Germanes and typewriting experts he wrote two pages with great difficulty and then feigned eye failure. An examination of the lines showed that he had made one grave error.

Count De Lassy's attitude apparently is that he has been made the victim of a blacked.

The testimony in the evening threw light on the mysterious schemes of Pantchenko and De Lassy long before the death of Count Vassilla. A telegram from Pantchenko addressed to De Lassy and dated March 15, 1909, read: "Remit 300; will arrange affair" was presented in evidence. Pantchenko explained that this referred to the sale of De Lassy's house at Vain, but the prosecutor established the point that De Lassy acquired the house in July, 1909.

Further testimony showed that the two men met in the St. Petersburg House of M. Dumova, a high railway official, where De Lassy was stopping. The latter's financial entanglements, which were gone into extensively by the prosecutor, indicated that his troubles began about the time the Minister of Marine countermanded orders at De Lassy's shipbuilding works.

The experts were about evenly divided. One Government expert declared that the letter had been written on De Lassy's machine; another that it was written on a Union machine, but it was De Lassy's or somebody else. One expert for the defence declared definitely that the letter had not been written on De Lassy's machine. Others took the ground that the data was not sufficient to warrant any conclusion.

NEED FOR NEW NATIONAL PARTY

TORONTO, February 6.—In a front page editorial the World today calls for the establishment of a new national party. In part the article says:

"Canada as a federation and a nation, Ontario as a province of that federation, is much in need of a national party.

"By a national party we mean a political movement consecrated to the duty of all to maintaining and forwarding the idea of a Canadian nationality of this North American continent in alliance with a living integral part of the British empire.

"Second, consecrated to the idea that in regard to all public services, whether under federal or provincial organization, the first duty to uphold is more public rights as against corporation aggression and corporation arrogance.

"In a word to uphold the idea of Canadian nationality, to uphold the rights of the Canadian people to adequate service and to regulate corporations, service undertaken by corporations."

# FIRE IN CONVENT

MONTREAL, Feb. 8.—The convent school of the Sisters of St. Anne of Lachine, situated on St. Joseph Boulevard, just opposite Cadieux street, was burned to the ground early this afternoon. Nine hundred children attended the institution daily, but fortunately the greater part of them had just left for luncheon when the fire was discovered, which was a few minutes after twelve.

The remaining two hundred or so were gotten out in record time by the sisters.

No sooner was the last one outside than the flames burst through the roof. A couple of minutes afterwards the building was one mass of flames.

The Montreal fire brigade, with Chief Tremblay himself in charge, responded very quickly to the alarm, but for all the good they did they might have stayed away, for there was no water pressure.
