LAUSANNE, Feb. 1.—The draft treaty which the Allies submitted for Turkish signature on Wednesday bears the caption, "Project of the treaty of peace," thereby bearing evidence that the document is not necessarily definitive. The contracting parties are Turkey, on the one part, and Great Britain, France, Italy, Japan, Rumania and Junco-Slavia on the other. The question of judicial guarantees for foreigners is covered in a special declaration which outlines the systems which the Turks refuse to accept.

It proves that for at least five years Turkey will organize a corps of legal advisers. The Turkish government will appoint a commission composed of two Turkish and three justices of The Hague tribunal which will submit a list of foreign advisers. These will be attached to the ministry of justice and assigned to service in the Turkish courts in Constantinople, Smyrna, Samsun and Adans and also to the courts of appeal and Cassation. One foreigner will be present in ordinary trial cases involving foreigners and they must be the majority when cases are tried in courts of last appeal.

Arrests in large cities can only be by a permit from the legal advisers, and foreigners arrested elsewhere, if without a permit from the advisers, can demand to be brought before one of the advisers for a hearing.

The problem of Mosul is frontier between Turkey and Iraq will be determined in conformity with a decision to be rendered by the council of the League of Nations. The project for a convention for the administration of the straits is a separate document; it stipulates that the straits control commission may include a representative of the United States when the United States adheres to the straits treaty.

The mysterious guarantee of nonaggression which Turkey demanded is found to be, in case of any act of war or menace to the security of the demilitarized zones, the high contracting parties, "and in any event, France, Great Britain, Italy and Japan, will hinder them conjointly by every means that the council of the League of Nations may lay down."

The remainder of the convention, by which waterways are open to merchantmen and warships under defined restrictions is virtually as has been reported from time to time.

The treaty fixes the entire frontier of Turkey except that of Mosul. It gives Eastern Thrace to Turkey. The financial clauses many of which Turkey has refused to accept are set forth in great detail.

Much Wrong With Canada HAMILTON, Ont., Feb. 2.—Pleading for a renewal of the rugged honesty of pioneer days, Premier John Oliver, of British Columbia, told the Canadian Club last night that much was wrong with Canada at present, because of the mental attitude of its men and women was wrong.

For one thing, he said, there are far too many white collared men who are afraid to lose a little honest sweat, but who exact a fat living from the grime of the toiler. Men and women were crying for bread, while countless acres that should produce food for all were lying idle. The rewards of industry were not equally distributed. Too many parasites were living on the men who are really producing the wealth of this country.
